The raw trade data collected are subsequently processed and validated following a rules-based approach designed to exploit all information inherent in the underlying data to produce consistent, plausible and consolidated trade flows at the global level. A variety of imputation rules is applied in conjunction with expert judgement to eliminate apparent mistakes in reporting and processing of the raw data. Data on the import volumes by origin of the European Union and the United States of America are compiled from data provided by the European Commission and the US Department of Agriculture (USDA), respectively. Data are reported as collected and totals may differ from the processed and validated data reported in the 'World import by country' tables. Price data on the United States of America wholesale prices are calculated from data collected from the USDA Agricultural Marketing Service (AMS) terminal market reports.

# FOREWORD

The *Major Tropical Fruits Statistical Compendium* is issued on an annual basis to Members and Observers of the Sub-Group on Tropical Fruits of the Intergovernmental Group on Bananas and Tropical Fruits, which is a subsidiary body of the Committee on Commodity Problems (CCP).

It is prepared by the Team on Responsible Global Value Chains, Markets and Trade Division, Food and Agriculture Organization of the United Nations (FAO), Rome, and the tables contained bring together the information available to FAO, supplemented by data obtained from other sources in particular with regard to preliminary estimates.

The Team on Responsible Global Value Chains provides research and analyses on agricultural value chains in developing countries, and economic data and analyses on tropical fruits. Regular publications include market reviews, outlook appraisals and projections for bananas and tropical fruits. The team also provides assistance to developing countries in designing and implementing national policies regarding responsible value chains in agriculture.

The report is available at the following FAO website:
