Twenty-fifth Session

Rome, 11-30 November 1989

PROGRAMME OF WORK AND BUDGET FOR 1990-91

Supplementary Information

Organizational Changes

1. As stated in para. 4.4 on page xxxii of document C 89/3, some relatively minor organizational changes are proposed. Revised Organizational Charts for the Policy Analysis Division (ESP) and the Forestry Department (FO), are attached to be substituted for those on pages 366, 374 and 375. The extent of and the rationale for the organizational changes are briefly outlined below.

Legal Office

2. To better reflect the nature and level of work of the Legislation Branch, it is proposed to rename it "Development Law Service".

Policy Analysis Division

3. The activities under Sub-programme 2.1.8.2 performed by the Policy Studies Group relate more closely to those of the Situation and Outlook Group than to the work of the Training Group. The Policy Studies Group is thus proposed to be transferred from its present location in the Development Policy Studies and Training Service to the Situation and Outlook Service, which is retitled "Situation and Policy Studies Service".

4. At the same time the high priority assigned to training, especially to training in policy analysis, and the increase in training projects and activities, warrant the upgrading of the Training Group to a "Training Service".

Forestry Department

5. The effective implementation of the Tropical Forestry Action Plan required a strengthening of the country sector planning capability and a sharpening of the focus of planning activities in forestry. At the same time it is considered necessary to bring policy advice and institutional development into closer and more logical relationship with the planning function.

6. As a consequence, a TFAP Coordinating Unit is proposed, reporting directly to the Office of the ADG; the Policy and Planning Service is renamed "Forestry Planning and Institutions Service" and expanded to comprise a Forestry Planning and Statistics Group and a Forestry Policy and Institutions Group.

7. To better reflect the range of forest products contributing to food security, energy, housing, and rural incomes and employment, the Forest Industries Division is renamed "Forest Products Division" and comprises three Branches: Wood Industries Branch; Non-Wood Products and Energy Branch; Forest Harvesting and Transport Branch.

Financial Services Division

8. In view of the increased responsibilities of this Division, in connection with the development of computerized systems as well as larger and more complex financial operations, and to bring its structure into line with that of other comparable divisions, it is proposed to substitute the Branch structure by a services structure.

Establishment, Grading and Codification of Posts

9. Please substitute tables on pages 403 and 404 with the attached new tables.
