NEWS

New subscriptions: Le Monde Diplomatique and The Economist

Le Monde Diplomatique (LMD) is an independent monthly newspaper providing clear and considered views of the conflicting interests and complexities of the modern world. LMD was founded in France in 1954 to keep diplomats updated on world events. It continues to provide analysis and opinion on global politics, culture, and current affairs, offering real stories, reliable research, and an independent perspective. Access is for the French version only. FAO staff can access LMD here.

FAO staff now has access to The Economist website as well as The Economist app, The Economist audio and podcasts, and Digital newsletters. Staff can read, watch, and listen to The Economist on their personal devices anytime, anywhere. The Economist is an independent global newspaper for an international audience. It produces journalism of sometimes radical opinion with a reverence for facts. With its editorial independence, The Economist has no by-lines, it is written anonymously and ensures a continuity of tradition and consistency of views. Access The Economist here. To facilitate access to the app and podcasts, create a personal login using your FAO e-mail address and password.

DATA CORNER

Which peer-reviewed journals are citing FAO authors?

FAO staff now has access to InCites Analytics, a bibliometric analysis tool based on data from the Web of Science. Every month, we will provide an example of the type of analysis available. This month, we show which peer-reviewed journals have been quoting FAO authors most over the past decade (2012-2022). FAO Library provides full text access to each of these journals via the Library Discovery.

Access the InCites platform here. If you already have an account for Web of Science or Endnote Online, use those same credentials to access the InCites tool. Further information is available in the Help File. Training material (videos, guides, manuals) is available via the Training portal.
NEW BOOKS

E-BOOKS

Choukr-Allah, R. & Ragab, R., eds. 2023
BIOSALINE AGRICULTURE AS A CLIMATE CHANGE ADAPTATION FOR FOOD SECURITY

JOURNAL ARTICLES BY FAO AUTHORS

The following list provides an overview of the latest journal articles and some other document types (editorial material, letters, book chapters and conference proceedings) (co)written by authors affiliated with FAO. The main source of information is the Web of Science (WoS), the world’s largest publisher-neutral abstract and citation platform of leading peer-reviewed international and regional scientific literature. FAO Style (2022) is used as the citation style.

Are you planning to publish an article?
Please ensure that you are familiar with FAO’s Open Access policy, as well as OCC policies and procedures for publishing FAO content in external publications. Please contact Copyright@fao.org before publishing articles externally. Copyright will negotiate a license agreement on your behalf, to ensure FAO retains the right to disseminate the content.

Did you recently publish an article?
Please send the file to document-repository@fao.org and the citation to fao-library-reference@fao.org and we will add the article to the Library’s newsletter.
