## A UNIQUE WAY TO CONNECT

- An innovative, simple and affordable mobile and web-based digital agriculture extension service available for weather, crop calendars, nutrition, livestock and fisheries sub sectors in United Republic of Tanzania.
- A unique provider for the most reliable information provided by the relevant national ministries and authorities.
- A key component of the agriculture digital services portfolio provided by the Food and Agriculture Organization of the United Nations (FAO) to Members and complementing other digital services portfolios aiming to serve the farmers, including M-Kilimo and EMA-i.
- An attractive solution for all stakeholders involved in the agriculture and food sector at all levels, from simple farmers to high level governments representatives.

## SERVICES FOR ANYONE, ANYTIME, ANYWHERE

### The path to a new agriculture

- For anyone who has interests in the food and agriculture sector and aims to make a change in livelihoods through better and sustainable production while respecting the environment: fishermen; crop farmers; livestock farmers; veterinary centers, animal feed manufacturers, traders; agro dealers; implementation suppliers, breeders, researchers, extension officers, policy and decision makers.

### Awareness a glimpse away

- To foster informed policy and decision making in the field of food and agriculture.
- During farm preparation, planting, weeding and harvesting to have access to the most up to date and real time information on the local conditions to better plan and act.
- When there is a need for a comprehensive understanding of prices of commodities in the market to better buy/sell/prepare for a business/investment.

## 4 APPS IN A SINGLE PLATFORM

### A whole range of benefits

- Address agricultural extension services and information gaps in the country.
- Attain higher levels of efficiency and awareness in good farming practices.
- Reduce cost and time in seeking for extension services and information.
- Promote agricultural production and productivity.
- Increase food and nutrition security.
- Improve rural livelihood.

## EASILY ACCESSIBLE THROUGH SMARTPHONES, FEATURE PHONES, TABLETS AND COMPUTERS THROUGH BROWSER AND ANDROID APP

- For smartphones, download Ugani Kiganjani Android application from PlayStore.
- For web browsers, go to <https://digital.apps.fao.org/home>
- Dial \*152\*00# to register your phone through M-KILIMO and receive SMS notifications.
