

8 March - International Women's Day
women, girls, HIV & AIDS

In Africa, 60% of people infected by HIV are women.

In Africa, girls aged 15-24 years are 2.5 times as likely to be HIV infected than boys.

In Zambia, only one in 10 female-headed households affected by AIDS were members of co-operatives.

In Namibia, more than half of AIDS widows reported to have lost cattle following the death of their husband.
