Statistical Capacity Assessment for the FAO-relevant SDG Indicators 2018/19

Viet Nam

The Statistical Capacity Assessment for the FAO-relevant SDG indicators was conducted in early 2019 to provide insights about member countries' national statistical systems regarding their capacity to monitor and report the 21 SDG indicators under FAO custodianship.

*Information provided by: General Statistics Office of Viet Nam*

A national committee responsible for the coordination of SDG implementation and reporting has been established by law or administrative order. It is active.
A national coordinator for SDG monitoring has not been nominated.
SDG indicators without focal points: 21 out of 21

**I. SDG indicators reporting**

*Figure 1:* Number of SDG indicators currently reported in a national or international database (cf Annex 1)

*Figure 2:* Databases where SDG indicators are currently reported (reporting in multiple databases is possible; cf Annex 1)

*Figure 3:* Indicators planned to be produced by time horizon (cf Annex 1)

*Figure 4:* Indicators for which assistance for producing/compiling is needed (cf Annex 1)
II. Data availability and statistical methods

**Figure 6: Perception of lack of financial resources as barrier for indicator compilation**

- Yes: 15
- No: 1
- No answer: 5

**Figure 7: Financial or technical support from other institutions received or to be received**

- Yes, both technical & financial support: 1
- Yes, only financial support: 5
- Yes, only technical support: 10
- No support received: 1
- No answer: 1

**Figure 8: Number of domains on which data was produced in the last five years (cf Annex 2)**

- Data produced: 18
- Data not produced: 13
- No answer: 0

**Figure 9: Sources for published data on domains (multiple answers allowed)**
