

## The status of wildlife of Tajikistan

Reported by Tajik Team

### Main tasks of sustainable use and conservation of wildlife resources in your country prior to the 2006 workshop in Prague

- Development of new and perfection of existing methods and ways of protection of rare and disappearing species of animals,
- Mitigations of anthropogenous pressing on all complex of the animal population of the republic
- Creation of the scientific-methodical center;
- Creation of new nature protection systems;
- Wide propagation among local population about value natural protected territories and their uniqueness;
- Preparation of the documentation on creation of new SPT;
- Development of new specifications on a mode of SPT;
- Inventory of flora and fauna in SPT;
- For improving this situation it is important to carry out a regular monitoring

## Benefits of workshops in Prague and Antalya for you country

- Intensified work on bylaws is conducted
- The National report on the current condition of wildlife was prepared
- 

## Current and expected problems of sustainable use and conservation of wildlife resources in your country

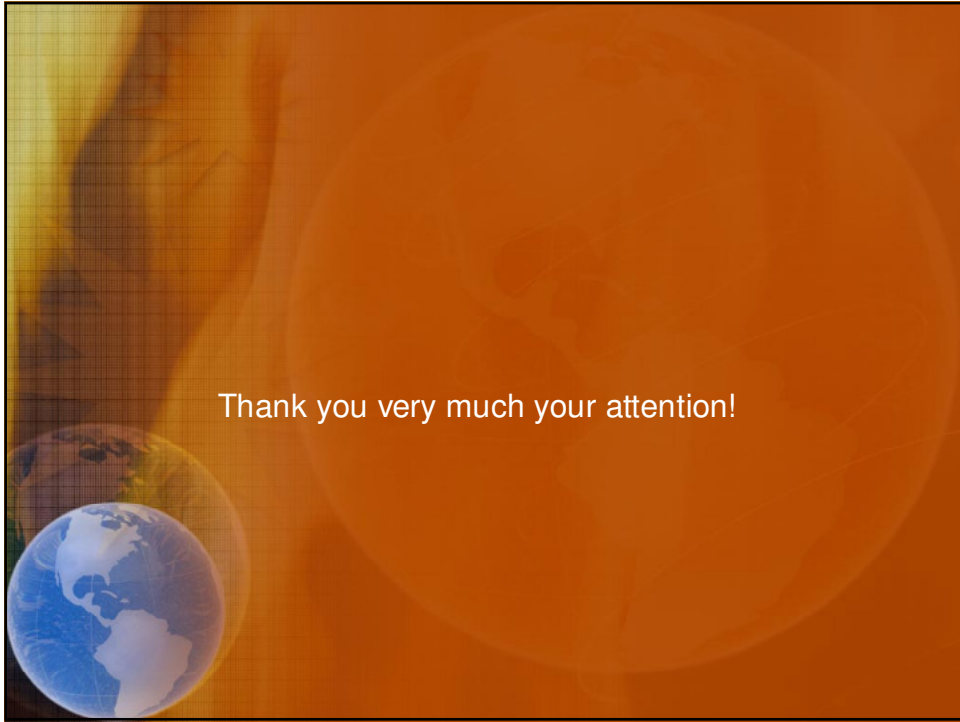

- Establishing of the nursery for Bukhara Deer
- Creation of the three nurseries for breeding and expansion of the three subspecies of Pheasant
- Initiation of international reserve (Tajikistan, Afghanistan, China and Pakistan)
- Territorial expansion of Dashtijum reserve by joining it with neighboring Dashtijum sanctuary. It allows stabilizing the situation of the Markhor population
- To grant the status of reserve for habitats area of Bustard

## Actual conflicts of hunting, environment and human society

- The government has forbidden hunting in the area of Marco Polo sheep – for example Pamir
- For determined payment hunting on wild animals (wolf, wild boar and others) is conducted – but in insignificant scale
- Despite of not expensive issuing of licenses, local people hunt illegally
- The government permanently controls poaching
- Cross-border illegal hunting (e.g. Afghan citizens hunt on markhor)
- Need for increase of the role of local communities in the protection and sustainable use of wildlife
- 

## Area of problems where help of international experts is needed the most in your country

- Development of National Strategy and Action Plan on animal world protection and their rational use
- Zoning of the territory of Tajik National Park
- Establishing of Shahrstan reserve (juniper)
- Establishing of pistachio preserve in Panj district
- Allocation of buffer zone of reserves
- Improvement of legislation and regulation in the sphere of animal world and hunting
- Providing Technical assistance to specially protected territories
- Establishing of a center training and re-training of specialists

Thank you very much your attention!
