(FAO Project GCP/GLO/194/MUL)

**“Promoting and Strengthening
Multi-purpose National Forest Inventory System
in the Asia Pacific Region in Connection with Climate Change”**

Seoul, Republic of Korea

23-25 February 2010

Contents

1. Executive Summary	1
2. Introduction	3
3. Synopsis of Workshop Sessions.....	5
3.1. Opening Session.....	5
3.2. Session 1 : Climate Change and REDD	6
3.3. Session 2-1 : National Forest Inventory Program in connection with climate change (France, FAO).....	11
3.4. Session 2-2 : National Forest Inventory program in connection with climate change (USA, FAO, Republic of Korea, ITTO)	13
3.5. Session 3-1: Idealism or Reality? – A Status of NFI policy to mitigate climate change in partner countries (Philippines, Malaysia, Myanmar, Nepal, Thailand, Pakistan)	17
3.6. Session 3-2: Idealism or Reality? – A Status of NFI policy to mitigate climate change in partner countries (China, Mongolia, Laos, Vietnam, PNG, Solomon Islands, India)	18
3.7. Session 4 : Working group sessions.....	19
3.8. Session 5 : Next steps for the NFI in the Asia Pacific	21
3.9. Session 6 : Field trip - Visit to the Sample Plot of Korean NFI.....	24
4. Conclusions and Recommendations	25
5. Appendices	27
5.1 Workshop Agenda.....	29
5.2 Participants list	33
5.3 Terms of Reference for Moderators and Rapporteurs of Plenary Sessions	41
5.4 Terms of Reference for Working Group Sessions	45
5.5 Presentation Materials of Opening Session.....	49
5.5.1 Opening Address by FAO	51
5.5.2 Welcome address by the Hosting Government.....	53
5.5.3 Congratulatory <i>speech by IUFRO</i>	55
5.6 Presentation Materials of Session 1	57
5.6.1 Climate Change and REDD+	59
5.6.2 Climate Change Policy of Korean Government.....	62
5.6.3 UN-REDD Program	67
5.6.4 Climate Change Policy of Korea Forest Service.....	70
5.7 Presentation Materials of Session 2	77
5.7.1 Why is NFI important to mitigate climate change?	79
5.7.2 Evolution of FAO NFMA	84
5.7.3 FAO - Finnish program & support in the Asia countries.....	87

5.7.4	FAO - Methodology and Cost Analysis of FAO NFMA	97
5.7.5	Long history - USA NFI program	103
5.7.6	Strengthening MAR : FAO - Japan program	107
5.7.7	New emerging sector : Korea NFI program.....	110
5.7.8	IPCC Good Practice Guideline for LULUCF & Carbon estimations in Korea NFI program.....	115
5.7.9	Introduction to ITTO REDDES program.....	123
5.8	Presentation Materials of Session 3	127
5.8.1	Current situation of Deforestation in the Asia Pacific region	129
5.8.2	Review of NFI in Asia and Pacific region in context of UNFCCC	131
5.9	Country Presentation Materials of Session 3	139
5.9.1	Country Presentation Template	141
5.9.2	NFI experiences in Philippines	145
5.9.3	Availability of financial resources for NFI in Malaysia	147
5.9.4	Importance of NFI in the policy-making system of Myanmar.....	150
5.9.5	Reporting systems in Nepal.....	154
5.9.6	NFI and Forest management in Thailand.....	157
5.9.7	Government organization for NFI in Pakistan	160
5.9.8	Quality control of NFI in China	163
5.9.9	Extent of technical expertise in Mongolia.....	168
5.9.10	Relationship between National development & NFI in Laos	173
5.9.11	Strategy for NFI in Vietnam.....	175
5.9.12	Integration of NFI and MRV in PNG.....	177
5.9.13	Necessity of NFI in Solomon Islands.....	180
5.9.14	Carbon estimations in India.....	183
5.10	Presentation Materials of Session 4	191
5.10.1	A long-term strategy for NFI activities in the Asia Pacific region	193
5.10.2	East Asia Climate Partnership Program of Korean Government.....	196
5.10.3	Guide for the Working group discussion	198
5.11	Presentation Materials of Session 5	199
5.11.1	Main Findings from the Working Group Sessions.....	201
5.11.2	Lists of Participants to the Working Groups.....	207
5.12	Field Trip Information.....	209
	Field Trip Information.....	211
