TRANSFORMATIONAL CHANGE FOR FORESTS AND LAND USE

Monday, 2 May 2022

01:30 – 03:00 PST | 04:30 – 06:00 EDT | 17:30 – 19:00 KST | 10:30 – 12:00 CET

Addressing the series of critical challenges facing humanity will require collective global action. In recent years, countries have stepped up their collaborative efforts to mitigate climate change and address widening inequalities in income, livelihoods, human health and access to food. To achieve the global development and climate objectives enshrined in the Paris Agreement, the Sustainable Development Goals, and other international agreements, sweeping transformational changes must take place.

The Food and Agriculture Organization of the United Nations (FAO) and the Center for International Forestry Research (CIFOR) have jointly explored how such transformational change has been defined, what it means, what drives it and how implementation can be improved. This event will convene a diverse group of actors to provide examples of transformation in the land use sector, grounded in the climate change discourse, and will provide insights and experiences to help forest sector actors design and implement transformations in efficient and effective ways.

OBJECTIVES

- ◆ Introduce the concept of transformational change
- ◆ Provide examples of transformative interventions in forestry and land use
- ◆ Demonstrate that transformation in land use, and its associated benefits, is enabled by a transformation in approaches to policy-making and partnerships

PANELLISTS

Ms Stibniati Atmadja
Center for International
Forestry Research (CIFOR)

Ms Kristin DeValue
Food and Agriculture Organization
of the United Nations (FAO)

Mr Thomas Yaw Gyambrab
Forestry Commission, Ghana

Professor Daddy Ruhayat
Regional Council for Climate Change
of East Kalimantan Province, Indonesia

Ms Verónica Gálmez Márquez
Green Climate Fund (GCF)

Mr Victor Francisco Cadavid
Ministry of Environment, Panamá

Ms Jessica Vega Ortega
Global Indigenous Youth Caucus

AGENDA

17:30 – 17:35 KST:
Welcome and introduction

17:35 – 17:40 KST:
High-level opening: Why we talk about
transformational change

17:40 – 17:50 KST:
Transformational change in the land use
sector: key lessons

17:50 – 18:30 KST:
Panel discussion: Illustrating the 4
drivers of transformational change in the
land use sector: norms, resources,
processes and legitimacy

18:30 – 18:55 KST:
Q&A with attendees

18:55 – 19:00 KST:
Conclusions

WELCOME/OPENING/CLOSING

Ms Serena Fortuna
Food and Agriculture Organization
of the United Nations (FAO)

Mr Stefanos Fotiou
Food and Agriculture Organization
of the United Nations (FAO)
