1 Introduction
1 Introduction

1.1 About these visual identity guidelines

The United Nations General Assembly has declared 2022 the International Year of Artisanal Fisheries and Aquaculture (IYFA 2022). The Food and Agriculture Organization of the United Nations (FAO) is the lead agency for celebrating the Year in collaboration with other relevant organizations and bodies of the United Nations (UN) system. IYFA 2022 is an important recognition of the millions of small-scale fishers, fish farmers and fish workers who provide healthy and nutritious food to billions of people and contribute to achieving Zero Hunger.

The Year aims to focus world attention on the role that small-scale fishers, fish farmers and fish workers play in food security and nutrition, poverty eradication and sustainable natural resource use – thereby increasing global understanding and action to support them.

These visual identity guidelines were designed to support all stakeholders that want to take part in activities and events related to IYFA 2022. Therefore, for consistency, when using the IYFA 2022 visual identity you must always comply with these visual identity guidelines.

This document is complementary to the Guidelines for the use of the International Year of Artisanal Fisheries and Aquaculture Visual Identity and Waiver of Liability.
The visual identity is composed of two parts: the pictogram and the text "International Year of Artisanal Fisheries and Aquaculture 2022".

The pictogram is a symbolic portrait with no specific gender or ethnicity. On the left side of the composition, the wavy lines of the figure’s hair represent the waves of water. The nose and mouth are created symbolically with the shape of a sail boat and, on the right of the composition, a fish creates the form of an eye. The design aspires to show artisanal fisheries and aquaculture as a unity that continuously co-evolves, fulfilling economic, environmental, social and cultural functions of the two small-scale sectors.

The text appears to the side or under the pictogram, depending on whether it is the vertical or the horizontal version, and the year “2022” appears underneath to ensure that there is an understanding that the campaign is active up until 31 December 2022.

The colour wheel, representing the Sustainable Development Goals, is present in the zero of “2022”. It recalls how artisanal fisheries and aquaculture is the key to ending hunger, reducing poverty, promoting gender equality, protecting the environment and boosting economic development, which are all crucial to achieving the 2030 Agenda for Sustainable Development.

The pictogram and the text shouldn’t be separated.
2 Visual Identity
2 Visual identity

2.1 Colour versions

The IYAFA 2022 visual identity comes in two main versions that should be used as much as possible:

- Horizontal – to be used in co-branding with the other entity logo on white background.
- Vertical – to be placed freely as label with white background on colours, photos or illustrations.
2 Visual identity
2.2 Language versions

The IYFA 2022 visual identity is available in the six official United Nations languages:

- Arabic
- Chinese
- English
- French
- Russian
- Spanish
To maintain clarity and legibility, the minimum height for the IYFA 2022 visual identity is 13 mm in print and 55 pixels on the web for all six language versions.

There is no maximum reproduction size.

Minimum emblem size

- print: height = 13 mm
- web: height = 55 pixels
To maintain clarity and legibility, the minimum width for the IYFA 2022 visual identity is 25 mm in print and 100 pixels on the web for all six language versions.

There is no maximum reproduction size.

Minimum emblem size

- print: width = 25 mm
- web: width = 100 pixels
### Visual identity

#### 2.5 Structure and clear space

The construction of the IYFA 2022 visual identity follows a square-based grid.

The IYFA 2022 visual identity commands a clear space area of three square modules per side.
2 Visual identity

2.6 Backgrounds

(horizontal version)

The horizontal version of the IYFA 2022 visual identity should preferably be used on a white background or on a calm photographic background.

When used on a coloured or busy photographic background, put a white rectangle underneath the IYFA 2022 visual identity to separate it from the background.

The white rectangle must be at least as big as the IYFA 2022 visual identity clear space area (three square modules per side).
2 Visual identity

2.7 Backgrounds
(vertical version)

The vertical version of the IYFA 2022 visual identity has an incorporated white background and can be placed "as is" on coloured and photographic backgrounds to be used as a "label".
2 Visual identity

2.8 One-colour

In specific cases where the colour version cannot be used, the IYFA 2022 visual identity can be replicated in black.
2 Visual identity

2.9 One-colour on backgrounds (horizontal version)

On a white or pale background, the visual identity can be used in a black version.

On a black or a dark background, the white version is preferred for optimal contrast.

On a photographic background, the white version should be used only when the clarity of the design is not compromised.
2 Visual identity

2.10 One-colour on backgrounds (vertical version)

In specific cases where the colour version cannot be used, the IYFA 2022 visual identity can be replicated in black.

The vertical version of the IYFA 2022 visual identity has an incorporated white background and can be placed "as is" on light or dark backgrounds.
Use with other logos
3 Use with other logos
3.1 UN entities - options

United Nations’ (UN) offices, Funds and Programmes and other subsidiary organs and organizations of the UN system may use one of the IYAFA 2022 visual identity versions to brand communication materials, activities or events related to the Year:

- The horizontal version of the IYAFA 2022 visual identity can be placed in co-branding with the UN entity’s logo.

- The vertical version of the IYAFA 2022 visual identity should be used as a label that can be placed freely or in co-branding with the UN entity’s logo.

IYAFA visual identity used in co-branding

IYAFA visual identity used as a label
3 Use with other logos

3.2 UN entities
(horizontal version)

When using the horizontal version of the IYAFA 2022 visual identity as co-branding alongside the logo of another UN entity (maximum of 2 partners), their size should be harmonized.

The logos must be centered horizontally and a thin black line should be used as a separator. The horizontal distance between each element and the separating line should be equal to the IYAFA 2022 visual identity clear space area (three square modules per side).

\[ x = 1 \text{ square module} \]

Maximum of 2 main partners
3 Use with other logos
3.3 UN entities
(vertical version)

The vertical version of the IYFA 2022 visual identity should be used as a label that can be placed freely.

For co-branding, the use of the vertical version should be limited to only when necessary.

When using the vertical version of the IYFA 2022 visual identity alongside the logo of another UN entity (maximum of 2 partners), their size should be harmonized.

The logos must be centered vertically and a thin black line should be used as a separator. The vertical distance between the UN entity logo and the line should be equal to double of the clear space area (six square modules) of the IYFA 2022 visual identity. The space between the line and the label should be equal to the IYFA 2022 visual identity clear space area (three square modules).

\[ x = 1 \text{ square module} \]
3 Use with other logos

3.4 UN entities - partnership with multiple entities

When UN entity is in partnership with other non-UN entities, the non-UN entities shall appear clearly separated from the UN entity and the IYFA 2022 visual identity.

Lorem ipsum

Consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

IYFA visual identity used in co-branding with multiple entities

IYFA visual identity with multiple entities used as a label
3 Use with other logos
3.5 Non-UN entities - options

Authorized entities outside the UN system, including governments, intergovernmental organizations, and non-state actors, may use the IYAFA 2022 visual identity versions in co-branding in communication materials, activities or events related to the Year.

The logo of the non-UN entity shall be accompanied by the following statement: “supports the” above the IYAFA 2022 visual identity.
3 Use with other logos

3.6 Non-UN entities
(horizontal version)

When using the IYAFA 2022 visual identity in its horizontal version alongside the logo of a non-UN entity (maximum of 2 partners), their size should be harmonized.

The logo of the non-UN entity shall be accompanied by the following statement: “supports the” above the IYAFA 2022 visual identity.

The logos must be centered horizontally and a thin black line should be used as a separator. The horizontal distance between each logo and the separating line should be equal to the IYAFA 2022 visual identity clear space area (three square modules per side).
3 Use with other logos

3.7 Non-UN entities (vertical version)

For co-branding, the use of the vertical version should be limited to only when necessary.

When using the IYFA 2022 visual identity vertical version alongside the logo of another non-UN entity (maximum of 2 partners), their size should be harmonized.

The logo of the non-UN entity shall be accompanied by the following statement: “supports the” above the IYFA 2022 visual identity.

The logos must be centered vertically and a thin black line should be used as separator. The vertical distance between each element should be equal to the IYFA 2022 visual identity clear space area (three square modules).
3 Use with other logos

3.8 Non-UN entities - partnership with multiple entities

If authorized non-UN entities are in partnership with other entities, the co-branding approach depends on the established agreements between them; if the partners have the same level of importance, the logos can be used vertically or horizontally in co-branding with the IYAFA 2022 visual identity (for a maximum of 2 partners).

Secondary partners shall appear clearly separated from the main partners and the IYAFA 2022 visual identity.
Visual identity elements
4 Visual identity elements

4.1 Main colour palette

The main colour palette for the IYFA 2022 visual identity is composed of three shades of blue and a dark grey.

A light grey (8% black) can be used as a complementary colour.
4 Visual identity elements

4.2 Primary typeface (Latin)

Open Sans is the primary typeface for all communication products (print and digital) produced for IYAFA 2022 for languages using the Latin alphabet.

Open Sans can be downloaded for free from Google Fonts (fonts.google.com).

If possible, use Open Sans Bold for headings and Open Sans Light for body text. Other weights (semibold, medium) are also acceptable.

4.6 Photos

A photo repository is available for anyone who wants to use photos for activities and events related to IYFA 2022. These photos have been selected in order to cover artisanal fisheries and aquaculture in all their varieties, depicting different regions and types of activities.

The photos are not for commercial distribution. They may be cropped, but not altered. Copyright information ©FAO must be used with the photos.

The pre-approved photo gallery can be found in the IYFA 2022 toolkit.
