How to Create and Share a Story on the AgroInformatics Platform

How to do a Story

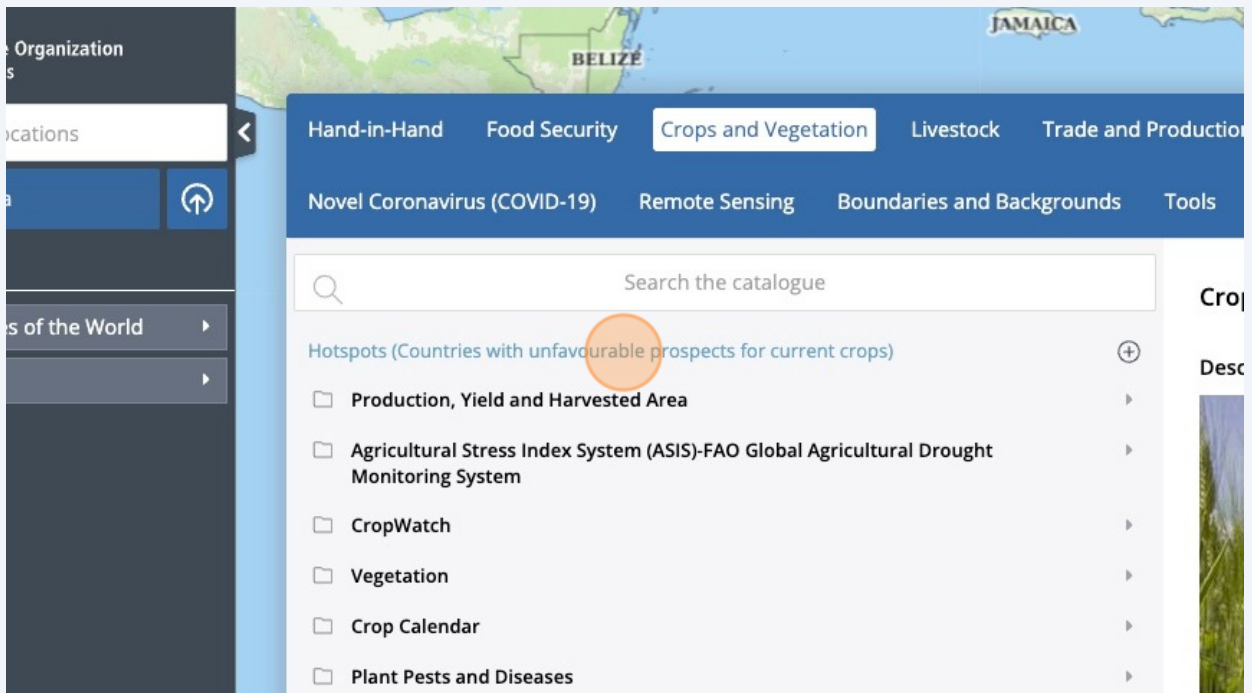

1 Navigate to FAO Hand-in-Hand Geospatial website <https://data.apps.fao.org>

2 From Explore Data navigate to the data you would like to do a story on

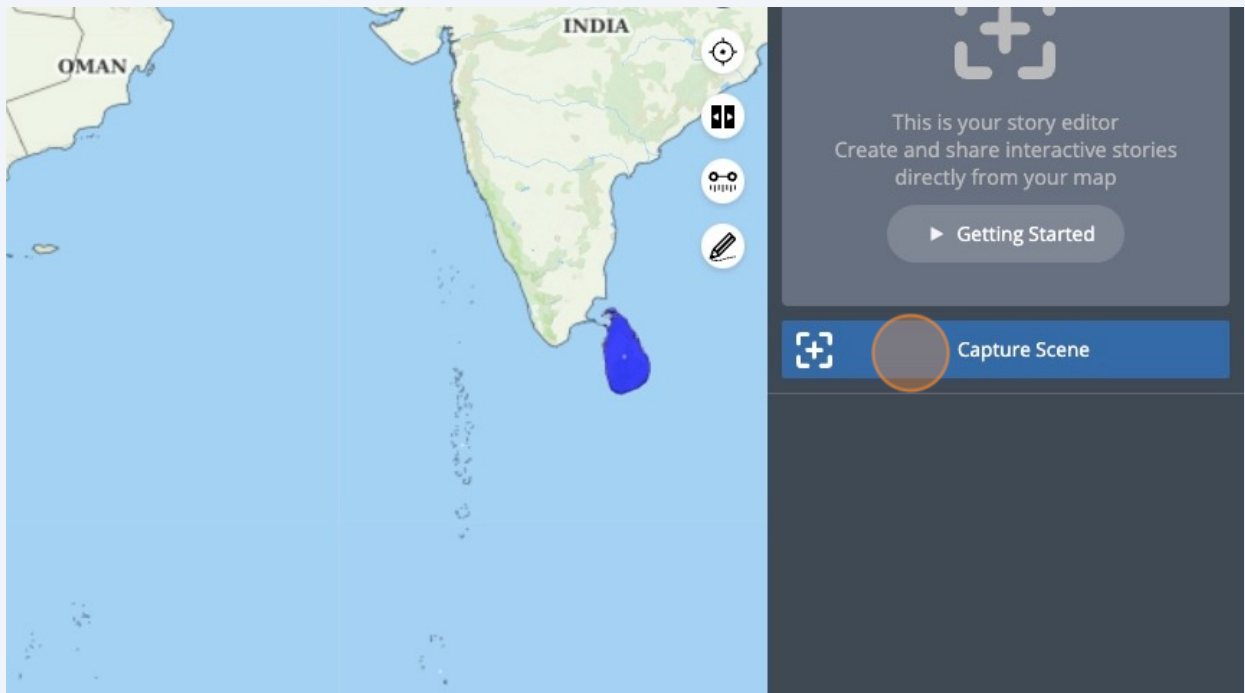

3 Choose data to add from any dataset

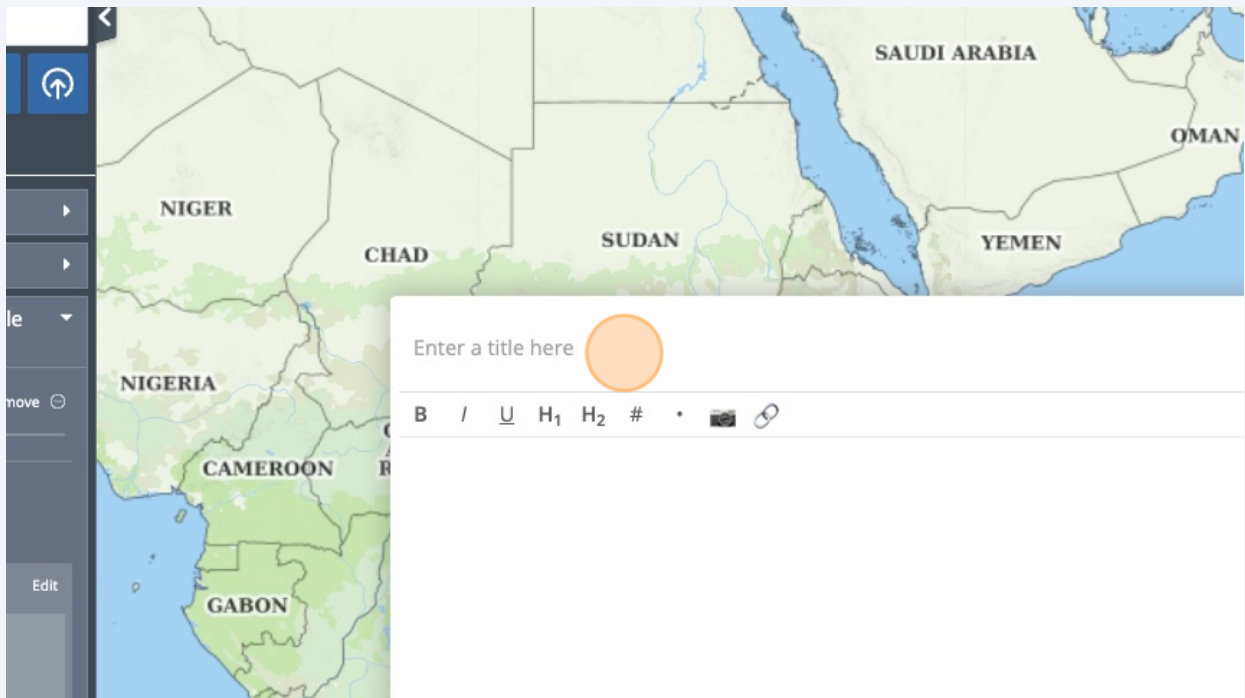

6 Click on the Menu item Story on the right top

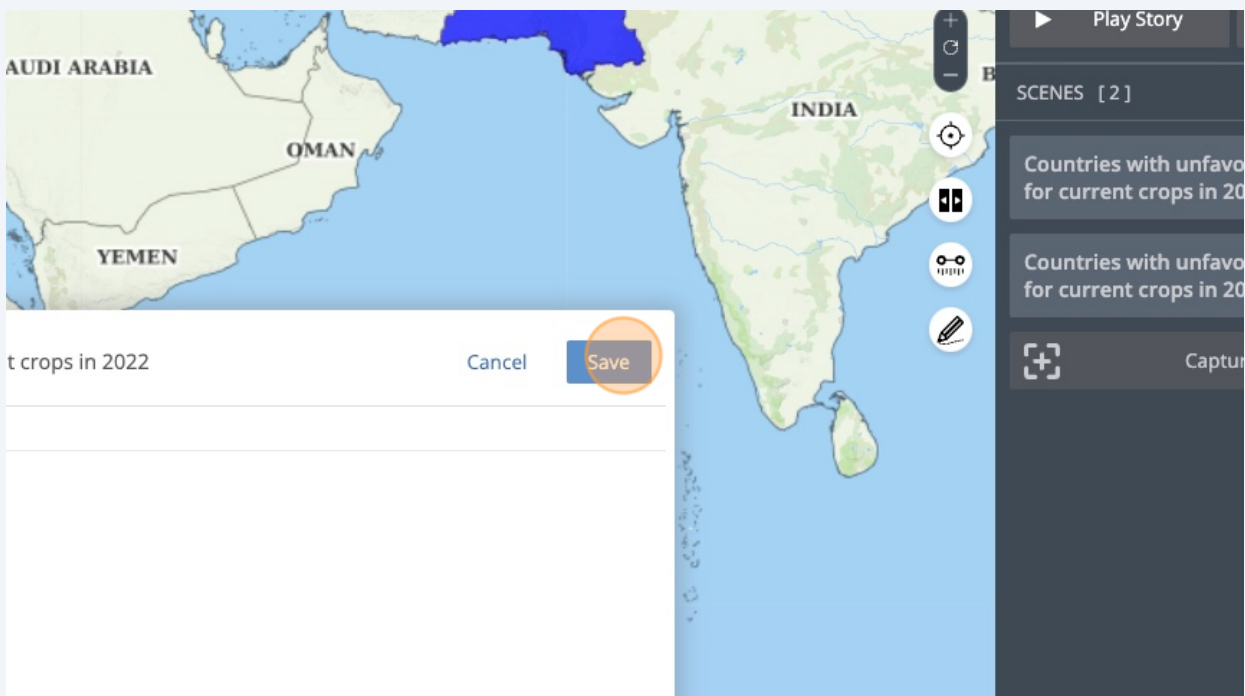

7 Once you have a scene on the desktop click Capture Scene on the right; the captured scene would show the exact view at the time of clicking the capture scene button.

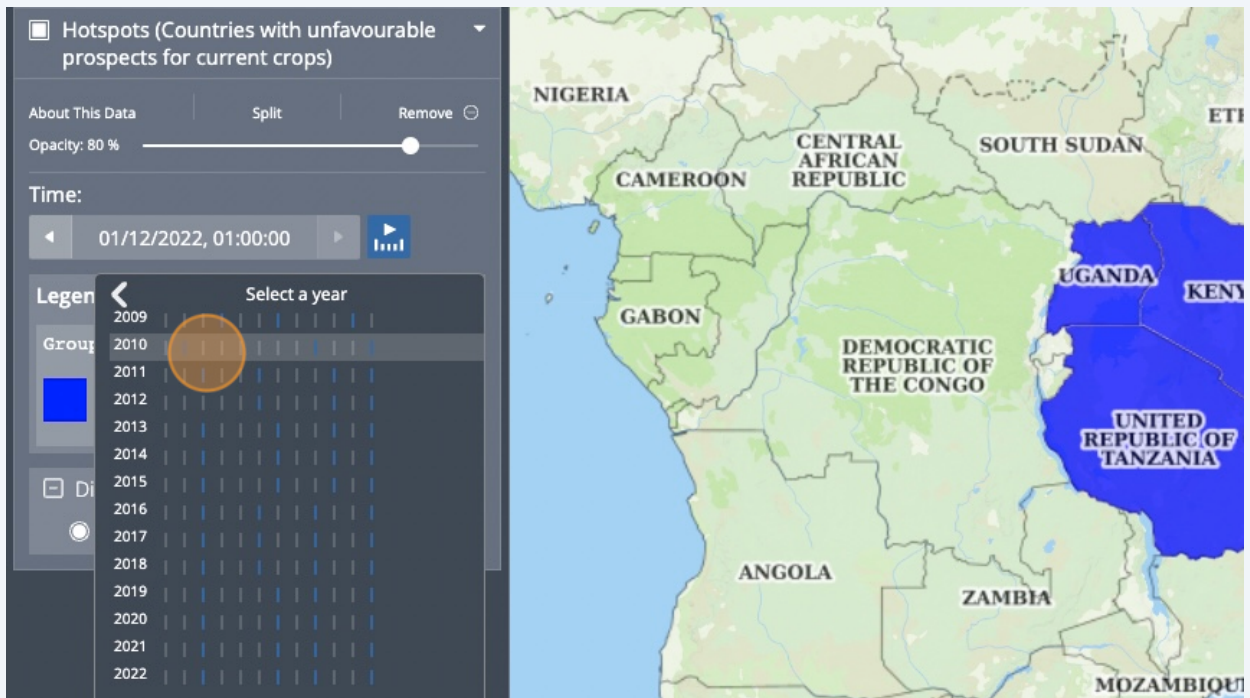

8 Enter title and data for the scene

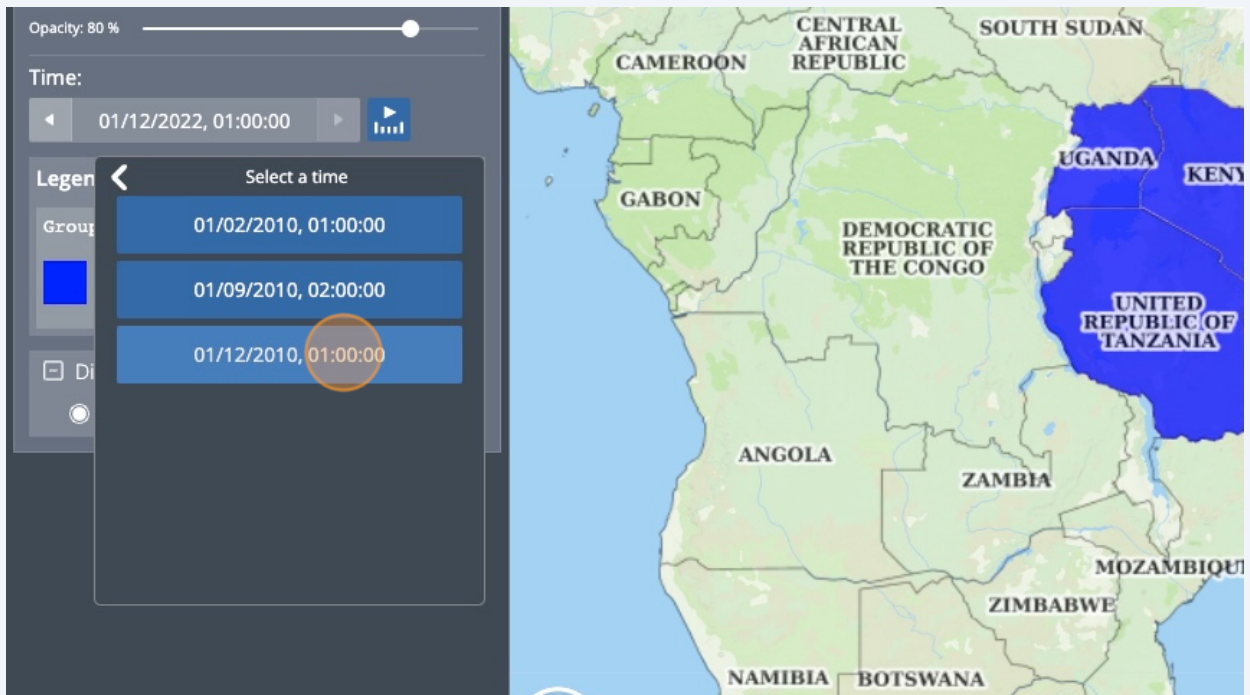

9 Save it

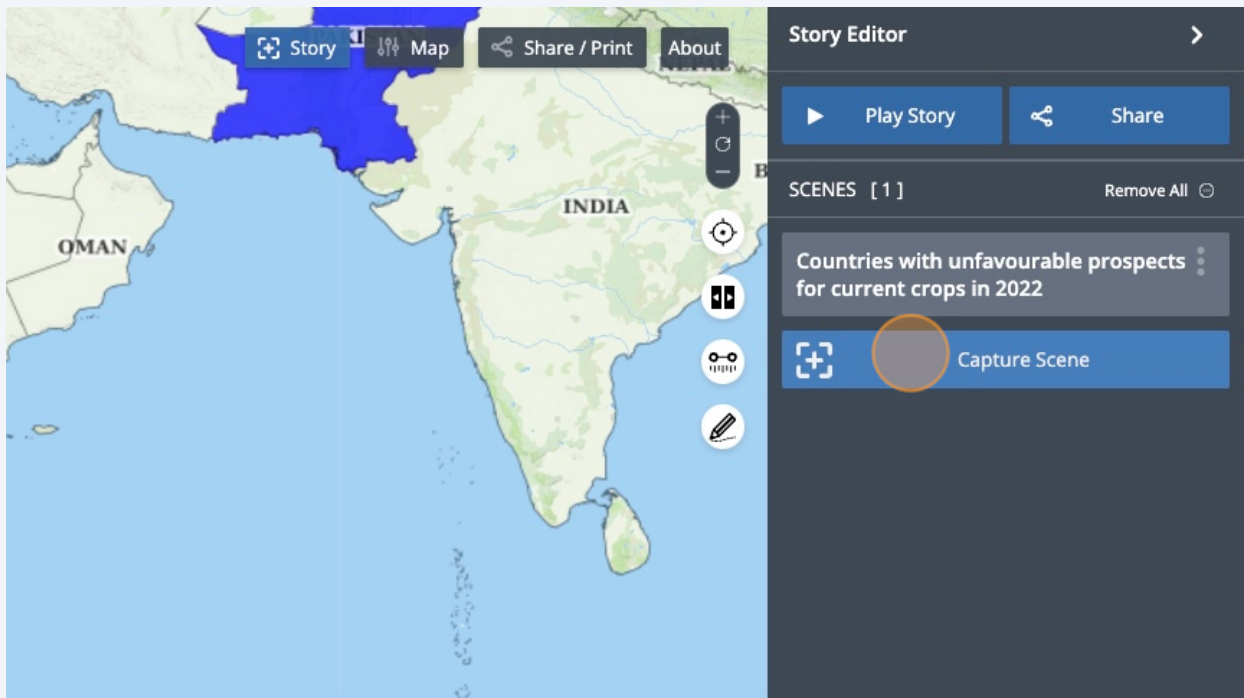

10 To add another scene for example for a different time period, change time

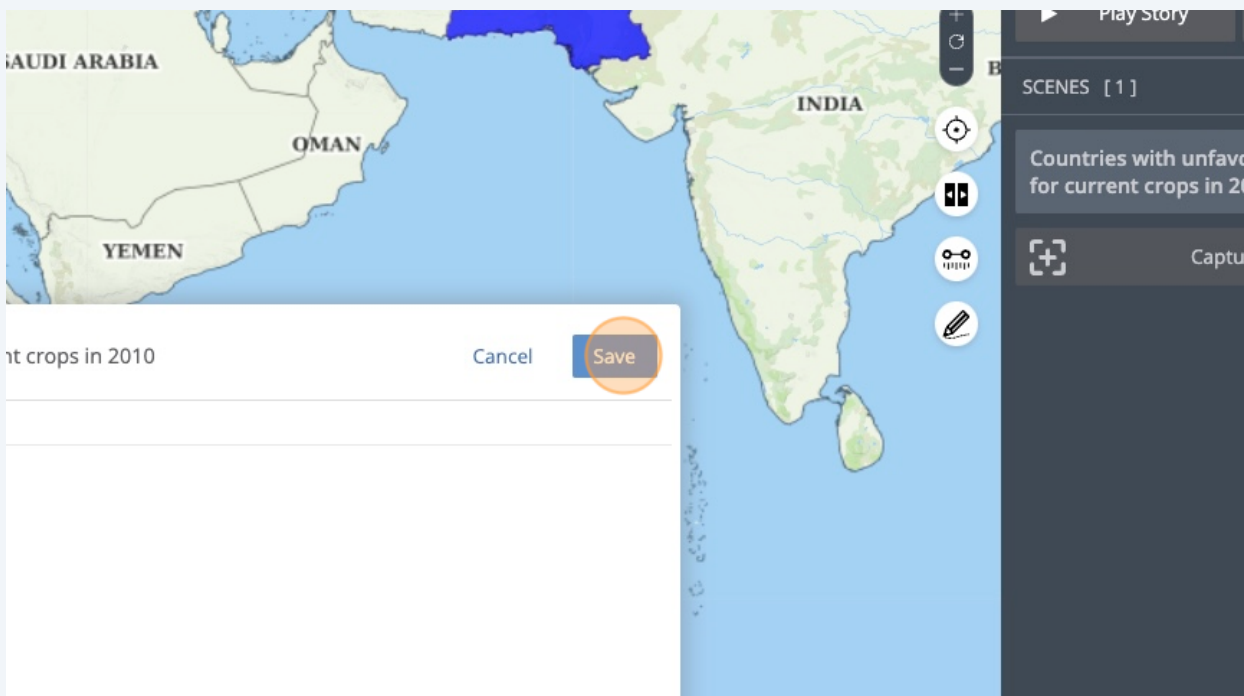

11 Indicate a new period

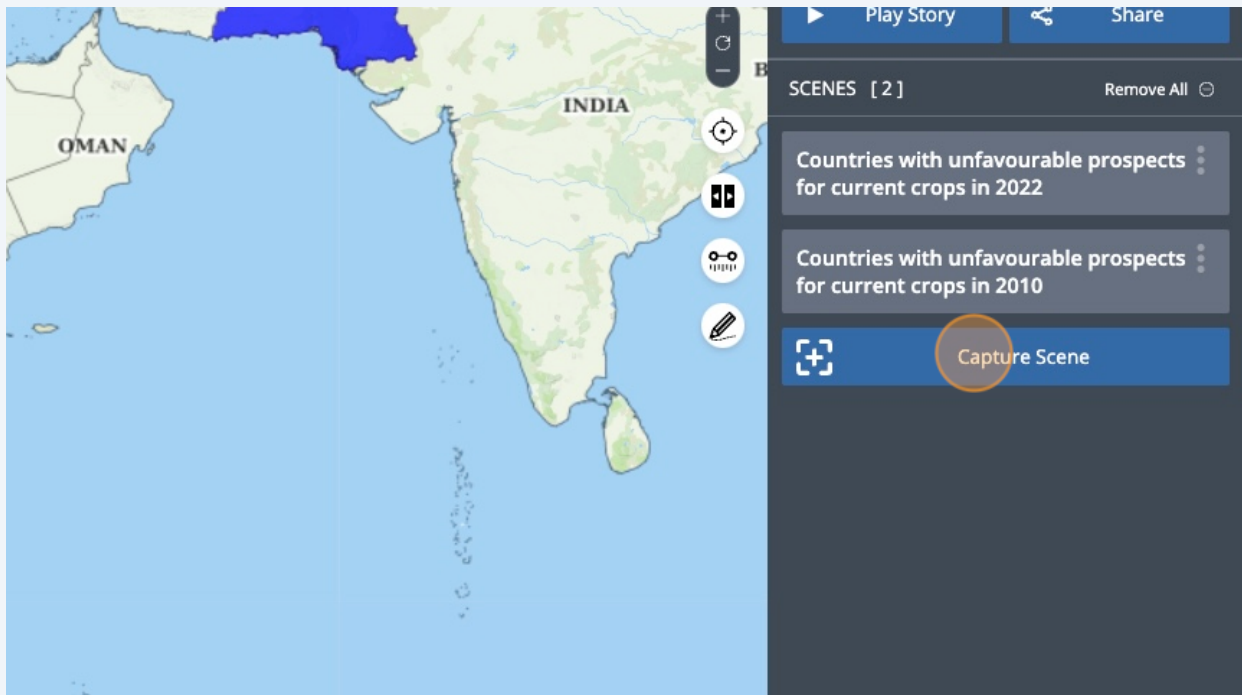

12 And add another Capture Scene

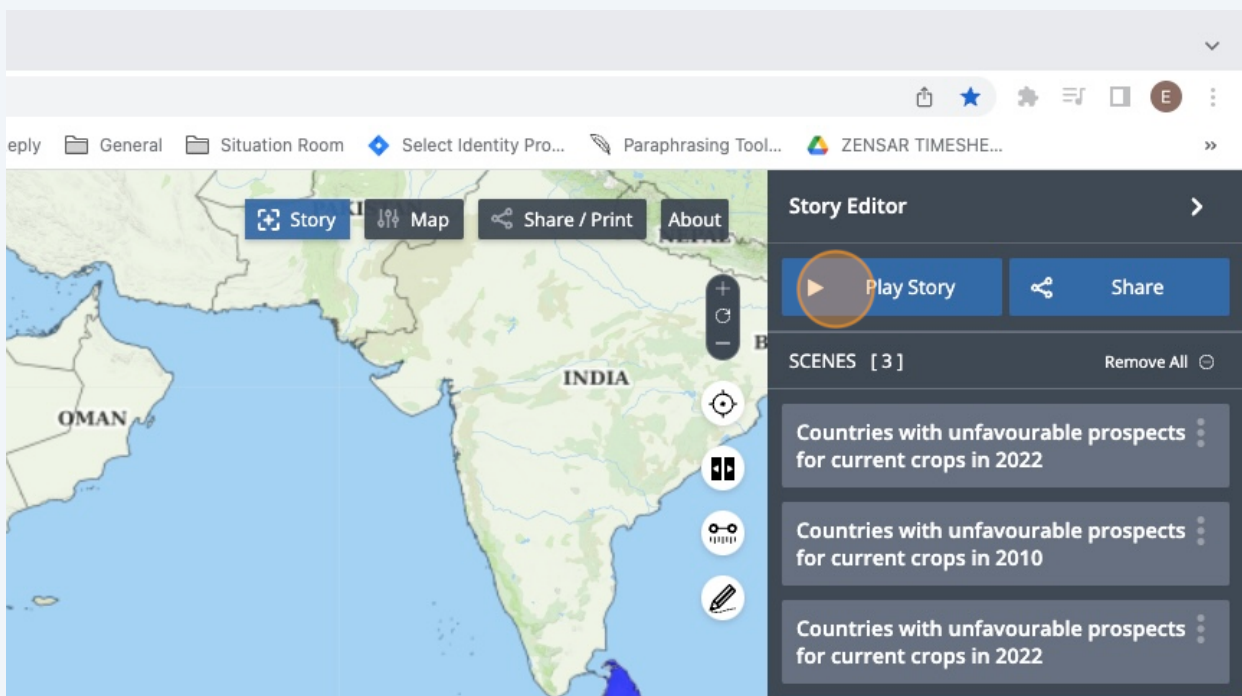

13 Enter title and data for the scene

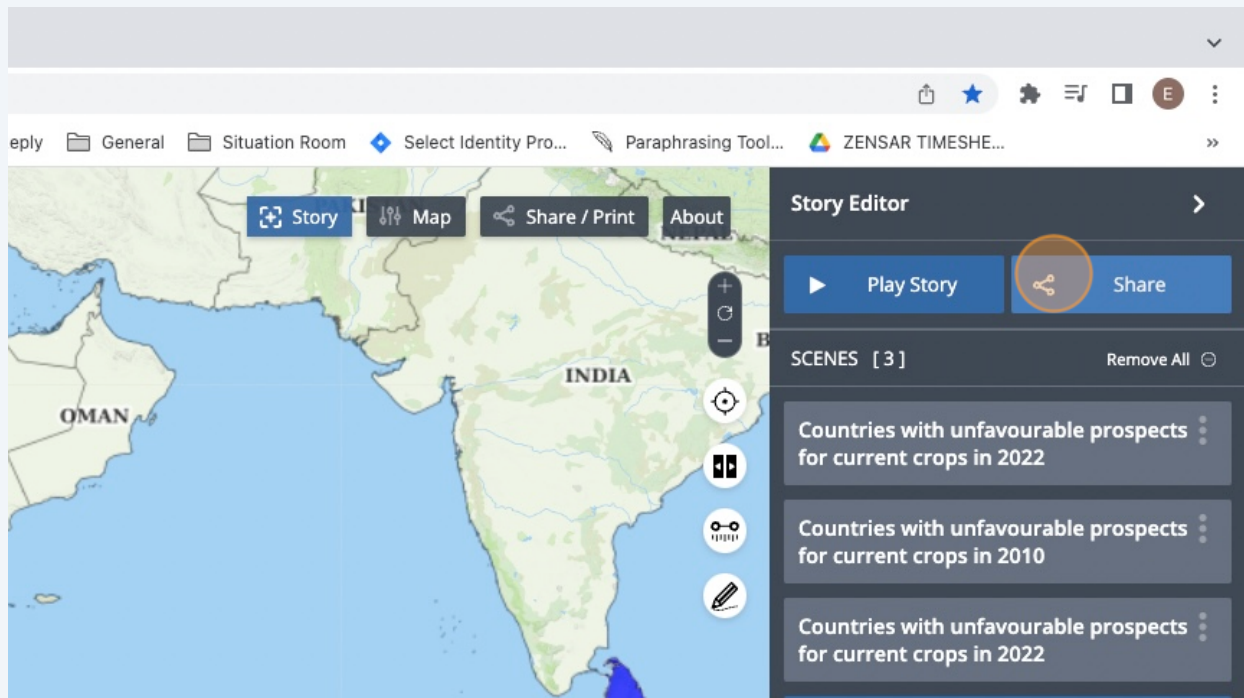

14 Now you have 2 scenes added in a story

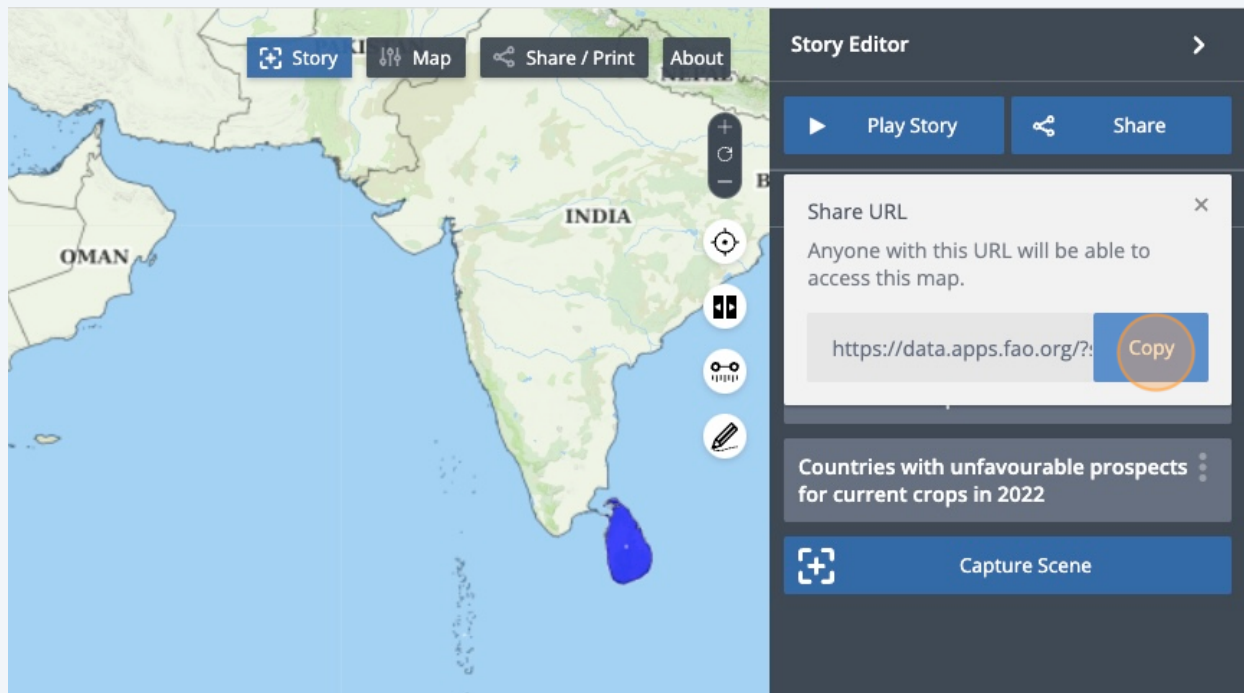

15 Once done with the story you can play it to see how it will be visualised

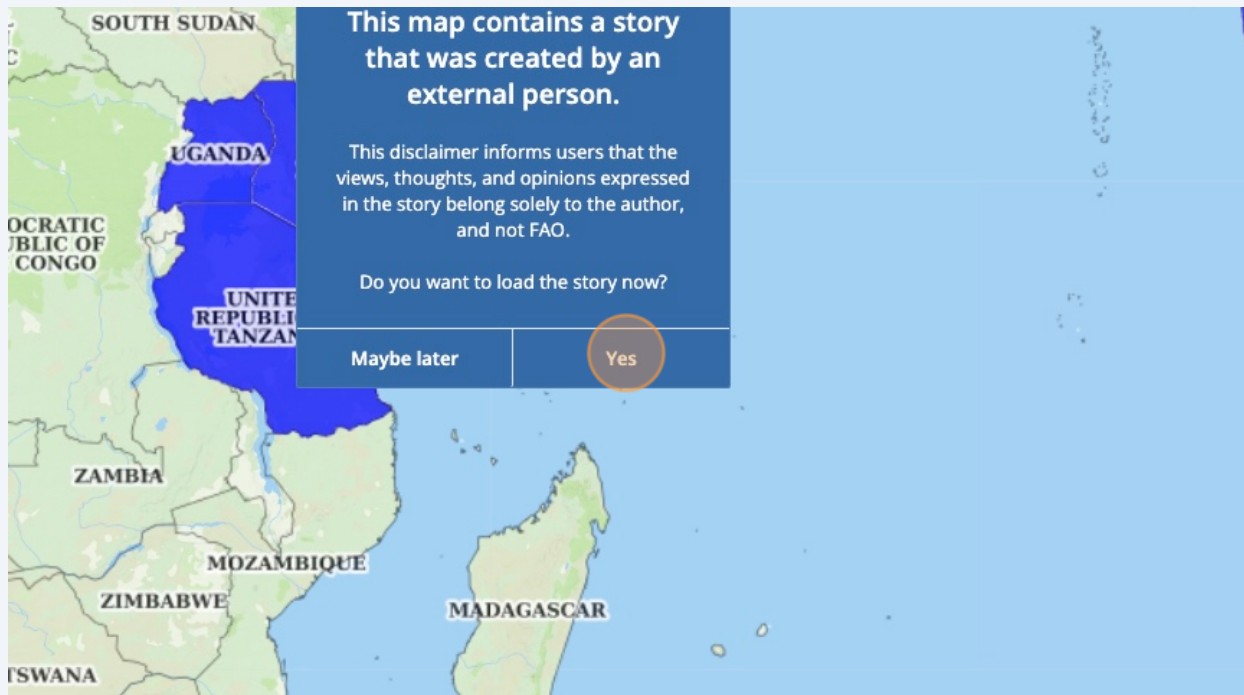

16 To share the story click the Share button

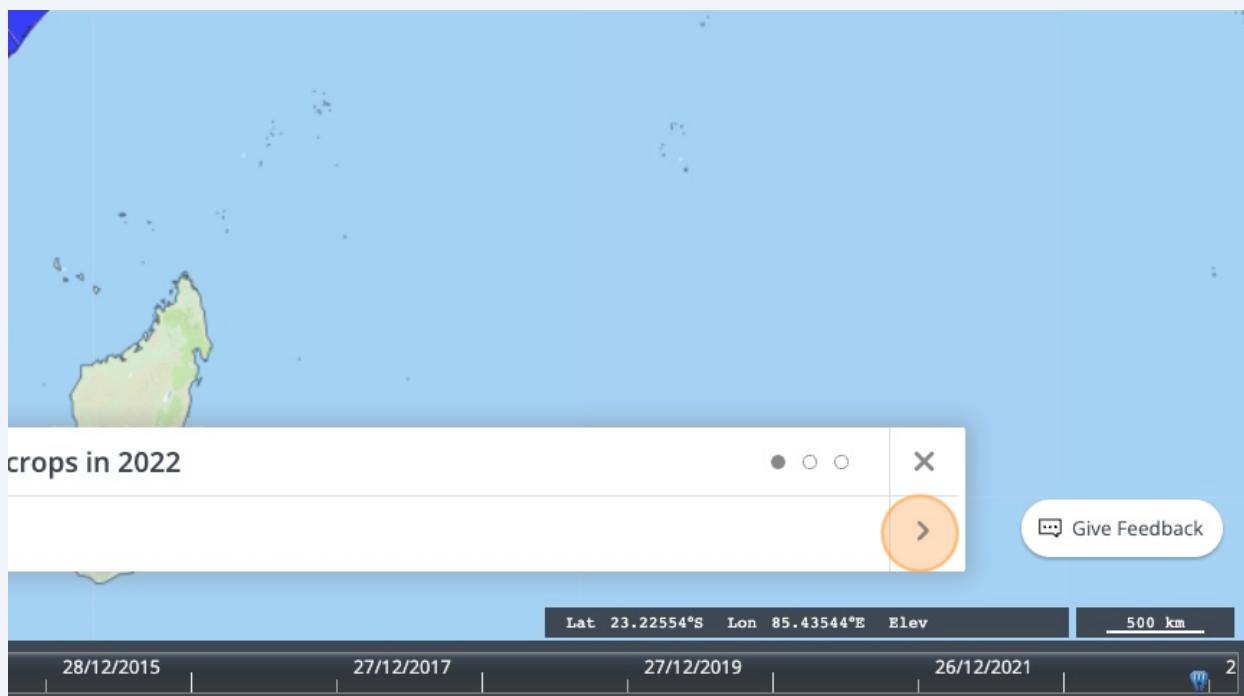

17 Copy generated link which can be used to share stories

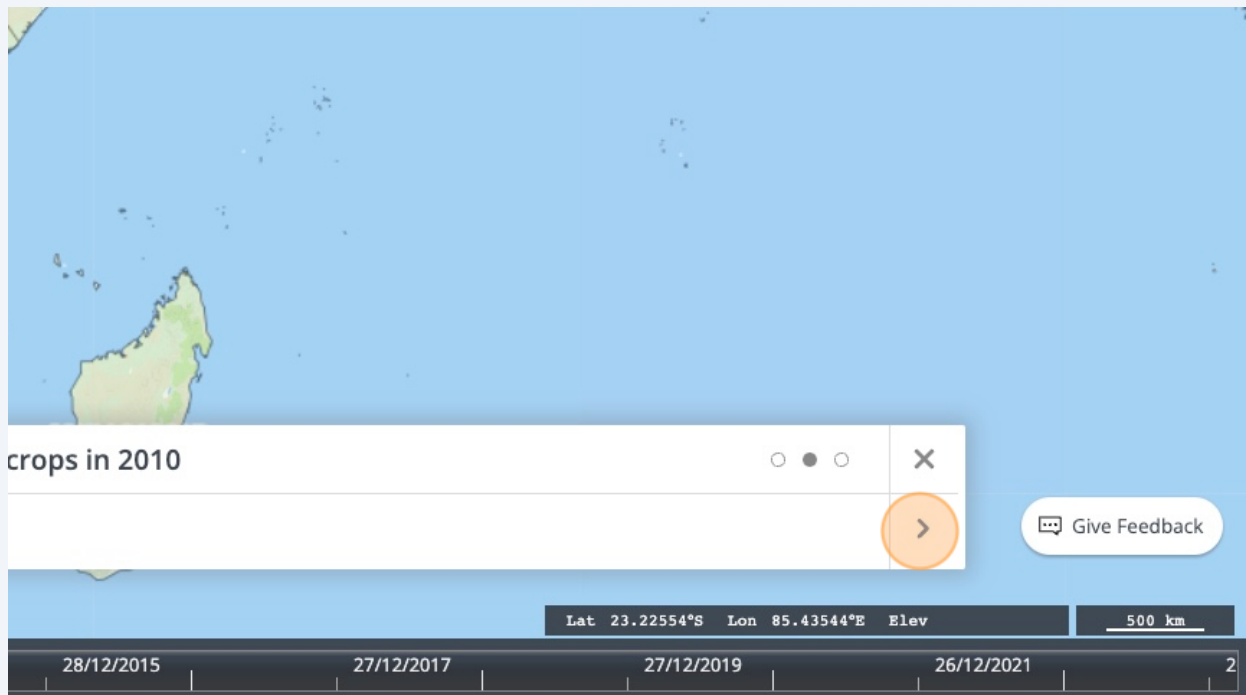

18 And open the link to another tab

19 Story will be created with the scenes you captured

20 Navigate around your story and share it with your colleagues

All maps in this publication have been created using shapefiles from the United Nations.

Source: FAO Hand-in-Hand Geospatial Platform. 2023. Map geodata [shapefiles]. New York, USA, United Nations.

The boundaries and names shown and the designations used on these map(s) do not imply the expression of any opinion concerning the delimitation of its frontiers and boundaries. Dashed lines on maps represent approximate border lines for which there may not yet be full agreement.
