

# CPF Portal on Forest Reporting

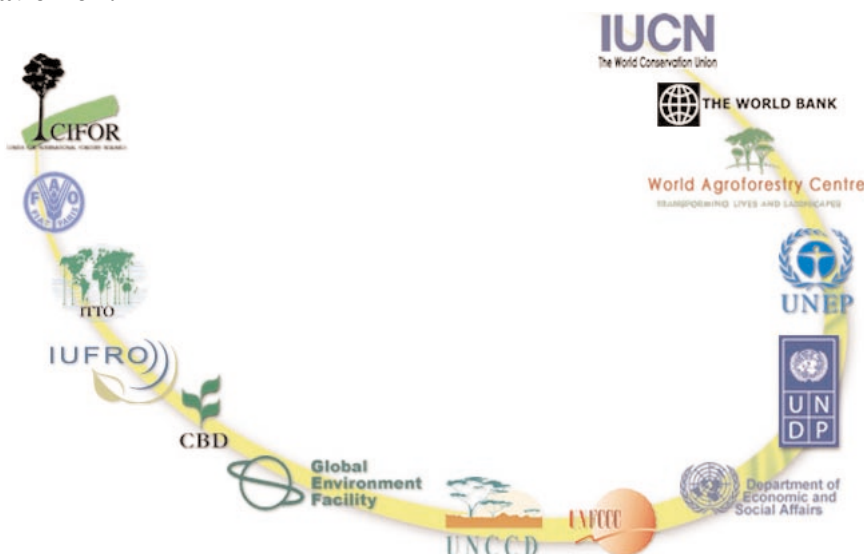

<http://www.fao.org/forestry/cpf-mar>

Many international organizations, institutions and instruments regularly ask countries to provide data and information on their forest sector.

In order to reduce the reporting burden on countries and to make the best use of existing forest-related data and information, the CPF Task Force on Streamlining Forest-Related Reporting has established an internet portal that provides information on:

- The main forest-related reporting schemes of CPF member organizations
- National reports previously submitted to CPF member organizations or their governing bodies
- The work of the CPF Task Force
- Other useful guidance, linkages and information

The portal is intended to assist countries in their reporting efforts and to serve as an easily accessible source of national information on forests for all stakeholders.
