BANGLADESH

Knowledge

Strengthening capacity to generate quality information on forest resources

TCP/BGD/3001 (T)

Scope

- Promote sustainable management of forests and trees resources in Bangladesh
- Assess the forestry resources of Bangladesh

Approach

- NFA includes both forest trees and trees outside forests together with bamboos
- NFA a powerful evaluation tool for forestry policies and incentives, e.g. roadside plantations

Weaving knowledge into development

Better knowledge on the national forestry resources, their uses and users provides a basis to improve the livelihoods for local people and to sustainably manage the natural resource
