FOREWORD

The first edition of the World List of Forestry Schools was published in 1974 to facilitate communication and exchange of information on forestry education and training throughout the world. This was followed by a revised version in 1977 incorporating a number of additions and amendments.

The present third and expanded edition includes schools and centres providing training for forest industries. It is based on information received from many sources.

I take this opportunity to express my sincere thanks to all those who in one way or another have helped to produce the current edition and to request users to submit suggestions for further additions or amendments which can be incorporated into future improved editions of the World List.

M.A. Flores Rodas
Assistant Director General
Forestry Department

AVANT-PROPOS

La première Liste des écoles forestières fut publiée en 1974 afin de faciliter les communications et l'échange d'informations sur l'enseignement et la formation forestiers dans le monde entier. Par la suite, en 1977, il fut décidé de publier une version plus à jour, incorporant des additifs et des corrections.

Cette troisième édition, basée sur des informations provenant de nombreuses sources, a été élargie afin d'incorporer aussi les écoles et centres dispensant la formation pour les industries forestières.

Je profite de l'occasion pour exprimer mes sincères remerciements à tous ceux qui ont contribué d'une manière ou d'une autre à produire la présente liste, et en priant ceux qui l'utilisent de bien vouloir proposer des additifs et des corrections ultérieurs pour des éditions futures et améliorées.

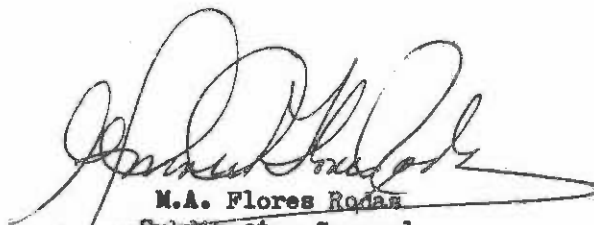

M.A. Flores Rodas
Sous-Directeur général
Département des forêts

P R E F A C I O

La primera edición de la Lista Mundial de Escuelas Forestales se publicó en 1974 para facilitar la comunicación y el intercambio de información sobre educación y capacitación forestales en el mundo entero. En 1977, se publicó una versión revisada, incorporando adiciones y correcciones.

La presente tercera edición, basada en informaciones recibidas de muchas fuentes, ha sido ampliada para incluir también las escuelas y centros que ofrecen capacitación para las industrias forestales.

Aprovecho esta ocasión para expresar mi sincero agradecimiento a todos aquellos que han contribuido de una manera u otra a preparar la presente lista, y para solicitar a los que hacen uso de ella que propongan ulteriores adiciones o correcciones que se tendrán en cuenta en ediciones futuras.

M.A. Flores Rodas
Subdirector General
Departamento de Montes
