

AMR Multi-Stakeholder Partnership Platform

Information Session for Members (Series)

Tuesday, 11 July 2023
13:00-14:00 CEST | Virtual

[REGISTER](#)

You are cordially invited to attend the first information session of the Platform designed to welcome the members of the **AMR Multi-Stakeholder Partnership Platform**.

The Partnership Platform was launched on November 18, 2022, during World Antimicrobial Awareness Week. More than 500 stakeholders across the globe joined this virtual launch that marked an important step towards more coordination, communication, and collaboration among a wide range of stakeholders globally to address a common threat: **Antimicrobial Resistance (AMR)**.

The session will feature a presentation on the Platform's operating mechanisms, as well as an overview of the planned activities and timeline. It will also mark the launch of the **call for proposals for Action Groups**, offering practical information on how members can propose and engage in Action Groups. The session will conclude with a Q&A session, allowing you to engage and seek clarification on any queries.

Do not miss the opportunity to connect with like-minded stakeholders, understand the Platform's activities, and start working together to address AMR!

Please feel free to extend this invitation to colleagues in your organization working across the One Health spectrum who may be part of your delegation on work relating to the Platform.

We are looking forward to meeting you all!

Agenda

13:00-13:08 Opening and welcome remarks
