

Presentation of the Toolbox

General presentation

FOR
WHOM?

for anyone seeking information or guidance on policies, strategies and activities that can promote and enhance the sustainable use of PGRFA, particularly at national and local levels.

The Toolbox is an online database of resources on the sustainable use of PGRFA. It contains publications, reports, research and studies, and other relevant information resources from various organizations and bodies worldwide, including research and academic institutions, intergovernmental bodies, and national and international agricultural research institutions.

The screenshot shows the 'Policy Resources' section of the FAO Plant Genetic Resources Strategy for Europe website. It features a search interface with various filters and a list of results.

Overview

About the Toolbox

Recognizing the need to increase and enhance activities relevant to the goals of [Article 6](#), the Governing Body of the International Treaty requested the development of an online system to assist all stakeholders involved in different aspects of the global PGRFA use: The Toolbox for Sustainable Use of PGRFA.

The **Toolbox** is an online database of resources on the sustainable use of **PGRFA**. It has been designed to provide information and guidance on policies, strategies and activities that can promote and enhance the sustainable use of PGRFA, particularly at national and local levels. The Toolbox contains publications, reports, research and studies, and other relevant information resources from various organizations and bodies worldwide. Users are expected to be from a wide range of stakeholder groups.

The Toolbox contains two different repositories of almost 2000 resources relevant to the sustainable use of PGRFA: technical resources and policy resources.

1. The **Technical repository** contains technical resources related to crop diversity, plant breeding techniques and approaches, training, or capacity building, crop wild relatives and farming systems.
2. The **Policy repository** contains policy framework on legislation and policies, agreements, principles, declarations, strategies, and Action Plans, and other related information.

You can also contribute to the Toolbox by submitting a resource.

Frequently Asked Questions

The mock-up

Technical repository: technical resources related to crop diversity, plant breeding techniques and approaches, training, crop wild relatives and farming systems.

Policy repository: contains policy framework on legislation and policies, agreements, principles, declarations, strategies, and Action Plans, miscellaneous.

The screenshot shows the 'Technical Resources' search page. At the top, there are logos for the Food and Agriculture Organization of the United Nations and the International Treaty on Plant Genetic Resources for Food and Agriculture. Navigation links include 'Submit a resource!', 'Feedback', 'Home', 'Login', and 'English'. A 'Help on this page' button is also present. The search section includes a checkbox for 'Include results in other languages' and several input fields: 'Free text search', 'Keywords', 'Subjects', 'Resource type' (a dropdown menu), 'Publication year' (with 'Since' and 'Until' sub-fields), and 'Regions'. There are 'Clear search form' and 'Search' buttons. Below the search form, a blue bar indicates 'Number of records: 1474'. The first search result is titled '1) A case for crop wild relative preservation and use in potato' and includes a brief description, subject, regions (Global), and publication year (2013).

Research
parameters

The screenshot shows the 'Policy Resources' search page, which has a similar layout to the Technical Resources page. It features the same logos, navigation links, and a 'Help on this page' button. The search section includes the same checkbox and input fields, but with 'Categories' instead of 'Subjects'. The 'Clear search form' and 'Search' buttons are also present. A blue bar at the bottom indicates 'Number of records: 134'. The first search result is titled '1) Plant Genetic Resources Strategy for Europe' and includes a description, category (Strategies and Action Plans), regions (Europe), and publication year (2021).
