Same letters means there are no significant differences for the testing of LSD for a  $P < 0,05$

A photograph of a forest path in autumn. The path is covered in fallen yellow leaves, and the trees are tall and thin, with some yellow leaves still on their branches. The sky is blue with some light clouds. The text "Thank you for your attention" is overlaid in the center in a bold, yellow, serif font.

**Thank you for your  
attention**
