C 89/3-Sup. 1
August 1989

FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS ROME

Twenty-fifth Session

Rome, 11 - 30 November 1989

PROGRAMME OF WORK AND BUDGET, 1990-91

LIST OF PUBLICATIONS, MAIN DOCUMENTS
AND MAJOR WORKING PAPERS

1. This supplement sets out for Conference approval information on selected publications, main documents and important working papers, the issue of which is provisionally envisaged for the 1990-91 biennium under the Regular Programme.
2. The total estimated cost of these items under the Regular Programme is US\$ 16 794 000. The estimated costs, including cost increases for 1990-91, cover translation, revision, editing, typing, proofreading, composition, printing, distribution and other operations performed by the Publications Division. They do not include authorship costs. Production costs vary with a number of factors: principally, the length of the document, its physical presentation, the number of languages in which it is to appear, and the number of copies to be printed.
3. This supplement does not cover documentation costs for Regular Programme meetings listed in Document C 89/3-Sup. 2, which amount to an estimated US\$ 12 362 000 (including cost increases, not shown in Sup. 2).
4. It will be noted that the total cost of publications and documents, shown in the table entitled Distribution of Publications and Documentation Costs by Organizational Unit, in Annex II of the Programme of Work and Budget, amounts to US\$ 40 156 000. The total of US\$ 40 156 000 includes the two figures cited above, US\$ 16 794 000 and US\$ 12 362 000, plus a further sub-total of US\$ 11 000 000 for the following activities:

	<u>US\$</u>
(a) Circular State Letters (Programme 1.1.2)	1 396 000
(b) Chinese translation not included in Chapter 1 (Programme 5.1.3)	2 715 000
(c) Unapportioned publications reserve (Programme 5.1.3)	1 912 000
(d) Miscellaneous working papers (All programmes: publications expenses)	4 277 000
(e) Forms (All programmes: operating expenses)	700 000
	<hr/>
	11 000 000
	=====

5. The estimated total of publications, documentation and other material which is to be financed from identified extra-budgetary resources is US\$ 3 498 000. This, added to the total of US\$ 40 156 000 under the Regular Programme, would bring the total estimated resources for publications and documents from all sources of funds to US\$ 43 654 000.

6. In the following list, languages are identified by the symbols shown below:

A = Arabic	B = Bilingual document
C = Chinese	T = Trilingual document
E = English	Q = Four-language document
F = French	R = Five-language document
S = Spanish	
G = German	
I = Italian	
P = Portuguese	

Extra-budgetary allocations may be available to cover additional translation costs.

7. The categories of the respective publications are indicated by the following abbreviations:

P = Priced Publications - The material is chosen for issue in this form because of its permanent character, special importance or value to widespread readership. Recipients comprise all Member Governments; selected technicians and specialists; FAO depository libraries; the United Nations, other organizations in the United Nations family, and other international organizations and - usually by sale - other interested organizations and individual members of the public. Priced publications are normally typeset.

M = Main Documents - Non-sales documents, the content of which is final, issued under the authority of FAO, in the languages constitutionally required. Main documents are primarily intended for one, several or all Member Governments, and/or for technicians, specialists and institutes, for delegates and participants at the relevant FAO conferences and sessions, for the United Nations, other organizations in the United Nations family, other international organizations as applicable, and for FAO depository libraries. Main documents may also be made available to other categories on specific request, either free or against a handling charge. This material is normally printed from camera-ready copy in limited print-runs.

W = Working Papers = Papers intended primarily for participants at meetings or individuals directly concerned, as a basis for consideration, discussion, study and action, or for their information.

I = Information Material - Information material is printed matter intended primarily for broad distribution to the public or to the communications media in order to provide information on the Organization, its purpose, its programmes, etc., or to inform the public of new developments related to its operations. The category includes posters, bulletins, booklets, leaflets and folders for the information of the general public and news releases and features. Information material is issued in a variety of presentations depending upon the audience to be reached and the urgency of publication.

8. These categories have been further broken down into subcategories as follows:

P/1 Periodical
 P/2 Yearbook
 P/3 Monograph
 P/4 Training Material
 P/5 Grass-roots/intermediate level material

M/1 Technical papers and major documents (A4 size)
 M/2 Technical papers and major documents (A5 size)
 M/3 Major reports of meetings
 M/4 Bibliographies
 M/5 Directories
 M/6 External newsletters

W/1 Meeting documentation
 W/2 Non-meeting documentation
 W/3 In-house newsletters
 W/4 In-session meeting documentation

I/1 Information books/brochures
 I/2 Leaflets
 I/3 Posters
 I/4 Press releases

9. A number of titles include an abbreviation indicating the intended series. The following abbreviations have been used:

ASB - Agricultural Services Bulletins
 EEP - Environment and Energy Papers
 RTP - Research and Technology Papers
 PPPP - Plant Production and Protection Papers
 APHP - Animal Production and Health Papers
 CG - Conservation Guides
 FP - Forestry Papers
 FTP - Fisheries Technical Papers
 FPNB - Fertilizer and Plant Nutrition Bulletins
 IDP - Irrigation and Drainage Papers
 SB - Soils Bulletins
 ESDP - Economic and Social Development Papers
 ICTP - Investment Centre Technical Papers
 FNP - Food and Nutrition Papers
 LS - Legislative Studies
 SDS - Statistical Development Series
