Policy

Support to forest policy and strategy for forest sector development (TCP/JOR/3101)

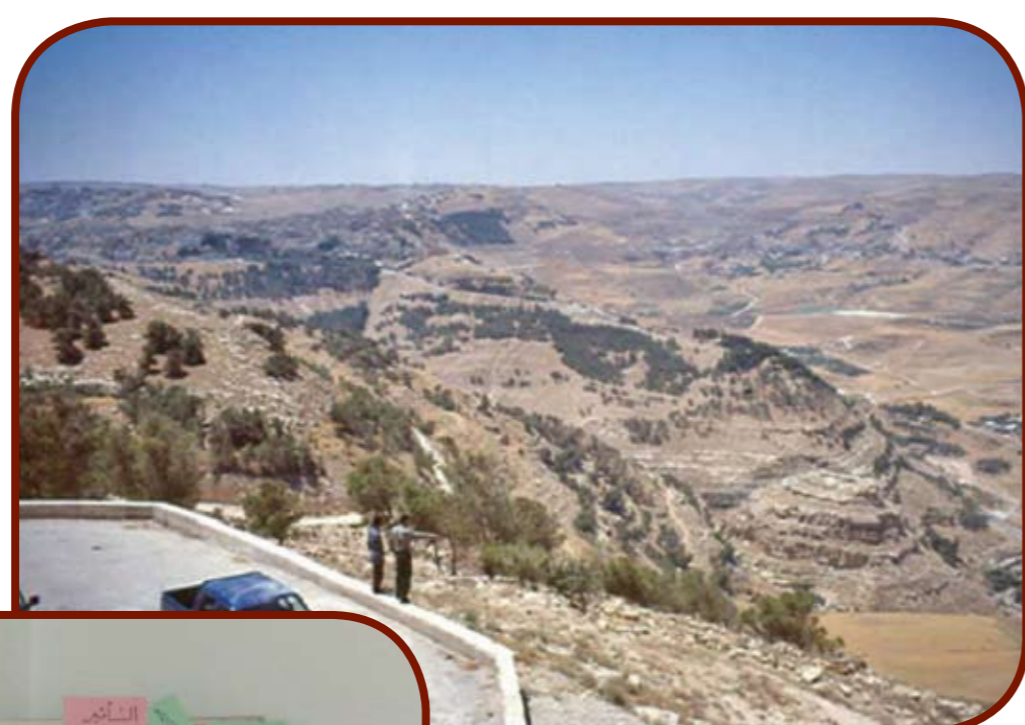

Scope

Supporting the Forest Administration in the formulation of a new forestry development policy and in the review of the existing legislation

Strengthening capacities within the forestry sector to build the enabling technical and institutional environment propitious to larger investment programme

Approach

- Forming a “forest policy community of practice” involving NGO, Academics for new forest policy and legislation formulation
- Working with Municipalities about urban forestry

Weaving knowledge into development

Organization of 12 provincial forum to involve all partners in fast policy debate

Neighbouring countries are invited as observers
