

**SFM Online Program Phase II**  
**AP-FECM SFM Certificate**  
**Master's Degree &**  
**Scholarship**

# Outline

- SFM online courses phase II & AP-FECM Certificate
- Development of SFM online courses phase II
- Potential Master's degree program
- Scholarships for SFM Web-based program

# SFM Online Courses Program Phase I

No	Courses
1	Sustainable Forest Management in a changing world John Innes (UBC)
2	Governance, public relationship and community development Juan Pulhin (UPLB)
3	International Dialogue on forestry issue Hosny El-Lakany (UBC)
4	Restoration of degraded forest ecosystems and forest plantation development – Christopher Weston & Luba Volkova (UM)
5	Sustainable use of forest goods and services Wan Razali & Awang Noor (UPM)
6	Forest resource management and protection L Luo Youqing (BFU)

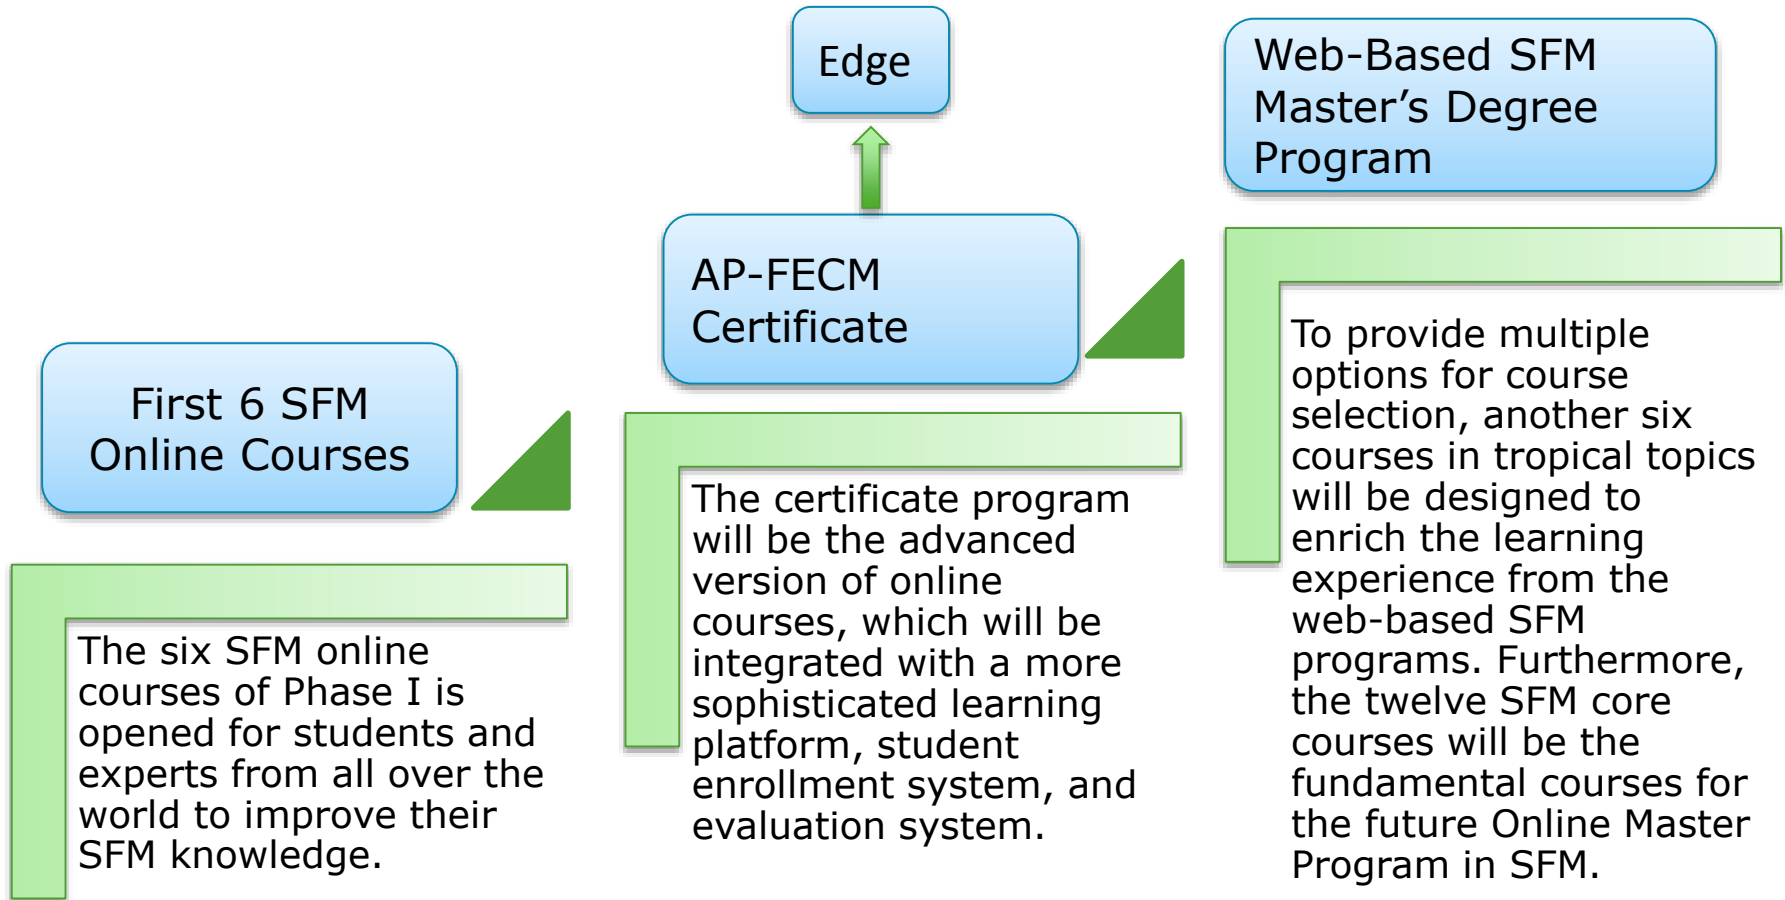

# AP-FECM Certificate Program

- The AP-FECM certificate program will be initiated using the six SFM online courses that have already been developed.
- The AP-FECM certificate will be a low cost program that opened to forest stakeholders including senior forestry students, young faculty and mid-career professionals in the Asia-Pacific region.
- To receive the AP-FECM SFM program certificate, students will need to complete six courses and pass the final assessment of each course to get a total of 18 credits.

- EdX Edge web-based course platform will be selected as the provider of the Certificate program

# Progress of SFM Online Course Development

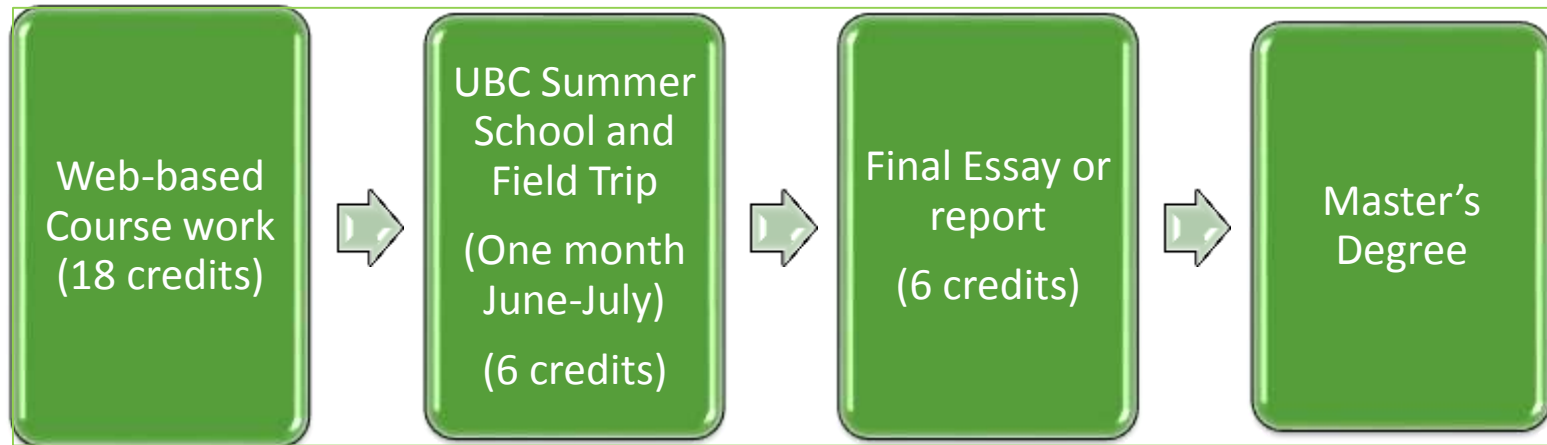

# SFM Online Courses Program Phase II

Six new courses focused on tropical forests

- Plantation design and management – UMelbourne/CSIRO
- Geomatics in forestry (Data collection and measurement) –
- Climate modelling and forest application -
- REDD and forest carbon management – CIFOR
- Forest resources decision making – NTU/UBC
- Community forests and livelihoods – RECOFTC

# Web-Based Master of Sustainable Forest Management

- The Web-based Master's Program will be organized as a cohort program by the five participating universities involved in the design of the first six SFM Web-based core courses. Future partners may be added as the next six courses developed.
- The whole Master's program package, including course curricula, instructors, field trip schedule and graduating paper requirements, will be prepared by the participating universities.
- The host universities will need to obtain all relevant approvals (university, government) to host an on-line Master's program.

# Scholarships for SFM Web-based program

This brand new scholarship dedicated to AP-FECM SFM Web-based program will add value to the enrollment of the AP-FECM certificate program and the Web-based Master's Program.

The scholarship will directly connected to the Web-based Master's Program (once it is launched).

When completed SFM online courses and obtained the AP-FECM certificate, applicants will be eligible to apply for the scholarship to pursue the remaining requirements of the Web-based Master's Program from any of the participating universities.

Applicants have to meet the minimum admission requirements of the host university.
