## How to monitor and promote policy changes on governance of tenure

© FAO/Petterik Wiggers

The course provides guidance on some of the main issues to consider when implementing a monitoring activity: how to select the most appropriate approach or to identify the best data sources for monitoring, how to effectively communicate the results of the monitoring activity to maximize its effect on policy change.

3 hours

Available in English and Arabic

### You will learn about

- Importance of monitoring in the implementation of the voluntary guidelines
- Monitoring approaches and indicators for monitoring activities
- Key principles that define the scope of spatial planning
- Steps of the spatial planning process
- Tasks and responsibilities at the different administrative levels

## Who is the course for?

The different professionals involved in monitoring of governance of tenure, and in particular representatives of civil society and non-governmental organizations, can find in this course indications on the main issues to consider before implementing a monitoring initiative.

## Key partners

This course was developed under the EU-FAO Programme on “Improved Global Governance for Hunger Reduction”, funded by the European Union (EU) and implemented by the Food and Agriculture Organization of the United Nations (FAO).

The technical content was developed in collaboration with the International Land Coalition (ILC).

## FAO @learning Academy

This course is available through the FAO @learning Academy.
