NEW BOOKS AND BRIEFS

AGRICULTURE

**Document de méthodologie du recensement des
exploitants et exploitations agricoles (REEA)**

This paper reports on the outcomes of a census carried out among agricultural households, rural villages, and agricultural and livestock organizations, using technologies such as computer-assisted personal interviewing (CAPI) and global positioning systems (GPS).

(Abidjan, 48 pp.) **Recensement des Exploitants et Exploitations Agricoles – FAO & Ministère de l'agriculture et du développement rural,**
Côte d'Ivoire

**Perspectivas de cosechas y situación alimentaria 4,
diciembre 2018**

According to this report, 40 countries, 31 of which in Africa, continue to be in need of external assistance for food. Among the main causes of severe food insecurity are conflicts and weather-induced declines in production, which affect food availability.

(40 pp., now available in Spanish.
Also available in [English](#))

**ANIMAL PRODUCTION AND HEALTH****Les champs-écoles des producteurs pour les petits éleveurs**

This guide explains the farmer field school approach, from animal production to animal health and marketing. It discusses benefits to livestock-dependent communities in diverse contexts, including post-disaster situations and protracted emergencies.

(60 pp., now available in French. Also available in English) [FAO animal production and health](#)

ECONOMIC AND SOCIAL DEVELOPMENT**Early Warning Early Action report on food security and agriculture, January–March 2019**

This report identifies some high-risk countries, such as Yemen, where the worsening humanitarian situation has fueled the risk of famine, and South Sudan, where an early lean season means that nearly half the population is likely to be food insecure in early 2019.

(24 pp.) [FAO animal health risk analysis](#)

FISHERIES AND AQUACULTURE**Field guide to the culture of Tambaqui (*Colossoma macropomum*, Cuvier, 1816)**

This guide supports the dissemination of applicable technologies for the culture and reproduction of Tambaqui, i.e. hatchery operations, and pond preparation – in order to boost artificial propagation as well as table fish production.

(136 pp.) [FAO fisheries and aquaculture technical paper](#)

**A third assessment of global marine fisheries discards**

This paper calls for the development of standardized data collection techniques, risk-based sampling and sharing of data across agencies and regions to help identify management priorities and allow implementation and enforcement of mitigation measures.

(80 pp.) [FAO fisheries and aquaculture technical paper](#)

FOOD SAFETY AND NUTRITION**INFOSAN activity report 2016–2017**

The International Food Safety Authorities Network (INFOSAN) was involved in 84 global food safety events across all regions. Its global visibility increased in the news, social media and scientific literature, as well as through national capacity building workshops.

(60 pp.) [WHO & FAO](#)

FORESTRY**REDD+ EN TUNISIE – FAO, ONU-REDD & MINISTÈRE DE L'AGRICULTURE, DES RESSOURCES HYDRAULIQUES ET DE LA PÊCHE**

This set of documents describes the implementation phases of the Reducing emissions from deforestation and forest degradation (REDD+) project in Tunisia, including the institutional context and a synthesis of activities.
