Policy

Support to forestry sector rehabilitation (TCP/AFG/3001)

Forestry in Development
COFO 2007
23

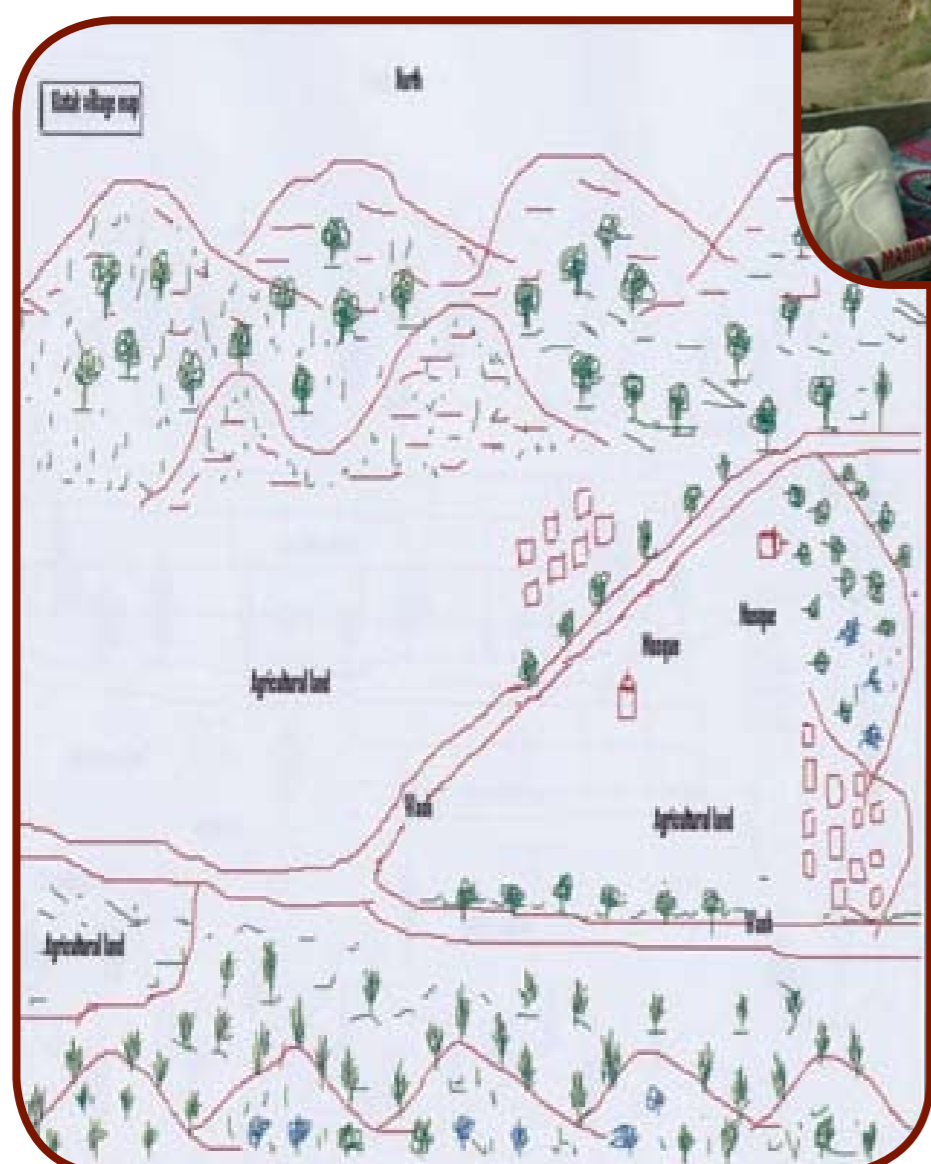

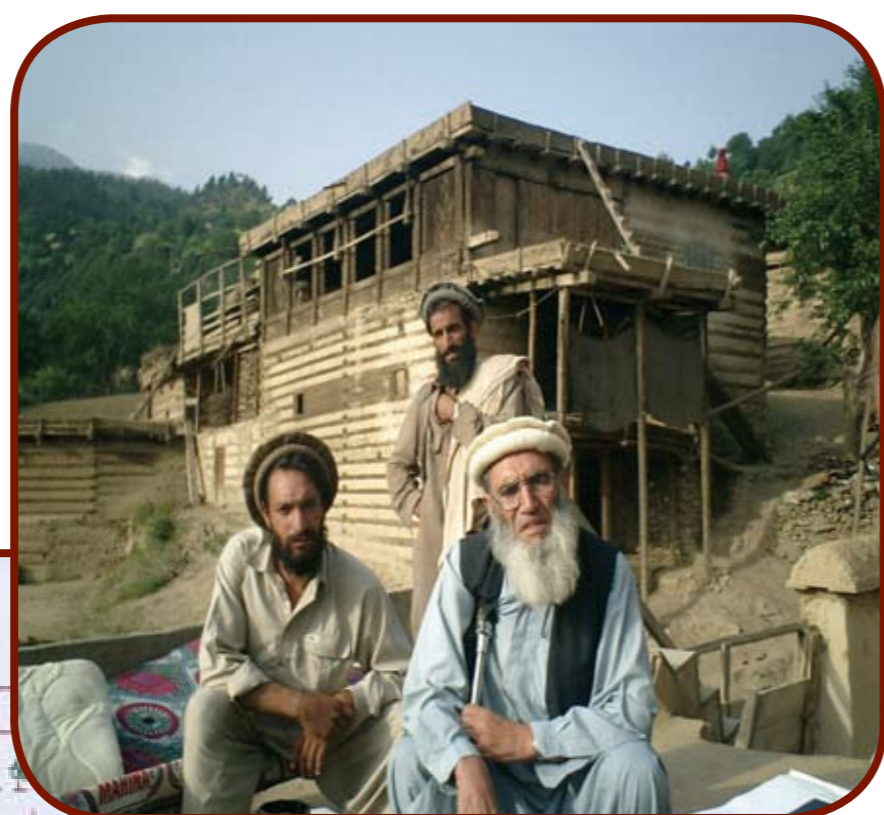

Scope

Formulation of a national forest sector development policy and strategy and more particularly aiming at protecting the Cedar forests of the Eastern provinces

Strengthening forest administration core staff capacities in planning and in managing plantations and forests

Approach

- * Involving NGOs and communities in formulating national forest policy and legislation
- * Active cooperation with other UN agencies to develop forest legal framework
- * Developing concept for participatory forestry with local communities

Weaving knowledge into development

- Training NGOs and provincial officers to inform local communities about new forest development objectives and strategies
- Involving Shurias and elders groups in collecting information about cedar logging and trade
