2. Water distribution

3. Operation

4. Maintenance (regular, condition-based, major repair, re-investment)

ASSESSMENT

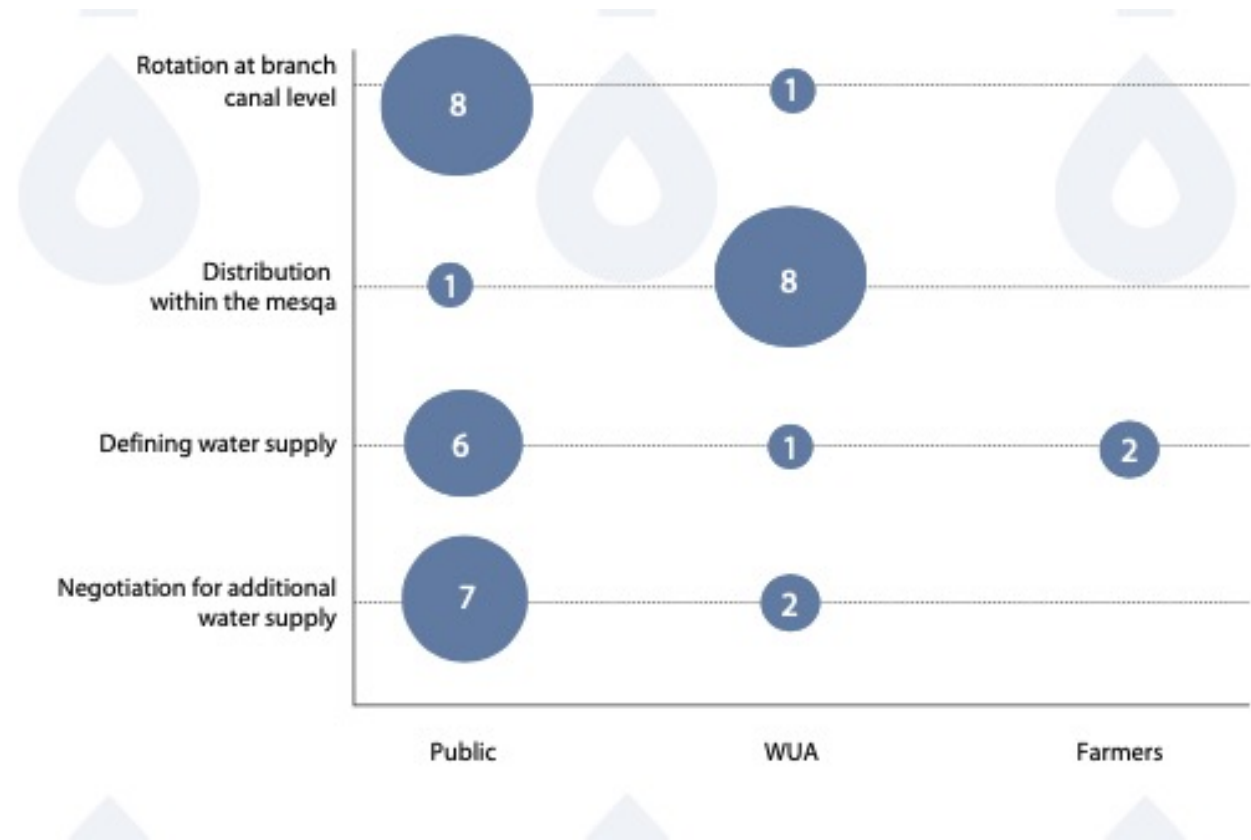

There is a consensus on the organizational function

ASSESSMENT

There is a consensus on the water distribution function

ASSESSMENT

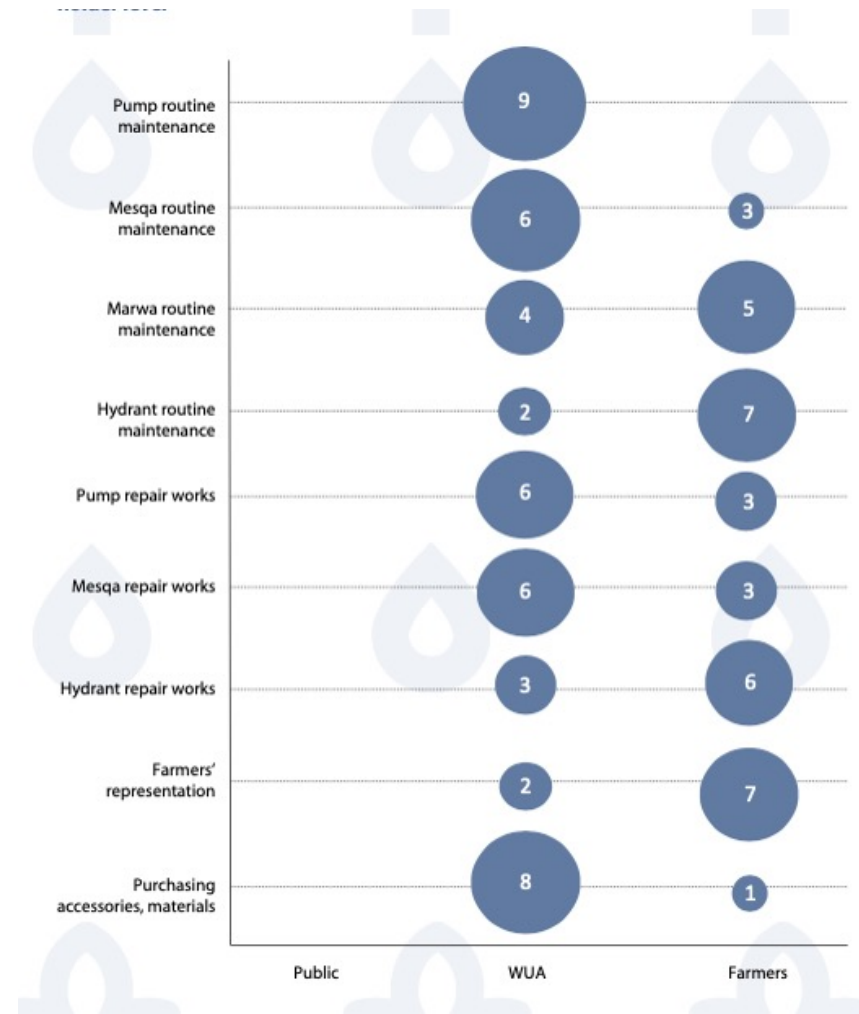

Responsibilities over operation are not clear at within mesqa level

ASSESSMENT

No clear responsibilities over the maintenance function

MESSAGES

Large-scale and cross-sector infrastructure (i.e. grid connection, drain etc.) cannot be transferred

MESSAGES

Training is essentially required from the public actor and defines the success of IMT

MESSAGES

Water budget/allocation is often dictated by the state, but internal re-distribution arrangements are important to mitigate inefficiency

MESSAGES

All management activities must be formally agreed, considering also the associated costs to farmers (i.e. repair works)
