Data Validation for El Salvador

One of the main problems found for El Salvador is that they do not have many commodities, only four listed in their national statistics. The data was obtained from their National Statistical Office.

The four commodities match closely to FAOSTAT with the exception of 2010.

<table>
<thead>
<tr>
<th>CPC_PRODUCT</th>
<th>VALIDATION_NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rice, paddy</td>
<td>Match, except 2010</td>
</tr>
<tr>
<td>Beans, dry</td>
<td>Match, except 2010</td>
</tr>
<tr>
<td>Maize</td>
<td>Match, except 2010</td>
</tr>
<tr>
<td>Sorghum</td>
<td>Match, except 2010</td>
</tr>
</tbody>
</table>

*Table 1: Commodity List and validation notes.*
