["60 years of Unasylva – Weaving knowledge into development"](#)

FAO's longest-running periodical celebrates its 60th anniversary with a special double issue, reprinting a decade of *Unasylva's* rich history. The selected articles illustrate how "Weaving knowledge into development" from the March 2007 session of the FAO Committee on Forestry, characterizes what *Unasylva* has become. Collectively, these articles document the evolution of forestry and of FAO's activities in forestry – and some articles may surprise readers by anticipating concepts that we thought were new.
