**COMMISSION FOR CONTROLLING  
THE DESERT LOCUST IN SOUTHWEST ASIA**

**Twenty-seventh Session**

**Islamabad, 25-27 January 2011**

**ACCOUNTS FOR 2008-2010  
AND WORK PLAN FOR 2011-2012**

## 1. Introduction

The FAO Commission for Controlling the Desert Locust in South-West Asia (SWAC) is funded entirely by contributions from the four member countries. The total annual contribution of all members is US\$ 71,450. This amount has remained constant since the establishment of the Commission in 1964. If countries pay their contributions, then there is US\$ 142,900 available to fund activities indicated in the biannual work plan.

The 26<sup>th</sup> Session approved expenditures for 2009-2010 in the amount of US\$ 267,750 that consisted of the biannual member contributions and an allocated balance of previous funds in the amount of US\$ 125,000.

The overall financial position of Commission's Trust Fund is shown in Table 1. The final accounts for 2008-2010 are presented in Table 2. The current status of contributions from the Member Countries is given in Table 3.

## 2. Overall situation

The final financial expenditures for 2008 were US\$63,511 compared to US\$56,609 reported at the 26<sup>th</sup> session up to 25 November 2008 (see Table 2). The 26<sup>th</sup> Session approved a budget of US\$ 267,750 for 2009-2010, including standard support costs. The expenditures for 2009 were US\$ 119,040 and the expenditures for 2010 were US\$ 48,690. Therefore, the total expenditures for 2009-2010 were US\$ 167,730, which is well short of the approved budget. Considering the contributions that were made by Member Countries in 2008-2010, the current balance of the Trust Fund is US\$ 135,856, which is nearly the same as the balance reported at the 26<sup>th</sup> Session (Table 1).

The expected level of contributions, including the settling of any arrears, over the next two-year period should be taken into account when preparing the work plan for 2011-2012.

### 3. Expenditures in 2009-2010

The following expenditures were incurred from the Trust Fund in 2009-2010 (see Table 2):

- eLocust2 data – subscription, activation and transmission costs
- participation of locust information officers at annual SWAC/CRC inter-regional workshop in Cairo (April 2009 and 2010)
- organizational costs and participation of Master Trainers in SWAC/CRC inter-regional Training of Trainers workshop in Ramsar, Iran (May 2010)
- Iran/Pakistan joint border survey (April 2009 and 2010)
- Tata Safari VX 4WD vehicle for India in 2009
- Flybook V5 laptop PC for Pakistan in 2010
- DLMTM kit equipment, reproduction and distribution

### 4. Contributions in 2008-2010

Details of the contributions to the Commission's Trust Fund by Member Countries are presented in Table 3. At the beginning of 2008, there was US\$ 454,260 of arrears to the Commission's Trust Fund. This is nearly US\$ 13,000 higher than at the beginning of the previous biennium. In addition, the annual contributions for 2008-2010 amounted to US\$ 214,350. Thus, US\$ 668,610 was due to the Trust Fund. From 1 January 2008 to 31 October 2010, US\$ 267,002 was received from Member Countries, which is about US\$ 40,000 more than in the previous biennium. This is only slightly more than the annual assessment during the period. Finally, the current outstanding balance is US\$ 401,607, down from US\$ 428,679, at the end of the previous biennium.

No progress has been made on the substantial arrears of I.R. Iran (US\$ 320,002) and Pakistan (US\$ 85,776).

### 5. Recommendations from the 26<sup>th</sup> Session

The last session of the Commission made a few specific recommendations pertaining to the finances.

- (a) In order to improve financial accountability of the Commission, each country should provide evidence of annual contributions to the Trust Fund that has been made up to now.
- (b) If for some reason some of the arrears of I.R. Iran are not forthcoming in 2009, the Chairman and Secretary of the Commission should make a visit to Tehran and discuss the payment of arrears with the Director of the Plant Protection Organization and other relevant officials.
- (c) Any future expenditure by the FAO Representation in I.R. Iran related to the support of the Commission should not be paid from the Commission's Trust Fund.

The Session should review the status and progress made for each of these recommendations.

### 6. Work plan for 2011-2012

When preparing the biannual work plan, it is necessary to keep in mind that the total annual contribution of the Member Countries US\$ 71,450. If countries pay their contributions, then US\$ 142,900 should be available for the biannual work plan of 2011-2012. Combined with the current balance of US\$ 135,856, then up to a maximum of US\$ 278,756 could be allocated for activities in 2011-2012.

It is proposed that the work plan for the next biennium carry forward any activities or issues that were not completed previously but are still thought to be relevant and important, and include any new activities agreed upon by the Commission.

## **7. Decisions required**

The Session should:

- (a) develop an effective work plan of activities to be implemented in 2011-2012 that would strengthen the national capacities in survey, reporting, control and planning;
- (b) reiterate the need for contributions to be made to the Trust Fund on a regular basis in order to support the activities envisaged under the work plan;
- (c) review the large amount of arrears of I.R. Iran and Pakistan.
