To the Secretary of the International Treaty on
Plant Genetic Resources for Food and Agriculture
Mr. Kent Nnadozie (Food and Agriculture
Organization of the United Nations)

Viale delle Terme di Caracalla 1
00153 Rome, Italy

Vliermaal, 15 december 2021

Subject: Notification regarding the contribution of the NBS [Nationale Boomgaardenstichting vzw], Leopold III straat 8, 3724 Vliermaal- Kortessem / Belgium to the Multilateral System.

Dear Sir,

The International Treaty on Plant Genetic Resources for Food and Agriculture (ITPGRFA) has established a Multilateral System of Access and Benefit-sharing.

Regarding the coverage of the Multilateral System, Article 11 specifies that the Multilateral System shall include all plant genetic resources for food and agriculture listed in *Annex I* that are under the management and control of the Contracting Parties and in the public domain, and that Contracting Parties invite other holders of the plant genetic resources for food and agriculture listed in *Annex I* to include these in the Multilateral System.

Herewith, the NBS [Nationale Boomgaardenstichting in Belgium] wishes to notify to you that we want to extend the contribution of the NBS with 25 extra apple varieties to the MLS. The following plant genetic resources for food and agriculture listed in *Annex I* and maintained in the collections of the NBS are available in the Multilateral System.

1. The collections held by Nationale Boomgaardenstichting vzw, Belgium, located in Vliermaal – Kortessem, Leopold III straat n° 8. Through the website [www.boomgaardenstichting.be] detailed data on the composition of the collection and user procedures to order samples are readily available.
2. The varieties introduced in the MLS in the past years are described and translated in English. The varieties from the last 3 seasons will be described and translated in English in the near future, as soon as we noted all the necessary pomological data.

Germplasm held in the collections and introduced to the MLS, will be made available to users under the conditions of the Standard Material Transfer Agreement of the International Treaty on Plant Genetic Resources for Food and Agriculture. In due course, the material will be also registered in the Global Information System of the International Treaty.
