

WFC2015

XIV World Forestry Congress

Forests and People: Investing in a Sustainable Future

“Integrated approaches to landscape restoration and sustainable land management”

TITLE: Integrated approaches to landscape restoration and sustainable land management

SUB-THEME 3: Integrating forests and other land uses

ST3, SESSION 4: Integrated land use: from policy to practice

DATE AND TIME: Wednesday, 9 September; 14:30-16:15

ROOM: 11 AB

DESCRIPTION: This session will discuss integrated approaches to landscape restoration and sustainable land management. Drawing on examples from different regions of the world and from perspectives of different stakeholder groups, it will explore relevant experiences and best practices, socio-economic issues, and enabling policy and institutional frameworks. The session will consist of presentations by the authors of selected voluntary papers submitted to the Congress. Each author will be asked to give a short presentation of the paper, then to focus on providing a few key messages of wider relevance. The outcome of the session will be summarized in a report and the key message(s) reflected in the report of the World Forestry Congress.

PROGRAMME

14:30-14:40: Welcome and opening by the session moderator

Dr. Michael Kleine – IUFRO Deputy Executive Director, International Union of Forest Research Organizations (IUFRO)

14:40-15:25: Voluntary paper presentations

Mr. James Reed – Center for International Forestry Research, Indonesia
What are ‘integrated landscape approaches’ and how effectively have they been implemented in the tropics: a systematic map

Mr. Lucas Gutierrez Rodriguez – Center for International Forestry Research,
Indonesia

The socioeconomic and environmental effects of China's Conversion of Cropland to Forest Program: preliminary results from a systematic review

Dr. Paxie Chirwa – Professor, University of Pretoria, South Africa

Management and restoration practices in degraded landscapes of the Sahel and dry forests and woodlands of eastern and southern Africa

Ms. Lucía Madrid Ramírez – Consejo Civil Mexicano para la Silvicultura Sostenible,
Mexico (Mexican Civil Council for Sustainable Silviculture)

Manejo integrado del paisaje: caso de estudio en el centro de México (Integrated landscape management: case study in central Mexico)

Dr. Renée Lapointe – Director, Ecosystem Health Science Program, Canadian Forest Service, Natural Resources Canada, Canada

Science-based responsible resource development: lessons learned from two Canadian success stories

Mr. Hugh Doulton – Technical Director, Dahari, Comoros

Competing land-use in a small island developing state: using landscape approaches to manage sustainable outcomes in the Comoro Islands

Dr. Michele Bozzano – Research Support Officer, Bioversity International, Italy

Is there a need for a forest restoration certification scheme?

15:25-15:40 Moderated discussion among the speakers

15:40-16:05 Questions and remarks from the audience

16:05-16:15 Summary of the key points of the session and closure by the moderator
