

FAO SOCIAL PROTECTION

PROMOTING RURAL DEVELOPMENT
FOR ALL

SOCIAL PROTECTION PLAYS A KEY ROLE IN:

**Eradicating
hunger** and
poverty.

**Increasing the economic
and productive capacity**
of the rural poor.

Building families'
**resilience to
crises.**

FAO SUPPORTS NATIONAL GOVERNMENTS TO:

- > **Expand the coverage** of social protection to poor rural households, in all agricultural sub-sectors, including fisheries and forestry.
- > Enhance their capacity to assess the **economic impact** of social protection programmes.
- > Strengthen the linkages and improve the coordination between **agricultural and social protection** policies and interventions.
- > Design and implement **nutrition-sensitive** social protection.
- > Design and implement social protection measures that enhance families' capacity to prevent, manage, cope and **withstand crises** and natural disasters.

SOCIAL PROTECTION

Breaking the cycle of rural poverty.
