

## Enhanced Capacities For Disaster Risk Mitigation In Agriculture, Fisheries & Forestry

TREE PRUNING ACTIVITY CARRIED OUT AT SIR ARTHUR LEWIS  
COMMUNITY COLLEGE FARM: MABOUYA VALLEY

These photographs above show trees adjacent to farm buildings at the Sir Arthur Lewis Community College Farm in Dennery, St. Lucia prior to pruning and after being pruned by the FAO Project. This activity focuses on good practices to mitigate against windstorm and hurricane damage to the roofs of farm buildings.
