Global Forest Resources Assessment 2020

Desk Study

Pitcairn

Rome, 2020

FAO has been monitoring the world's forests at 5 to 10 year intervals since 1946. The Global Forest Resources Assessments (FRA) are now produced every five years in an attempt to provide a consistent approach to describing the world's forests and how they are changing. The FRA is a country-driven process and the assessments are based on reports prepared by officially nominated National Correspondents. If a report is not available, the FRA Secretariat prepares a desk study using earlier reports, existing information and/or remote sensing based analysis.

This document was generated automatically from a desk study. FAO cannot be held responsible for any use made of the information contained in this document.

TABLE OF CONTENTS

Introduction

1. Forest extent, characteristics and changes
2. Forest growing stock, biomass and carbon
3. Forest designation and management
4. Forest ownership and management rights
5. Forest disturbances
6. Forest policy and legislation
7. Employment, education and NWFP
8. Sustainable Development Goal 15

Introduction

Introductory text

No official report has been received from Pitcairn. This report is the result of a desk study prepared by the FRA secretariat in Rome, which summarizes existing available information using the established format for FRA 2020 country reports.

Pitcairn Islands are located in south of the Tropic of Capricorn and consist of four islands. The Pitcairn Island groups was formed by a centre of upwelling magma called the Pitcairn hotspot. Henderson Island covers about 86 percent of Pitcairn Islands' total land area but access to it is difficult due to its outer shores, which are steep limestone cliffs covered by sharp coral.

The average temperature is 25–35 °C in summer (October– April) and 17–25 °C in winter. Humidity can exceed 95 percent in summer; the rainy season is from November to March.

1 Forest extent, characteristics and changes

1a Extent of forest and other wooded land

National Data

Data sources + type of data source eg NFI, etc

This report is the result of a desk study prepared by the FRA secretariat in Rome, which is based on reported information to FRA 2005.

The FRA 2005 country report for Pitcairn was prepared by:

Simon Gillam (former UK Official National Correspondent to FRA)

Head of Economics & Statistics Forestry Commission

Email: simon.gillam@forestry.gsi.gov.uk

Karen Maddocks

Pitcairn Desk Overseas Territories Department Foreign & Commonwealth Office
