

## **Theme 3: Energy Efficiency and Carbon Economy in the FP Industry**

**Chaired by  
Teresa Presas**

**President, ICFPA & Managing Director, CEPI**

***Presentation 3.1:*** Report on energy efficient technologies and CO<sub>2</sub> reduction potentials in the pulp and paper industry

***Presentation 3.2:*** Demand side energy management

***Presentation 3.3:*** The EE21 project

***Presentation 3.4:*** Voluntary Efforts against Global Warming and Benchmark

***Presentation 3.5:*** Greenhouse gas and carbon profile of the global forest products industry

***Presentation 3.6:*** Benchmarking energy use and greenhouse gas emissions

***Presentation 3.7:*** Pulp and paper industry combined heat and power (CHP) in Europe

***Presentation 3.8:*** Mondi's perspective on energy efficiency and emission reduction
