

Agenda of the Module 1 of the Lumpy skin disease and bluetongue training of trainers in the former Yugoslav Republic of Macedonia

	No.	Title	Content	Mode	Person	Time	Duration
Day - 1	1	Introduction	How to prepare yourself for training? How to make a presentation? How to present? How to keep the focus of the group? Syllabus and training materials for the cascade training To present the project and the training.	PP	BT	9:00 - 9:30	30
	2	BT in the region	The situation with the BT in the region	PP	TA	9:30 – 10:00	30
	3	BT in RM	The situation with the BT in FYR of Macedonia	PP	BT	10:00 – 10:30	30
	4	Break		coffee	11	10:30 – 11:00	30
	5	LSD in the region	The situation with LSD in the region	PP	TA	11:00 – 11:30	30
	6	LSD in RM	The situation with LSD in FYR of Macedonia	PP	BT	11:30 – 12:00	30
	7	Break		lunch	11	12:30 – 14:00	90
	8	Main characteristic and importance of BT	<ul style="list-style-type: none"> - Etiology - Agent - Host - Occurrence - Diagnostic - Data on the disease 	PP	KK	14:00 – 14:30	30
	9	BT	Agent and hosts Epidemiology: Spreading routes and transmission Clinical diagnosis: Clinical sings, Differential diagnosis, Necropsy and post-mortem lesions and findings	PP, poster, videos, brochure, manual	TA	14:30 – 15:00	30
	10	Break		coffee	11	15:00 – 15:30	30
	11	LSD	Agent and hosts Epidemiology: Spreading routes and transmission Clinical diagnosis: Clinical sings, Differential diagnostics, Necropsy and post-mortem lesions and findings	PP, poster, videos, brochure, manual	BT	15:30 – 16:00	30
	12	BT and LSD in wildlife	Role of wildlife in spreading of the disease Clinical sings Susceptible species present in the region	PP	TA	16:00 – 16:30	30
Day - 2	1	Compulsory reporting Measures in case of suspicion	Immediate notification Awareness Reporting Sampling (type of samples) Sharing experience SOP when encountering a suspect case Measures on the holding	PP	BT	9:00 – 9:30	30
	2	Measures on positive holdings BT and LSD	Scenario Bulgaria (EU) rules Ban of movement and derogations for live animals and products thereof	PP	TA	9:30 – 10:00	30

No.	Title	Content	Mode	Person	Time	Duration
		Stamping out, destruction of carcasses, compensation and restocking				
3	Biosecurity	Definition Biosecurity on farm Feasible biosecurity measures for BT and LSD Cleaning and disinfection Disinsection, pest control Vector control: Repellents, Treatment of manure, Installing mesh, etc. Treatment of water	PP, brochures, videos	BT	10:00 – 10:30	30
4	Break		coffee	10	10:30 – 11:00	30
5	Self-biosecurity	Planning of visit Dressing and undressing SOP Sharing experience	PP, videos, practical example, disposable materials, buckets ...	TA, BT	11:00 – 11:30	30
6	SOPs when encountering an outbreak	Sampling Stamping out Cleaning and disinfection Final inspection	PP, videos, practical example, disposable materials, buckets ...	TA, BT	11:30-12:00	30
7	Vaccination	What vaccines can be used, side reactions, storage of vaccines, monitoring etc.	PP	TA, BT	12:00-12:30	30
8	break		lunch	10	12:30 – 14:00	90
9	Biosecurity	Practical exercise Planning of visit	group work	TA, BT	14:00 – 14:45	45
10	Self-biosecurity	Practical exercise	group work	TA, BT	14:45-15:30	45
11	Break		coffee	10	15:30 – 15:45	15
12	Epidemiological investigations	Outbreak investigation BT and LSD Prioritizations Sharing experience SOP	PP	TA, BT	15:45 – 16:15	30
13	Basic Epidemiology	Definitions Data collection Analysis of data Types of surveys Vector surveillance Risk based epidemiology Application of epidemiology	PP	BT	16:15 – 16:35	20

Agenda of the Module 2 of the Lumpy skin disease and bluetongue training of trainers in the former Yugoslav Republic of Macedonia

No.	Title	Content	Mode	Time	Duration
1	BT in RM	The situation with the BT in FYR of Macedonia	PP	9:00 – 9:20	20
2	LSD in RM	The situation with LSD in FYR of Macedonia	PP	9:20 – 9:40	20
3	BT	Agent and hosts Epidemiology: Spreading routes and transmission Clinical diagnosis: Clinical sings, Differential diagnosis, Necropsy and post-mortem lesions and findings	PP, poster, videos, brochure, manual	9:40 – 10:20	40
4	LSD	Agent and hosts Epidemiology: Spreading routes and transmission Clinical diagnosis: Clinical sings, Differential diagnostics, Necropsy and post-mortem lesions and findings	PP, poster, videos, brochure, manual	10:20 – 11:00	40
5	Break		coffee	11:00 – 11:30	30
6	BT and LSD in wildlife	Role of wildlife in spreading of the disease Clinical sings Susceptible species present in the region	PP	11:30 – 12:00	30
7	Compulsory reporting Measures in case of suspicion	Immediate notification Awareness Reporting Sampling (type of samples) Sharing experience SOP when encountering a suspect case Measures on the holding	PP	12:00 – 12:30	30
8	Break		lunch	12:30 – 13:30	60
9	Measures on positive holdings BT and LSD	Scenario Bulgaria (EU) rules Ban of movement and derogations for live animals and products thereof Stamping out, destruction of carcasses, compensation and restocking	PP	13:30 – 14:00	30
10	Epidemiological investigations	Outbreak investigation BT and LSD Prioritizations Sharing experience	PP	14:00 – 14:30	30
11	Vaccination	What vaccines can be used, side reactions, storage of vaccines, monitoring etc. SOP	PP	14:30-15:00	30
12	Break		coffee	15:00 – 15:30	30
13	Biosecurity	Definition Biosecurity on farm Feasible biosecurity measures for BT and LSD Cleaning and disinfection Disinsectation, pest control Vector control: Repellents, Treatment of manure, Installing mesh, etc. Treatment of water	PP, brochures, videos	15:30 – 15:50	20
14	Self-biosecurity	Planning of visit Dressing and undressing SOP Sharing experience Practical exercise	PP, videos, practical example, disposable materials, buckets ...	15:50 – 16:30	40
