

XV WORLD FORESTRY CONGRESS

Building a Green, Healthy and Resilient Future with Forests

2–6 May 2022 | Coex, Seoul, Republic of Korea

Vol. 6 / August 2021

Seoul, Republic of Korea

Seoul, the host city of the XV World Forestry Congress, is a dynamic cultural centre where technology and modern life beautifully mix with traditional values. It is also a hub for the latest global trends in entertainment, music, fashion, culinary culture, and more.

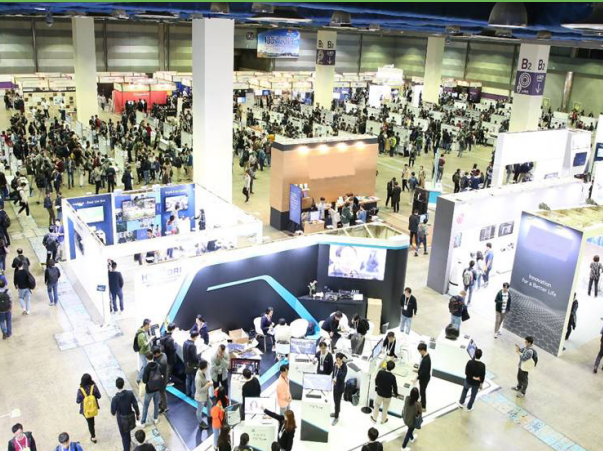

The Republic of Korea looks forward to welcoming the world's forest community to share lessons learned and showcase the country's majestic forests! More info [here](#).

Call for videos

Calls are open **until 3 September 2021** for submissions of short videos that illustrate ideas and examples of innovation, research findings, and good practices relevant to the Congress theme and sub-themes. For more information, click [here](#).

Exhibition registration open

Registration for an exhibition stand at the XV World Forestry Congress is now open! An exhibit will provide a unique opportunity to promote projects, products, present innovative technologies effectively, and build future partnerships. More information can be found [here](#).

Become a sponsor

The sponsors of the XV World Forestry Congress will enjoy global attention from forest stakeholders. The Sponsor Programme will allow organizations to stand out and show their support for building a green, healthy, and resilient future with forests! There are five packages as well as customized options available. For more information, send an email [here](#).

Early bird registration until 30 November 2021

Register now and enjoy special early bird rates **until 30 November**! The Congress offers various registration packages with a variety of levels of access to events and the venue. For more information and to register, click [here](#).
