

**PROGRAMME MIXTE FAO/OMS SUR LES NORMES ALIMENTAIRES
COMITÉ EXÉCUTIF DE LA COMMISSION DU CODEX ALIMENTARIUS
Quatre-vingt-unième session**

Sous-Comité sur le Plan stratégique du Codex pour 2020-2025

(Rapport préparé par la quatrième session du Sous-Comité de la planification stratégique à l'intention de la quatre-vingt-unième session du Comité exécutif de la Commission du Codex Alimentarius)

1. AVANT-PROPOS

1. La Commission du Codex Alimentarius a adopté son Plan stratégique pour 2020-2025 lors de sa quarante-deuxième session en juillet 2019. En adoptant le Plan stratégique 2020-2025, les délégations ont mentionné que le travail véritable restait à accomplir, à savoir l'élaboration et la mise en œuvre d'un plan de travail devant conduire à la réalisation de ses objectifs stratégiques, en se saisissant des occasions qui se présenteraient de mettre en place des méthodes de travail nouvelles et constructives.

2. Aucun d'entre nous à l'époque n'aurait pu prévoir les pertes humaines, les défis de santé publique et les perturbations mondiales que causerait la pandémie de covid-19. La pandémie a changé le monde dans lequel nous vivons et vivrons demain et ce, peut-être de manière irréversible. Les chaînes d'approvisionnement alimentaire mondiales dont nous sommes tous tributaires ont eu à subir des contraintes persistantes sans précédents. Il en a été de même du Codex.

3. Le Codex et ses méthodes de travail ont connu une transformation rapide provoquée par les difficultés de fonctionnement imputables à la pandémie; il a ainsi déplacé l'ensemble des réunions inscrites à son calendrier sur des plateformes en ligne et a rendu prioritaire les travaux d'élaboration de normes internationales scientifiques de sécurité sanitaire et de qualité des aliments qui se trouvent au cœur de sa mission. Les travaux d'élaboration et de mise en œuvre d'un plan de travail, que la Commission du Codex Alimentarius avait envisagés à sa quarante-deuxième session, se sont poursuivis en arrière-plan, sous la direction des coordonnateurs régionaux, du Secrétariat du Codex et d'autres acteurs du Codex, et en bénéficiant de la supervision des sous-comités de planification stratégique qui se sont succédé.

4. Le projet de synthétiser ces travaux en un plan, unique et cohérent, des travaux de mise en œuvre a été retardé sans pour autant être abandonné. Le présent rapport contient le plan des travaux de mise en œuvre et, à l'heure où vient de s'accomplir le premier quart de la période de six ans du Plan stratégique, il présente également les acquis et le chemin parcouru à ce jour mais aussi les enseignements dégagés au fil de cette mise en œuvre.

Recommandations

5. Nous soumettons le présent rapport au CCEXEC81 et lui adressons ses recommandations, en application du mandat du quatrième Sous-Comité de planification stratégique relatif à la mise en œuvre du Plan stratégique 2020-2025 du Codex.

6. La quatre-vingt-deuxième session du Comité exécutif, dont la composition doit être renouvelée à l'issue des élections prévues à la quarante-quatrième session de la Commission du Codex Alimentarius, doit examiner s'il convient de faire du suivi de la mise en œuvre du Plan stratégique 2020-2025 du Codex un point permanent de son ordre du jour et si cette activité doit recevoir l'appui d'un sous-comité de planification stratégique supplémentaire.

7. Un débat de fond sur la mise en œuvre du Plan stratégique 2020-2025 du Codex doit avoir lieu lors de la quarante-cinquième session de la Commission du Codex Alimentarius dans le cadre du premier examen biennal du Plan, ce débat devant être éclairé par le présent rapport et toutes délibérations du Comité exécutif de la Commission du Codex Alimentarius.

2. RÉALISATIONS ET ACQUIS PRINCIPAUX

2.1 Planification et mise en œuvre au niveau régional

8. Lors de l'adoption du Plan stratégique 2020-2025 à la quarante-deuxième session de la Commission du Codex Alimentarius, les délégations ont relevé que l'élaboration du Plan avait été un processus exemplaire de par sa transparence et son ouverture, ayant été assorti de consultations et de discussions informelles avec les Comités régionaux de coordination FAO/OMS. Le souci de transparence et d'ouverture a accompagné tout le processus d'élaboration et d'exécution du plan des travaux de mise en œuvre. L'ordre du jour de chacun des comités régionaux de coordination FAO/OMS qui se sont réunis entre septembre et novembre 2019 comportait une séance d'atelier destinée à entamer l'élaboration d'un plan de mise en œuvre régional axé sur les activités prioritaires à effectuer en 2020 et 2021. Le Secrétariat du Codex a prêté son appui à l'élaboration ininterrompue de chacun de ces plans de mise en œuvre régionaux et à leur révision périodique. Les plans actuels de chacune des six régions sont présentés à l'annexe I.

9. Lors de sa réunion en ligne du 1^{er} juillet 2021, le Sous-Comité a accueilli les communications et les rapports écrits de chacun des six coordonnateurs régionaux, dans lesquels ceux-ci ont présenté les principales réalisations et difficultés qui ont émaillé la mise en œuvre du plan de travail dans leur région et ont exposé les mesures qu'ils envisageaient pour la suite. Ces rapports figurent à l'annexe II.

10. Il ressort de ces rapports un certain nombre de thèmes communs. Il y est fait état de difficultés communes et partagées qui sont imputables à la pandémie de covid-19 et d'autres qui ont trait à la redéfinition des priorités de travail et à la réaffectation des ressources au sein des pays Membres. La transition vers un mode de travail en distanciel au sein du Codex s'est accompagnée d'un accroissement du taux de participation aux comités, aux webinaires et à d'autres forums du Codex. Bien que perçue comme positive, cette évolution n'en a pas moins eu des répercussions sensibles sur la charge de travail du Secrétariat du Codex et des équipes du Codex dans les pays Membres. Plusieurs régions prévoient des formations à l'utilisation des forums en ligne ou d'autres activités similaires en vue de renforcer leur capacité à travailler en collaboration dans les forums en ligne.

11. Le Sous-Comité a également pris connaissance des acquis en matière de renforcement des capacités aux niveaux national et régional dans de nombreuses régions, notamment grâce à des projets du Fonds fiduciaire du Codex, à la coopération technique et à d'autres mécanismes d'assistance. Les manifestations et activités marquant la Journée mondiale de la sécurité sanitaire des aliments se sont également poursuivies en 2020 et 2021 aux niveaux national et régional.

12. Dans leur ensemble, les rapports et les communications des coordinateurs régionaux témoignent d'une gamme impressionnante d'activités qui ont été effectuées ou sont planifiées en vue de l'accomplissement des résultantes inscrites au Plan stratégique et que l'on a rendues prioritaires dans chaque région.

Recommandations

13. L'ordre du jour de chacun des Comités régionaux de coordination FAO/OMS, appelés à se réunir en 2022, se doit de comporter les points suivants:

- l'examen du plan de mise en œuvre régional pertinent pour 2020 et 2021;
- l'élaboration de plans de mise en œuvre régionaux axés sur les activités prioritaires à effectuer en 2022 et 2023.

2.2 Actions conduites par le Secrétariat du Codex

14. Dans l'élaboration du Plan stratégique du Codex pour 2020-2025, le Secrétariat du Codex, tout en assurant son rôle d'appui dans tous les aspects de la mise en œuvre, s'est vu définir un rôle privilégié dans l'accomplissement de l'objectif stratégique 3 - *Accroître les effets du Codex en faisant en sorte que les normes du Codex soient reconnues et utilisées* et de l'objectif stratégique 5 - *Améliorer les systèmes et pratiques de gestion des travaux qui contribuent à la réalisation efficace et effective de tous les objectifs du Plan stratégique*. Les activités que le Secrétariat du Codex doit effectuer pour concourir à l'accomplissement de ces objectifs avaient fait l'objet de débats lors de la réunion du troisième Sous-Comité de la planification stratégique en présentiel en février 2020.

15. Lors de sa réunion en ligne du 1^{er} juillet 2021, le Sous-Comité a reçu un rapport mis à jour du Secrétariat du Codex relatif à la contribution de ce dernier aux objectifs stratégiques 3 et 5. Ce rapport comporte les tableaux d'activités présentés en février 2020, révisés à la lumière des délibérations du

troisième Sous-Comité de planification stratégique, avec une mise à jour faisant état de l'avancement de chacune des activités. Ces tableaux figurent à l'annexe II.

16. L'objectif stratégique 3 représente un nouveau domaine de travail au titre du Plan stratégique du Codex. Le plan de travail en matière de communication du Secrétariat du Codex et les Comités régionaux de coordination ont un rôle important à jouer dans la mise en œuvre des éléments 1 et 2 de l'objectif stratégique 3, ceux-ci visant à opérer une sensibilisation aux normes du Codex et à permettre leur assimilation et leur application.

17. Les informations relatives à l'utilisation des normes du Codex et à leurs effets sont essentielles pour prendre la mesure de la valeur des travaux du Codex. Si l'élément 3 de l'objectif stratégique 3 est donc important, le troisième Sous-Comité de planification stratégique a reconnu que les activités venant à l'appui de sa mise en œuvre devaient être plus amplement examinées et planifiées. Un projet de délibération sur l'observation suivie de l'utilisation des normes du Codex¹ a été présenté par la France lors de la trente-deuxième session du Comité du Codex sur les principes généraux (CCGP32). À la suite de cette réunion, et en s'éclairant des éléments issus des délibérations de la CCGP32, le Secrétariat du Codex, la FAO et l'OMS ont débattu des modalités d'approche de ce domaine de travail. Une planification est en cours avec les unités d'évaluation de la FAO et de l'OMS, son objet étant un éventuel mécanisme d'évaluation de l'utilisation et de l'effet des normes Codex. Le Secrétariat du Codex observe aussi avec attention l'expérience pertinente d'autres organisations internationales, notamment l'OIE et le comité SPS de l'OMC.

18. Les activités à l'appui de la mise en œuvre de l'objectif stratégique 5 s'appuient sur des activités précédentes et les enseignements tirés de la mise en œuvre du Plan stratégique 2014-2019, comme cela a été récemment signalé². La pandémie de covid-19 a eu une incidence sur la manière dont certaines activités prévues au titre de l'objectif stratégique 5 pouvaient être mises en œuvre et un certain nombre d'ateliers en présentiel ont dû être annulés. Néanmoins, un grand nombre de ces activités ont atteint leur but, principalement par le biais de manifestations en ligne, parmi lesquelles des rencontres destinées à informer les Membres et les observateurs de l'actualité qui les concerne et à leur permettre de se préparer aux réunions en ligne; des échanges avec les coordonnateurs régionaux (grâce auxquels les Membres ont été maintenus informés et ont disposé de canaux de communication pour faire entendre leurs préoccupations); et l'élaboration d'indications destinées à encadrer la participation aux comités du Codex se réunissant en distanciel. Le Sous-Comité a constaté que la mise à disposition de moyens en ligne pour procéder aux travaux du Codex a conduit à une augmentation des inscriptions des Membres et des observateurs aux comités du Codex. Il s'agit d'une évolution positive qui donne la mesure de l'implication de l'ensemble des Membres dans les travaux du Codex et de l'assimilation dont ils font l'objet. Toutefois, il faudra plus de temps et une plus ample analyse pour s'assurer du caractère effectif de cette participation et de son effet sur l'élaboration des normes du Codex, s'agissant en particulier de la qualité et de la célérité de ces travaux. Le suivi du Plan stratégique 2020-2025 du Codex s'effectuera suivant un rythme biennal, le premier rapport de suivi devant être présenté en 2022 (voir additif 1). La ponctualité de la production des documents sera un des aspects abordés dans le rapport de suivi.

19. Une autre activité à l'appui de la mise en œuvre de l'objectif stratégique 5 est le renouvellement des systèmes informatiques du Codex, qui s'effectue en collaboration avec la Division de la transformation numérique et de l'informatique de la FAO (CSI) en adoptant des technologies récentes permettant de mieux gérer les données et de les protéger davantage, et qui renforce l'intégration des différents systèmes et outils informatiques utilisés par le Codex.

20. Le Sous-Comité a pris note de l'évaluation qu'a produite le Secrétariat du Codex des activités qu'il a exposées, selon laquelle chacune est en bonne voie.

Recommandations:

21. Le Secrétariat du Codex se doit de rendre compte chaque année au Comité exécutif du Codex de l'état d'avancement des activités effectuées à l'appui de la mise en œuvre des objectifs stratégiques 3 et 5; et en particulier de faire état de ses travaux en cours visant l'élaboration d'un mécanisme qui doit permettre de mesurer l'utilisation et l'effet des normes du Codex.

2.3 Élaboration d'actions et de stratégies en matière de sécurité sanitaire des aliments par la FAO et l'OMS

22. La Commission du Codex Alimentarius reçoit à chacune de ses réunions les rapports de la FAO et de l'OMS sur l'appui scientifique fourni et les provisions budgétaires correspondantes³, les activités de renforcement des capacités⁴ et d'autres questions intéressant le Codex, auxquels s'ajoute le rapport annuel du Fonds fiduciaire du Codex. Les prochains rapports seront disponibles préalablement à la tenue de la quarante-quatrième session de la Commission du Codex Alimentarius en novembre 2021. L'ensemble de ces rapports témoigne de la contribution des organes de tutelle à l'accomplissement des résultantes du Plan stratégique 2020-2025.

23. Lors de sa réunion du 1^{er} juillet 2021, le Sous-Comité a accueilli les communications de la FAO et de l'OMS sur les travaux d'élaboration, effectués au sein de chaque organisation, de leurs stratégies respectives en matière de sécurité sanitaire des aliments.

24. L'élaboration par la FAO d'une nouvelle stratégie de sécurité sanitaire des aliments répond à une demande de la vingt-septième session de son Comité de l'agriculture en septembre-octobre 2020. Le Sous-Comité a entendu que les travaux d'élaboration stratégique en étaient à leurs prémices, une consultation relative à une première version du texte ayant lieu entre la FAO et l'OMS, à laquelle sont associés le Codex et des responsables régionaux de la sécurité sanitaire des aliments. Dans cette mouture, qui présente les grandes lignes de la stratégie assorties d'annotations, se dégagent quatre résultantes:

- La coordination intergouvernementale et intersectorielle de la gouvernance de la sécurité sanitaire des aliments est renforcée à tous les niveaux;
- Les décisions en matière de sécurité sanitaire des aliments se fondent sur des éléments scientifiques et des faits probants;
- Le renforcement des systèmes de contrôle des aliments a progressé;
- Les parties prenantes d'obédience publique ou privée collaborent dans l'intérêt de la résilience et de la durabilité des systèmes agroalimentaires.

25. La révision par l'OMS de sa stratégie mondiale en matière de salubrité des aliments répond à une demande de ses États Membres formulée dans la résolution 73.5 de l'Assemblée mondiale de la santé relative au renforcement de la salubrité des aliments. La stratégie révisée sera soumise à la soixante-quinzième session de l'Assemblée mondiale de la santé en 2022. Le Sous-Comité a entendu que les travaux d'élaboration de la stratégie avaient abordé une phase d'analyse, de consultation et de rédaction qui comprenait d'actuelles consultations en ligne. Ce processus a permis de définir cinq priorités stratégiques:

- infrastructure – renforcer les contrôles alimentaires nationaux;
- se tourner vers l'avenir – cerner les difficultés qui, en matière de salubrité des aliments, résultent de la transformation des systèmes alimentaires et des changements mondiaux dont ils sont le théâtre;
- s'appuyer sur des éléments probants – exploiter davantage les informations sur la filière de l'alimentation, les preuves scientifiques et les évaluations des risques dans l'élaboration des décisions en matière de gestion des risques;
- centrer son action sur les populations – renforcer la mobilisation des parties prenantes et la communication sur les risques;

³ Appui scientifique FAO/OMS au Codex: Rapport sur les activités et les questions financières et budgétaires CAC/44 INF/2 disponible [ici](#)

⁴ Activités de développement des capacités de la FAO et de l'OMS - CAC/44 INF/1 disponible [ici](#).

- être rentable – faire de la sécurité sanitaire des aliments une composante essentielle du commerce intérieur et international.

26. Le Sous-Comité a entendu que, alors même que les stratégies de sécurité sanitaire des aliments de la FAO et de l'OMS sont élaborées de manière indépendante l'une de l'autre, il avait été mis en place, au regard de leurs structures de gouvernance distinctes, des mécanismes assurant une communication fréquente entre les équipes chargées de l'élaboration des stratégies respectives, qui s'ajoutent aux consultations officielles.

27. Les communications présentées par la FAO et l'OMS rendent compte du recoupement qu'opèrent, avec les cinq objectifs stratégiques du Plan stratégique 2020-2025 du Codex, les domaines des résultantes stratégiques que propose la première et les priorités stratégiques avancées par la seconde. Les recoupements et correspondances ainsi mis en évidence figurent en annexe IV au présent rapport.

28. Lors de sa réunion du 1^{er} juillet 2021, le Sous-Comité a également reçu du Secrétariat du Fonds fiduciaire du Codex (FFC2) des informations concernant les préparatifs de l'évaluation à mi-parcours du FFC2 qui a été programmée; celle-ci doit procurer une évaluation externe indépendante de la capacité du Fonds fiduciaire du Codex de s'acquitter de son mandat avec efficacité et d'assister au mieux ses bénéficiaires. L'établissement du cahier des charges de cet examen en est à ses prémices, soit la phase préparatoire au débat dont il doit faire l'objet avec le Groupe consultatif du Fonds fiduciaire du Codex au cours du second semestre de 2021. Ce cahier des charges doit aussi intégrer les enjeux fondamentaux qui ont été relevés dans les débats avec les régions et les pays Membres et qui ont trait à la réduction du nombre des candidatures de projet adressées au Fonds fiduciaire du Codex lors du dernier cycle, notamment les éléments qui font obstacle à la participation inclusive dans notre nouvel environnement de travail. Le Secrétariat du Fonds fiduciaire du Codex a l'intention de solliciter ensuite des manifestations d'intérêt pour la conduite de cet examen, lequel, selon ses prévisions actuelles, devrait se conclure à la fin du premier semestre de 2022. L'examen est appelé à éclairer de ses conclusions les débats et les décisions portant sur toutes modifications au document de projet propre au Fonds fiduciaire du Codex, qui définit son mandat et ses opérations.

Recommandations:

29. Que la quatre-vingt-unième session du Comité exécutif de la Commission du Codex Alimentarius (CCEXE81) recommande à la quarante-quatrième session de la Commission du Codex Alimentarius (CAC44) que les pays Membres de la FAO et de l'OMS prient instamment les deux organisations d'entretenir et de maximiser leur coordination dans l'élaboration et la mise en œuvre ultérieure de leurs stratégies respectives en matière de sécurité sanitaire des aliments.

30. Lors d'une réunion future, le Comité exécutif du Codex se doit d'examiner le produit de l'évaluation à mi-parcours du CTF2 et de juger de toutes implications dont il serait porteur pour l'accomplissement des résultantes du Plan stratégique du Codex, en vue d'éclairer les débats au sein des structures de gouvernance du Fonds fiduciaire du Codex relatifs à toutes modifications à apporter à son document de projet.

APPENDICES (Original Language only)

Appendix I: Current Codex Strategic Plan implementation plans of each of the six Codex regions.

Activities to be implemented in the CCAFRICA region in 2020-2021 to support the implementation of the Codex Strategic Plan 2020-2025

Priority Goal	Priority objective	Activities for the period 2020-2021	Rationale for proposed activities	Responsible or lead party	Expected output by 2021	Reporting mechanism
1. Address current, emerging and critical issues in a timely manner	1. Identify needs and emerging issues	Apply FAO/WHO food control system assessment tool to identify the needs and emerging issues within the member countries	A regional survey was conducted which identified emerging food safety issues as aflatoxins, pesticide residues in foods and AMR. The response was 47% and there is need to upscale.	National Codex Contact points CCAFRICA coordinator	Report of identified gaps according to the FAO/WHO survey tool Increased response	Annual report
	2. Prioritize needs and emerging issues.	Develop proposals for new work items on two top prioritized emerging issues Capacity development on food control systems at national level (strengthening surveillance/diagnosis) Creating awareness on identified issues e.g. Aflatoxin, pesticide residues, antimicrobial resistance (AMR)- CCAFRICA23 report	Need to emphasize the gaps and priorities through committees and their working groups. This will ensure a timely Codex response. Initiate activities at regional level through formulation of new work proposals	National Codex Contact Points CCAFRICA coordinator	New work items proposals Increased effective participation in Codex committees /meetings/EWG	Biennial reporting of events
3: Increase impact through the recognition and use of Codex standards	3.1 Raise the awareness of Codex standards	Identify relevant codex standards for each member country Develop Information education and communication (IEC) materials; Posters, brochures, fliers Hold workshops/ seminars/ meetings/media to educate on standards e.g. industries, institutions, government officers	There is low application of codex standards by stakeholders These activities will contribute to raising awareness on Codex standards, thus contributing to the global use of Codex standards by different stakeholders as a reference for food safety and fair practices in food trade.	National Codex Contact Points CCAFRICA coordinator	Increased awareness on codex standards	Event reports

	3.2 Support initiatives to enable the understanding and implementation/ application of Codex standards	Adopt/ adapt codex standards in development of national food standards & regulations and application in food trade. Support industries to comply to regulations	There is low application of codex standards by stakeholders. These activities will contribute to implementation and application of codex standards	National Codex Contact Points CCAFRICA coordinator	Increased application/ uptake of codex standards by the industry	Biennial Report
4: Facilitate the participation of all Codex members throughout the standard setting process	4.1. Enable sustainable Codex structures in all Member countries	Conduct advocacy to policy makers to prioritize codex work, allocate resources and provide institutional framework for Codex structures within member countries	Need to institutionalise work of codex at the national level by strengthening codex structures.	National Codex Contact Points CCAFRICA coordinator	Enhanced resources in support of codex activities	Biennial Reports
	4.2 Increase sustainable and active participation of all Codex members	Establish expert committees with resource allocation at the country level to enable active participation and timely responses to circular letters, EWG work	The experts committees will be the forum for discussion on Codex Work and contributions of countries on Codex standards	National Codex Contact Points CCAFRICA coordinator	Increased participation in EWG, PWG and response to circular letters	Biennial Reports

Activities to be implemented in the CCASIA region in 2020-2021 to support the implementation of the Codex Strategic Plan 2020-2025

Priority Goal	Priority objective	Activities for the period 2020-2021	Rationale for proposed activities	Responsible or lead party	Expected output by 2021	Reporting mechanism
1. Address current, emerging and critical issues in a timely manner	1.1 Identify needs and emerging issues.	1.1.1 Collect information on country's current, emerging and critical issues and identify the needs.	To understand the needs and emerging issues of each member country	Regional Co-ordinator / FAO / WHO	Compiled list of issues and needs of Member countries	Survey questionnaires
	1.2 Prioritize needs and emerging issues.	1.2.1 Establish practical criteria taking into consideration prioritization criteria	The criteria for evaluating and prioritizing emerging	CCASIA / Regional co-ordinator	Practical criteria will be established	Report of the coordinator (e.g. under

		used in relevant Codex committees and the Codex Procedural Manual	issues could be used to assess and prioritize the proposal for new work in terms of the need and appropriateness for the region			the Agenda Item on Codex work relevant to the region)
		1.2.3 Prioritize the issues and needs at the regional level	To get an official Codex regional document	CCASIA	Needs and emerging issues prioritized	Plenary
2. Develop standards based on science and Codex risk based principles	2.1. Use scientific advice consistently in line with Codex risk analysis principles	2.1.1 Arrange capacity building programs to enhance understanding of all countries in the region on the use of scientific information and risk analysis principles	The activities will help improve understanding of all countries in the region on the scientific data needed for drafting standard and risk analysis to manage measures accordance with the risk assessment outcome.	FAO/WHO coordinating Committee/Member Countries/ FAO/WHO	Enhanced awareness and knowledge of member countries on the use of scientific information and risk analysis principles	FAO/WHO reports on capacity development activities
		2.2 Promote the submission and use of globally representative data in developing and reviewing Codex standards	2.2.1 Assessment of total number of member countries responding to calls for data	Such an assessment will help provide a picture of member countries who have not been able to submit data.	FAO/WHO	Baseline information on countries responding to calls for data.
	2.2.2. Collate, analyze and share data on a specific product contaminant that is common to member countries.		Before embarking on generation of new data, this activity will assist in getting a picture of the existing data in the region and contribute to building capacity on data management and analysis.	FAO/WHO/ Member Countries	Increase in understanding of available and capacity to collate, manage and analyse data in the region	Report by FAO/WHO to CCASIA22
	2.3 Promote sufficient and sustainable funding for expert	2.3.1. Inform the RCCs of the annual discussions in CAC on sustainable funding for FAO/WHO scientific advice to Codex through	Not all Codex members have the opportunity to attend CAC but may be able	FAO/WHO, Codex Secretariat	Raise the Member country's awareness	Matters arising document and meeting report

	bodies that deliver scientific advice.	its inclusion in the agenda item on Matters arising from CAC and its subsidiary bodies.	to attend the RCCs and given the importance of this issue for Codex work, the RCCs provide an important opportunity to share this information.		about current situation	
		2.3.2. Member countries encourage FAO/WHO governing bodies to allocate dedicated funding for scientific advice	This will help keep funding for scientific advice a high priority for FAO/WHO	Member Countries, FAO/WHO	Sustained funding for scientific advice ensured	
3. Increase impact through the recognition and use of Codex standards	3.1 Raise the awareness of Codex standards	3.1.1. Implement activities (e.g. seminar) to increase awareness of stakeholders on Codex matters	This will help to increase awareness on the impact of Codex standards on trade, facilitate adoption of Codex standards, and therefore facilitate trade.	Member Countries	Codex members are proactively promoting the use of Codex standards	Activity report to Codex Secretariat or CCASIA Coordinator
		3.1.2. Engagement of stakeholders for participation in Codex matters <i>[Subject to government's policy]</i>	Most stakeholders (industry, academia etc) may not be aware of Codex work.	Member Countries	Codex members are proactively promoting the use of Codex standards	Activity report to Codex Secretariat or CCASIA Coordinator
	3.2 Support initiatives to enable the understanding and implementation/application of Codex standards	3.2.1 Enhance understanding on the use of Codex standards as the guidance for development of national food standards by responding to the biannual survey on the use of Codex standards	Developing food standards based on Codex standards will help to facilitate international trade e.g. facilitate the setting up of MRAs and acceptance of equivalence as and when necessary	Member Countries	Increased knowledge on the use of Codex standards in the development of national food standards and regulations.	Report of the survey on Use of Codex standards

	3.3 Recognize and promote the impact of Codex Standards	3.3.1. Identify and report success stories on the use of Codex standards	Published success stories will provide inspiration for adoption of Codex standards on larger scale	Member Countries and Codex Secretariat	Increased awareness on the value of Codex standards	Published stories
--	--	--	--	--	---	-------------------

Activities to be implemented in the CCEURO region in 2020-2021 to support the implementation of the Codex Strategic Plan 2020-2025

PRIORITY GOAL	PRIORITY OBJECTIVE	ACTIVITIES FOR THE PERIOD 2020-2021	RATIONALE FOR PROPOSED ACTIVITIES	RESPONSIBLE OR LEAD PARTY	EXPECTED OUTPUT BY 2021	REPORTING MECHANISM/
1. Address current, emerging and critical issues in a timely manner	1.1 Identify needs and emerging issues	1.1.1 Collect more specific information on country's current , emerging and critical issues using and refining existing mechanisms. 1.1.2 Create a repository of available information on food fraud, including contact details and explanatory guidelines on submission of information.	To understand the needs and emerging issues of each member country To make available to Codex stakeholders information on food fraud examples and on relevant authorities	Regional Coordinator/ FAO/ WHO/ Members/ Codex Secretariat	Compiled list of issues and needs of Member countries A functioning repository available on the Codex website (e.g. regional webpage)	Survey questionnaires Report on repository status (to relevant CAC subsidiary bodies)
	1.2 Prioritize needs and emerging issues	1.2.1 Use current prioritization information available from Codex committees.	Current procedures for evaluating and prioritizing emerging issues could be used (and enhanced by the RC as appropriate) to assess and prioritize needs of the region	Members/ Regional Coordinator	Prioritized needs will be established	Report of the coordinator (e.g. under the Agenda Item on Codex work relevant to the region)
2. Develop standards based on science and Codex risk	2.2 Promote the submission and use of	2.2.1 To select from FAO and WHO scientific expert bodies' calls for data a topic for a	This will maximise the provision and use of data by the region of the selected topic. It will also allow the identification of problems and barriers to data submission that	Members/ Regional Coordinator/ FAO/ WHO	Shared learning on how to optimise future data submission	Report on the pilot to CCEURO32 with lessons learned

<p>based principles</p>	<p>globally representative data in developing and reviewing Codex standards</p>	<p>pilot of a co-ordinated approach by the European region.</p>	<p>may exist in different countries of the region</p>			
	<p>2.3 Promote sufficient and sustainable funding for expert bodies that deliver scientific advice</p>	<p>2.3.1 To contribute to the drafting of a World Health Assembly resolution in 2020 on food safety, as proposed in the letter from Member States of the EU and others to DG WHO¹.</p> <p>2.3.2 To communicate within countries and to Geneva-based missions to ensure adoption of a World Health Assembly resolution in 2020 on food safety.</p>	<p>To incorporate within the World Health Assembly resolution a mechanism to ensure sufficient and sustainable funding for science from WHO</p>	<p>Members</p>	<p>A WHO commitment to sufficient and sustainable funding from its core budget</p>	<p>As part of the WHO report to CAC43 in July 2020</p>

Activities to be implemented in the CCLAC region in 2020-2021 to support the implementation of the Codex Strategic Plan 2020-2025

Priority Goal	Priority objective	Activities for the period 2020-2021	Rationale for proposed activities	Responsible or lead party	Expected output by 2021	Reporting mechanism
1. Address current, emerging and critical issues in a timely manner	1.1 Identify needs and emerging issues.	1.1.1 Circulate the survey to identify emerging issues in the region, in a timely manner and well in advance of CCLAC22.	It is important to follow up on the issues prioritized at CCLAC meetings and make efficient use of this agenda item, and to inform the Committee with proposals for prioritization and follow-up actions.	CCLAC Coordinator and Codex Secretariat based on results obtained at CCLAC meetings, specifically on the agenda item known as <i>Food safety and quality situation in the countries of the region: current and emerging issues in the region.</i>	80% of Members have contributed to the report on emerging food safety and quality issues in the region.	Documents circulated to members via Circular letters, document corresponding to the presentation of the topic at the CCLAC meeting.
	1.2 Prioritize needs and emerging issues.	1.2.1 Prioritize at most two of the identified issues of common interest to the region and determine their follow-up activities.	The identified issues should be prioritized, so as to address them in a timely and efficient manner.	CCLAC Coordinator and Codex Secretariat.	Action plan for follow-up on two priority areas is developed and presented to CCLAC22 and Members for follow-up.	Report to CCLAC22 with identified issues and proposed activities.
2. Develop standards based on science and Codex risk analysis principles	2.1. Use scientific advice consistently in line with Codex risk-analysis principles.	2.1.1 Conduct activities to support better understanding of scientific advisory groups and risk analysis in Codex by conducting an on-line course or use of other training tools such as video-conferencing or face-to-face workshops.	Improve the understanding of the use of scientific advice and help to facilitate the sharing of information among experts and risk assessors in the Region.	CCLAC Coordinator and Codex Secretariat.	All members have participated in a webinar on scientific advice and the work of the Joint FAO/WHO Programme on the provision of scientific advice.	Report to CCLAC22.
		2.1.2 Raise concerns at all levels of the Codex Alimentarius, from Commodity Committees and General Committees to the Commission and CCEXEC, where there is a	Codex standards are a reference for those countries that face difficulties in carrying out many of the evaluations and analyses needed to	All CCLAC member countries, led by the CCLAC Coordinator.	Member countries have reiterated the importance of science in the Codex standards	CCLAC21 reports on coordinated positions held at Codex plenary meetings and

Appendix II: Reports from Regional Co-ordinators on the major achievements and challenges in implementing the workplan in their regions and the next steps they envisage.

Introduction

During the last round of FAO/WHO Coordinating Committees, each committee, either during its session, or in the months immediately afterwards (through an EWG) developed a workplan of regional activities to support the implementation of the Codex Strategic Plan 2020-2025. The regional workplans focussed on goals as prioritized by each of the regions. Since the plans were developed, and before implementation could begin in earnest, the COVID19 pandemic struck. This has extensively changed the way that work can be conducted, and activities implemented. Also, in five of the regions new coordinators have been appointed since the plans were developed and therefore there was a transition between the previous and current coordinators. Nevertheless, the coordinators in each of the regions have worked to ensure that efforts were made in each of the regions to ensure that those areas prioritized by the coordinating committees received attention. For the purposes of this report each of the coordinators addressed the following questions as a means of highlighting both progress and challenges since the workplans were developed.

1. What were the major achievements in your region since January 2020? Looking at the regional work plan, where did the region make substantial progress? What results were achieved?
2. What were the major challenges that your Region faced in the implementation of the work plan? What were the reasons for the delay in progress? Which objectives/expected outputs had to be postponed and why?
3. What are the next steps that your Region envisages to implement the work plan? Are there any specific activities that will take place to achieve the set results? What are the major achievements expected by the end of the biennium?

The overviews developed by each of the Regional Coordinators are based on the information available at the time of preparation and should be viewed as preliminary in nature, in order to give a sense of the achievements as well as challenges faced and plans moving forward.

CCAFRICA

Implementation of the regional workplan - major achievements in the region since January 2020

For the past 18 months, the region has registered significant achievements in an effort to implement the activities to support implementation of the Codex Strategic Plan (2020-2025). Key highlights include:

- Training offered to over 10 Countries⁵ by the Codex Secretariat on Codex Tools such as the electronic working group platform (e-forum) and Online Commenting System (OCS) to enhance the skill and knowledge of stakeholders in the region to better engage and participate in the Codex activities
- Support to initiate pilots in five countries⁶ for the implementation of integrated surveillance on ESBL-producing *Escherichia coli* using a “One Health” approach as part of the efforts of building capacity for integrated surveillance of antimicrobial resistance in foodborne bacteria
- Strengthening capacity in the work of the Codex including advocacy and sensitization of policymakers through the implementation of Codex Trust Fund projects in countries that have ongoing projects. This has resulted in the elaboration of national Codex procedural manuals (Benin, Gambia, Guinea, Nigeria, Mali, and Cote d'Ivoire) to guide the effective management of codex work at the national level; an inventory and gap analysis of national food standards and identification of challenges on effective use of standards (Burkina Faso and Guinea); a work proposal for the elaboration of national food standards based on Codex standards for four staples and the training of stakeholders on the effective use of standards (Burkina Faso); elaboration of capacity building project to address gaps on the effective use of Codex

⁵ Uganda, Kenya, Rwanda, Tanzania, South Sudan, Sierra Leon, Senegal, Botswana, Guinea-Bissau, Madagascar and Malawi

⁶ Burkina Faso, Ghana, Nigeria, Senegal and Zimbabwe

standards (Senegal); sensitization of different stakeholders including policy makers to Codex standards (Cote d'Ivoire); redefinition of priority committees, formulation of national positions, preparation for sessions as well as the use of online Codex tools (Madagascar).

- Efforts to strengthen national food control systems using the FAO/WHO Food Control System have been made through a number of technical cooperation projects in Ghana, Liberia, Malawi, Niger, Sierra Leone to assess the status of food systems including development and use of the Codex standards. Support was provided to African Union Commission and Regional Economic Communities for the development of the continental food safety strategy and the operationalization of the Africa Continental Free Trade Area (AfCFTA).
- National events held across the region in over 15 countries⁷ in celebration of World Food Safety Day (WFSD) in 2020 and 2021 as one of the efforts to raise awareness and the profile of Food Safety in the region. A Regional event co-organized by the WHO, FAO, CCAFRICA and WFP in June 2021 was used as a platform to further raise the importance of Codex standards.

Major challenges that the Region faced in the implementation of the work plan

The delay in rolling out planned activities as provided in the work plan could be attributed to the heavy calendar of activities in late 2020 to mid-2021 as almost all activities turned to virtual means as a mode of delivery. With the desire to keep abreast with a lot of ongoing developments, a number of activities could not be undertaken as envisaged. The impacts created by the COVID-19 pandemic continue to manifest as several countries slow down on activities and refocus resources.

As a result of the unanticipated delays, a number of objectives/expected outputs had to be postponed including the process of identification of needs and emerging issues in the region which was supposed to be undertaken through a regional survey. Limited interventions have also been undertaken with regard to intentional promotion targeting the priority areas for the region (aflatoxins, pesticide residues, AMR). Whereas there have been isolated awareness initiatives to promote use of Codex standards by a number of countries most especially those with running CTF projects, the events need to be increased leveraging on the use of virtual tools. Sensitization of the policy makers to influence the food regulatory environment has equally not taken root in the region outside of selected countries that have had a number of events. The area of support to industries to comply with regulations needs additional analysis in order to design appropriate specific activities that could be pursued in the region.

Next steps that the Region envisages to implement the work plan

In order to effectively implement the activities in the work plan to achieve the expected results, the following will be undertaken:

- Convene an informal regional meeting for Africa within 2021 to focus on a range of aspects including but not limited to implementation of activities identified in the work plan to support the Codex Strategic Plan, work in EWGs in the region, CTF and status of FAO and WHO Capacity development initiatives and Food Safety strategies
- Engage the Codex Secretariat, FAO and WHO to launch regional survey to identify emerging food safety issues and needs including issues related to national food control systems within 2021
- Coordinate two regional (RECs) webinars on Codex online tools to enhance skills and knowledge in order to improve engagement of member states in the Codex processes by December 2021
- Enhance advocacy through strengthened collaboration with African Union, African Organization for Standardization, Regional Economic Communities and African Continental Free Trade Area Secretariat
- Convene one regional webinar to create awareness on priority issues for the region by October 2021 in order to enhance effective participation in the ongoing work under CCCF, CCPR and TFAMR
- Liaise with FAO/WHO to conduct a virtual session to increase awareness of the FAO/WHO Food Control System Assessment Tool and foster implementation in the region by November 2021

⁷ Kenya, Tanzania, Zimbabwe, Uganda, Burkina Faso, Senegal, Cabo Verde, Ghana, South Africa, Benin, Nigeria, Rwanda, Morocco and Botswana

- Leverage on the ongoing work in the region on development of guidelines for supporting the development of harmonized food laws for the CCAFRICA region to engage policy makers and key stakeholders in Food Safety
- Hold one on one virtual sessions with all members of the region to discuss constraints, challenges and opportunities by December 2021 taking into consideration the regions level of participation in Codex virtual sessions held between September 2020

CCASIA

Implementation of the regional workplan - major achievements in the region since January 2020

- a. A Mechanism is under discussion to achieve priority objective 1.1 (Identify needs and emerging issues) and 1.2 (Prioritize needs and emerging issues) in the work plan

According to the response to the circular letter and the discussion in CCASIA20, a list of critical and emerging food safety issues for CCASIA has been provided. Based on the list and the Codex working principles, *Prioritization of the Issues and Needs at the CCASIA Regional Level* has been drafted by CCASIA Secretariat and will be sent to the regional members and ask for their input.

- b. Technical support and scientific advice have been provided to regional members to achieve priority objective 2.1 (Use scientific advice consistently in line with Codex risk analysis principles)

WHO provided technical support to the Indonesian FDA to organize virtual workshop on ASEAN capacity building on rapid response during a food safety emergency. WHO has coordinated with the INFOSAN Secretariat and FAO to facilitate two series of online workshops for ASEAN Member States in 2020. FAO has organized the regional food safety conference for Asia and the Pacific virtually in November 2020. A webinar on Food Safety in the “new normal” was organized to celebrate the World Food Safety Day in June 2021 and attracted nearly 1,000 participants. The webinar highlighted the food safety activities from the UN organizations, and the shared responsibilities to ensure food safety for all stakeholders during the pandemic.

Several new activities on food safety have been carried out, e.g., Food safety poster, photo and video competition for the young generation 2020 initiated by the FAO regional office. These activities have improved the understanding of food safety, as well as the involvement of the whole of society. Several scientific reports, brochures and other materials have become available online to help the member countries to improve their technical capacity.

- c. Activities have been organized to achieve priority goal 3 (increase impact through the recognition and use of Codex standards)

A series of virtual webinars were organized on Codex Committee’s functions with involvement of Codex Committee chairpersons under a public private partnership programme and arrangements were made to provide free access for all Member States. Policy advocacy and awareness have been created through webinars on chemical contaminants in food and the need of generating data and information on chemical contaminants in food and risk mitigation measures have been highlighted.

- d. Funds have been provided in a sustainable way to achieve the priority goal 4 to promote engagement in Codex work

The Codex Trust Fund (CTF) in the CCASIA region has made big progress. The CTF group project (Bhutan, India and Nepal) activities have been partially implemented in 2020-21 despite the COVID-19 pandemic and reassignment of staff members. Bhutan was able to implement some activities even in 2020 whereas India and Nepal are trying to implement project activities. FAO and WHO facilitated submission of a group application by Myanmar on the behalf of Cambodia, Lao PDR and Myanmar to the Codex Trust Fund which was approved in 2020. Maldives and Timor-Leste were able to submit robust applications to the Codex Trust Fund, which were approved, and technical support has been provided to submit a summary project document.

Major challenges that the Region faced in the implementation of the work plan

Firstly, the Covid-19 pandemic has had an adverse impact in implementing planned activities due to repurposing of staffs and lockdown. Non-COVID-19 activities were put on hold and only virtual meetings, webinars and workshops were launched considering restriction of movement and the lockdown situation.

In addition, for CCASIA, to maintain efficient and effective communication is a challenge, since there is currently no single communication tool that can be available in every CCASIA member country. Email could be one option, but compared with other social media channels, e.g., WeChat, Twitter, etc. it is not as convenient. In addition, the response rate to the email, and the participation of member countries to the regional workshops in preparation to the Codex committees is below expectations.

Last but not the least, the tight schedule of Codex virtual meetings, webinars and workshops have taken up more time and energy of Codex offices in each member country, and since everybody is busy preparing for or attending virtual meetings, less resources can be allocated to other Codex work.

With regard to CTF, there were a series of face-to-face meetings proposed under the Codex Trust Fund project which were rescheduled or postponed from time to time. Many activities were reprogrammed, or resources reallocated, such as resources for participation in Codex Committee meetings with an increased focus on in-country-based activities. There was a transfer of focal points or responsible officers, and virtual meetings were organized to update and agree on reprogramming of planned activities and Member States are trying to achieve all targets by end of 2021.

Next steps that the Region envisages to implement the work plan

In order to better allocate the resources, and respond to the needs of the regional members, the criteria for prioritization of CCASIA regional Codex work will be circulated and comments sought from the member countries. According to the response, an updated list of critical and emerging food safety issues for CCASIA, as well as the refined prioritization criteria, will be available soon. Several approaches are under discussion to improve the communication efficiency and effectiveness and help to achieve better coordination among the CCASIA member countries.

With regard to the CTF programme, member states, namely Bhutan, India and Nepal, having a Codex Trust Fund group project in South Asia ongoing until the end of 2021, the COVID-19 pandemic has seriously hampered project implementation. They have reprogrammed activities in the wake of the COVID-19 pandemic, and they are trying their best to carry out planned activities such as face-to-face meetings during open window periods (silent periods between COVID-19 waves) taking precautionary measures against COVID-19. If the COVID-19 pandemic continues to hamper implementation of CTF project activities, the group CTF project will be extended by six months in 2022 and intercountry workshops will be organized to review the project and document good practices so that other group CTF project may benefit from lessons learnt. Champions of the first ever approved CTF group project will share their experience during a CTF / Diagnostic Tool webinar (CCASIA/CCNASWP) to be organized in July 2021 and their expertise will be utilized to support CTF projects in future.

There is a growing concern of AMR as a food safety issue in the Asia-Pacific region. A webinar on Codex work on rational use of antibiotics in food animals and integrated surveillance of AMR has been planned under FAO/OIE/WHO partnership in last quarter of 2021 with involvement of Codex Secretariat and Codex Intergovernmental Task Force on AMR.

CCEURO

Implementation the Regional Plan - major achievements in the region since January 2020

Under the Strategic Goal 1 – Address current, emerging and critical issues in a timely manner and objective 1.1 Identify needs and emerging issues, CCEURO agreed to create a repository of available information on food fraud, including contact details and explanatory guidelines on submission of information. A repository of contact persons for food fraud (hereinafter- CPFF) in member countries of the European region, as well as links to the authority bodies where CPFF are located has been created in 2020 and is accessible via the CCEURO regional webpages on the Codex Alimentarius website⁸.

Over past 18 months, the region has seen some significant achievements in an effort to implement the activities to support implementation of the Codex Strategic Plan (2020-2025). Key highlights include:

- Increasing participation rate of ex-Soviet countries in regional informal meetings, pre-session meetings and webinars
- Creation of communication channels in WhatsApp & Telegram to increase information exchange within the region
- Two post-Soviet countries (AZ, KAZ) became FAO / WHO Trust Fund grant holders in 2020.
- Preparation of a co-hosting arrangement with the Federal Republic of Germany for the implementation of the 32nd session of CCEURO in 2022.

⁸ <http://www.fao.org/fao-who-codexalimentarius/committees/codex-regions/cceuro/about/food-fraud/en/>

- Launch of a series of webinars for post-Soviet countries on Codex issues and the role of interagency coordination (Kyrgyz Republic, Turkmenistan, Uzbekistan, Ukraine, Armenia, Belarus)
- CCEURO support for the UN Food Systems Summit, 2021 - participation in the Independent Dialogue "Different Courses - One Goal" of the International Union of NGOs "Eurasian Peoples' Assembly", May 18, 2021.
- Numerous translations of strategic Codex documents into Russian

Major challenges that the Region faced in the implementation of the work plan

Due to the global challenge posed by the COVID-19 pandemic, CCEURO32 was postponed to 2022. The new preliminary dates for convening the meeting are 16-20 May, in Berlin, The Federal Republic of Germany.

Within the framework of the CCEURO work plan to support implementation of the Codex Strategic Plan 2020-2025, the pandemic has led to delays but some progress has been made or plans are in place to facilitate progression.

Priority Goal 1 – Address current, emerging and critical issues in a timely manner

Priority objective 1.1. Identify needs and emerging issues

Activities for the period 2020-2021 1.1.1. Collect more specific information on country's current, emerging and critical issues using and refining existing mechanisms.

The questionnaire regarding countries' current, emerging and critical issues will be circulated among the CCEURO members in 4th quarter of 2021. Therefore, we will be able to collect more specific information on countries' current, emerging and critical issues in consultation with FAO and WHO by using and refining existing mechanisms.

Priority Goal 2- Develop standards based on science and Codex risk based principles.

Priority objective 2.2 promote the submission and use of globally representative data in developing and reviewing Codex standards.

Activities for the period 2020-2021 2.2.1. To select from FAO and WHO scientific expert bodies calls for data a topic for a pilot of a co-ordinated approach by the European region.

The reason of delay: Prior to selecting a suitable candidate call for data to pilot a coordinated regional submission we decided to analyze the data provided by the member countries of the region for 2020 and the first half of 2021. An analysis of the responses from more than 80% of countries in the region revealed:

1. Regular submission of data from EU member states takes place from EFSA, incl. data from some non-EU countries.
2. Gaps were identified in the collection and receiving various data from industry, as they are the owners of the data, in particular on pesticide residues.
3. In most post-Soviet countries the main reason for not providing data is a lack of understanding of the necessary requirements for data generation in response to a specific request. Often there is a discrepancy between methodological approaches and/or lack of equipment needed to identify certain indicators of food safety.

Thus, the analysis of the data obtained indicates some difficulties that may arise in identifying a pilot topic based on the data for subsequent coordinated regional submission to the FAO / WHO expert committee. Further discussion in the frame of the CCEURO32 is needed to decide how to proceed on the activity.

Next steps that the Region envisages to implement the work plan?

A preliminary discussion on how to proceed with the implementation of activity 2.2.1 is planned to take place in the frame of an informal, virtual CCEURO meeting in September 2021.

The main priorities for CCEURO remain as follows:

- AMR
- Zilpatherol hydrochloride

- Food fraud
- Contaminants and food additives
- Climate change

Major achievements expected by the end of biennium:

- Enhancement of the level of engagement of post-soviet countries in Codex work.
- Strengthening cooperation in a new virtual environment.
- Activation of the region in terms of electronic commerce.

CCLAC

Implementation of the regional workplan - major achievements in the region since January 2020

ACT 2.1.2 Raise concerns at all levels of the Codex Alimentarius, from Commodity Committees and General Committees to the Commission and CCEXEC, where there is a proposal to stop or impede the progress of scientifically sound standards.

- CCEXEC80: An opportunity was presented to express the region's concern that some international organizations were making recommendations, for example on food labeling, without taking into account Codex standards or ongoing Codex work.

ACT. 2.2.1 Identify, promote, and support, to the extent possible, technical databases and networks in the region.

- CCCF14: Exchange of information and data between the countries of the region for the establishment of MLs for cadmium in chocolate and cocoa-derived products. As well as, for the work of the Code of Practice to mitigate cadmium in cocoa.

ACT 4.2.1 Strengthen the Region's participation in Codex electronic platforms (OCS and EWG Forum) so that they can play their role in contributing to inclusiveness in Codex discussions.

- Chile as Regional Coordinator in 2020, began a series of trainings for each interested country on the use of Codex electronic platforms (EWG, OCS, Forum).
- Within the framework of the Codex Alimentarius Trust Fund (CTF) project, Guatemala and El Salvador, are the most recent successful applicants (with CTF projects already ongoing in Honduras and Bolivia) from the region. In line with Goal 4 of the Codex Strategic Plan the project will focus on the development of capacities for the strengthening and effective management of the Codex Contact Points, the National Codex Commission and the national Codex mirror committees.
- The CTF project will allow El Salvador and Guatemala to increase interregional cooperation, achieve significant progress in the consolidation of their National Codex Programs and strengthen the technical capacities of the members of the National Codex Committees, technical committees and interested parties that, as a result of this support, are expected to participate effectively in the process of elaboration of standards and related texts of the Codex Alimentarius.
- The activities to be financed are aimed at strengthening the technical capacities of food safety aspects of the members that make up the national structure of the Codex Alimentarius in both countries, who through this project will achieve a better inter-institutional interrelation between themselves, a better application and interpretation of the international standards of the Codex Alimentarius, will strengthen their knowledge and capacity to participate in the Codex Alimentarius and also in the creation of standards related to food, enabling a benefit for the population through the application and creation of national regulation appropriate to the current times.

ACT 4.2.2: Development of South-South and triangular cooperation in the Latin American and Caribbean region.

- Celebration of World Food Safety Day 2021, with a regional event organized by CCLAC and International and Regional Organizations (FAO, PAHO/WHO, OIRSA, IICA).

- Organization of national events to strengthen internal capacities with the support of some Member Countries as twinning cooperation.
- Development of projects to strengthen National Committees of Member Countries through the Codex Trust Fund.

Major challenges that the Region faced in the implementation of the work plan

The COVID-19 pandemic and its spread has had an unforeseen impact on all the activities that were programmed in the context of the Codex Alimentarius in each country. Some activities that were planned to be carried out in person had to be postponed, and others were carried out virtually.

Undoubtedly, virtuality has been the main challenge due to the increase in the workload that the attention and active participation in some EWG and Webinars represents for the National Committees and the coordinators of the respective technical committees. In the same sense, some issues have been delayed due to the difficulty in communication and coordination with other countries led by EWG. However, in order to take advantage of the benefits offered by virtuality and as long as this work methodology is maintained, the countries have set the objective of increasing participation in Committees in which they had never participated, or such participation was greatly reduced due to costs. It represents for governments to increase the number of delegates in virtual sessions in order to have technical support during the debates.

Next steps that the Region envisages to implement the work plan?

- Meetings with FAO, PAHO/WHO to review the development of the global survey and adaptation for the region (Act. 1.1.1 y 1.2.1).
- Lead a meeting with regional and international organizations to identify, prioritize and promote technical support networks for the CCLAC region (Act 2.2.1).
- Continue with the work planned for the fulfilment of the Regional Plan.

CCNASWP

Implementation of the regional workplan - major achievements in the region since January 2020

2020 was an unfavourable year not only in the North America and Southwest Pacific region but globally. COVID-19 took its toll on people's lives and greatly impacted countries' economy.

The current pandemic has allowed Codex members to meet through virtual platforms and Fiji through these challenges have continued to actively participate in Codex Work. Since January 2020 till to-date, Fiji has made some significant progress work in alignment with the regional work plan. Major achievements include the following:

- Completion of the CCNASWP Regional Workplan development through an EWG.
- The successful assignment of a Codex Contact Point (CCP) through the office of the Chief Economist of the Ministry of Agriculture of Fiji to support their role of Regional coordinator and establishment of a generic email address for communication.
- The contact list for each member has been updated.
- Strengthening of the National Codex Committee (NCC) and increased participation of its members in various Codex meetings and activities, including the observance of World Food Safety Day which was organized through the Regional Coordinator office.

Major challenges that the Region faced in the implementation of the work plan

There were some major setbacks faced in the implementation of the work plan:

- Due to COVID-19, meetings and discussions are now conducted on a virtual platform. Facilitating a virtual meeting is difficult due to key stakeholder's schedule, internet access etc. In addition, the regional physical meeting has had to be postponed, likely to early 2023.
- Furthermore, with the current global pandemic the mechanisms available to facilitate the handing-over of the Regional Coordinator position were limited and there were initial communication challenges with the Codex Secretariat.
- Lack of technical and financial support to hold meetings and awareness activities.
- Lack of scientific data availability to support regional standard setting work and continue with Codex research work.

Next steps that the Region envisages to implement the work plan?

Planned Activities for the remaining months of 2021 are as follows:

- i. Fiji will be hosting CCNASWP regional meetings, on a virtual platform due to the current global pandemic, COVID-19. An informal Regional Meeting will be organized in the last quarter of 2021.
- ii. An informal regional meeting is scheduled to be held in 14 October, 2021. The meeting will be the first for Fiji to chair and a platform for all country members to share and update, on challenges and the way forward for the region in Codex work.
- iii. Fiji has been considered for Codex Trust Fund Round 5 application process. The submission has been made with just signature of the application by WHO pending, due to change in staff.
- iv. Implementation of the Kava standard e.g. inspection of imported Kava consignment to ensure it is noble and safe for consumption.
- v. Submission of Scopoletin test results to GEMS database through the Regional Coordinator.

CCNE

Implementation of the regional workplan - major achievements in the region since January 2020

- Holding the informal virtual meeting of the Coordinating Committee for the Near East
- Holding meetings with the countries in the region to address the latest developments in order to activate the role of the contact point and to enhance the contributions in Codex activities,
- Holding meetings with other regions to improve communication (Europe, Africa, Latin America and Caribbean)
- Activities related to World Food Safety Day and to promote celebration at the regional level
- Creation of two EWGs for the Maamoul project and alignment of the standard of food additives
- Participation in the virtual workshop organized by the Codex secretariat for the new Regional Coordinators
- Participation in the virtual workshop organized by the Codex Secretariat regarding the role of the regional coordinator in the Executive Committee,
- Activating a WhatsApp group between countries in the region, according to the communication plan of Codex,
- Enabling sustainable participation of national Codex member countries through workshop and side by side consultation
- Classifying the General subject committees and commodity committees' interest by country members
- Updating all contact details of the region contact points
- Questionnaire for the strategic plan of the region to hear the members' views and work on improvement in line with members' needs and expectations
- Survey seeking the members opinion about the most appropriate means of communication to use and work on improving and developing them in line with members' needs and expectations,
- Submission of a request to the Codex secretariat to hold a webinar for the region member countries called "Codex ABC" for those members that have recently joined the local Codex teams or members that would like to review their knowledge of Codex and its mechanisms.
- Increase in the level of engagement of the member countries
- Launched a webinar for CTF eligible countries with FAO/WHO Codex Trust Fund (CTF) to explain the CTF concept, give an overview of the relevant documents and share country experience and challenges on CTF application.
- Launched a workshop presented by the Codex Contact Points (CCP) of Egypt and CCP of Saudi Arabia, to the member countries in order to share their experience on Establishing National Committees to Develop the Capacity of Codex Structures at the National Levels

Major challenges that the Region faced in the implementation of the work plan

- Financial matters

- Absence of National Codex Committees in some member countries.
- Increasing the commitment level of Codex Contact Points

Next steps that the Region envisages to implement the work plan?

- Promoting effective participation of international delegations to proceedings of the Codex, the international food standard setting body, in a manner that is consistent with Codex values and principles.
- Advancing and acting collaboratively towards enhancing the capacity of Codex teams in member countries, such that they are able to prepare for, offer meaningful comments and participate in discussions related to advancing key Codex standards in progression through the step process.
- Encouraging the development of communities of practice at the regional and sub-regional levels, to propagate best practices in the preparation for and contribution to Codex proceedings.
- Development and dissemination of sustainable resources associated with productive participation in Codex proceedings and strengthen their use consistently by Codex delegations in the region.
- Strengthening the scientific role of member countries, and more support for training sessions.
- Launch a webinar for eligible countries for CTF to address the FAO/WHO Codex Trust Fund (CTF) guidance on the preparation of robust applications for CTF support

Appendix III: Progress report on activities undertaken by the Codex Secretariat that contribute to Strategic Goals 3 and 5.

Priority Goal	Priority objective	Activities for the period 2020-2021	Rationale for proposed activities	Responsible or lead party	Expected output by 2021	Reporting mechanism	Progress/Comments
3. Increase impact through the recognition and use of Codex Standards	3.1 Raise awareness of Codex standards	Codex communication's work plan Regional Communication workplans	The primary purpose of Codex Communications is to ensure the visibility of Codex work, that everyone can access the standards and any other relevant information relevant to Codex and also facilitate communications with and among Codex members and potential users of Codex standards. Increasing visibility of Codex online is a key aspects of this and WFSD provides an annual opportunity to focus on food	Codex Secretariat	Showcasing Codex work in the context of the SDGs. Updating the presentation of Codex standards to increase usability and also make them more widely accessible through FAO and WHO Outreach to stakeholders in particular through WFSD	Secretariat report on communications World Food Safety Day report ⁹	On Track Codex and the SDGs published here The Fish Code has been published in a new format available here The secretariat promoted Codex through participation in a range of WFSD virtual events and engaging with many stakeholders. Details of events are online here .

⁹ Available at <http://www.fao.org/fao-who-codexalimentarius/news-and-events/news-details/en/c/1438259/>

			safety and the role of Codex and engage with a broad audience.				
	3.2 Support initiatives to enable the understanding and implementation / application of Codex standards	Development of stories/case-studies on the use of Codex standards	In order to promote engagement in Codex work, to illustrate to stakeholders the potential benefits to Codex standards as well as identify challenges to their use and where possible how these were overcome, development of case studies and narrative stories on use of Codex standards are considered beneficial. These can be developed by the Codex Secretariat, FAO, WHO or others	Codex Secretariat, FAO	2-3 stories/case studies on use of standards published online	Secretariat report on progress to implementation the SP	On Track: FAO have published a case study on Codex pesticide MRLs and rice available here , which has been presented in several Codex fora and well received by Members. Preliminary work is underway for an FAO Case study which will consider Codex pesticide MRLs and tea. A narrative case study on the GPFH in Thailand is in publication and a second one on Codex animal feed texts is under preparation. Funding is being secured through a project funded by the Republic of Korea to develop other case studies.
	3.3 Recognise and promote	Development of a tool to measure	Assessing the use and impact	Codex Secretariat	Progress on the development of a	Secretariat report on	On Track: The Codex Secretariat

	the impact of Codex standards	the impact of Codex Standards (Updated following CCEXEC78 and CCGP32)	of Codex Standards allows to better demonstrate their importance and illustrate the benefits in adopting them. It also allows to identify challenges to their use and how to overcome them		mechanism to measure impact of Codex Standards	progress annually	has engaged the FAO and WHO evaluation units to assist in the development of a mechanism to monitor the use and impact of Codex Standards. A paper on the challenges and lessons learned in monitoring the use and impact of codex standards was prepared by the Codex Secretariat. Based on this, the FAO and WHO evaluation units are preparing Terms of Reference for a study to develop a mechanism to measure the use and impact of Codex standards.
5 Enhance work management systems and practices that support the efficient and effective achievement of all strategic plan goals	5.1 Develop and maintain efficient and effective work management practices and systems	Strengthen the critical review process to improve standards monitoring and development	An effective critical review process is fundamental to an efficient standards setting process	Codex Secretariat with the CCEXEC	CCEXEC is implementing a new approach to the critical review. Building on the approach of the critical review, restructuring of the CAC agenda and documents on standards setting work on a committee by	CCEXEC reports	On Track The Structure of the critical review papers has been updated. With virtual working mechanisms the critical review documentation is being prepared after each committee with a view to making it available earlier, in instalments, for CCEXEC review.

					committee basis.		The CAC agenda was restructured for CAC43 Building on this, for CAC44 the related CAC documents are being prepared by committee following the same chronological order as the critical review to make it more user-friendly, the issues more easily accessible by having all per committee together, and the publication/translation more speedy.
		Upgrade the Codex IT infrastructure to improve the user experience, increase the efficiency of the Secretariat and enable harvesting of data for performance monitoring and analysis (participation, timeliness etc.)	While the Codex Secretariat continue to develop the existing IT tools to support Codex work, feedback form both external and internal users highlight the need for further improvements to enhance efficiency and ensure that data that would contribute to monitoring of the	Codex Secretariat	User requirements defined Upgrade commissioned – Contract with external provider signed	Secretariat report on progress to implementation the SP	On Track The Codex Secretariat has engaged with the IT services division of FAO to review its IT infrastructure. Discussions are underway for a renewal of the Codex IT infrastructure with the aim of enhancing user experience and achieving better integration between the different services being provided to Members and Observers, also

			implementation of the Strategic plan can be more easily collected				considering the increase in virtual meetings. Through this project, Codex will also align to the latest FAO policies in terms of data security and management.
		Assess benefits and where cost effective, implement machine translation in Codex to facilitate multilingual discussions and expedite the availability of documents/reports	Language continues to be highlighted as a barrier to participation in Codex work such as EWG etc.	Codex Secretariat	Systems piloted and recommendations made for future use	Secretariat report on progress to implementation the SP	On Track Google translate was introduced into the online forum and enables the user to automatically translate comments in the forum to one of the official languages of Codex. The feature was added to forum when it was used to complete the discussions on CCLAC.
		Improve awareness and visibility of the procedures for review of Codex standards and provide guidance to facilitate their application. Identify approaches by which Members may be actively prompted to	While there is a lot of ongoing work in Codex on standards revision the mechanisms by which such work is undertaken and the procedures to follow are not easily accessible. This can present a challenge for Members that want to propose a	Codex Secretariat	Guidance available online on application of procedures for revision of Codex Standards Approach to promote revision of older standards in place	Secretariat report on progress to implementation the SP	On Track The Codex Secretariat continues to work with the Codex Subsidiary bodies on their work management processes which included revision of Standards. A paper on the issue of revisions and amendments to Codex texts was presented to CCGP32 by the Codex

		<p>review older standards in particular</p> <p>(Revised following CCEXEC78)</p>	<p>revision. This is a particular issue for standards that were developed by a committee that has since been adjourned sine die.</p> <p>Having standards dating back over 20 years does not reflect an active Standards development programme</p>				<p>Secretary to raise awareness on the current processes and consider how they could be further improved.</p> <p>The Codex Secretariat will next prepare a document indicating the amendments to the Guide to the Procedure for the Amendment and Revision of Codex Standards and Related Texts, recommended by the Secretariat including examples for the different changes and workflows, and the version</p>
		<p>Develop a handbook for delegates to support effective participation in Codex meetings</p> <p>(Added following CCEXEC78)</p>	<p>Effective time management and decision making by codex is the responsibility of all participants. For new delegates in particular it is important that they have access to information on how to effectively participate in advance of Codex meetings so that it can guide their</p>	Codex Secretariat	Handbook available online	Secretariat report on progress to implementation the SP	<p>On Track</p> <p>In light of the pandemic the preparation for guidance to delegates has focussed on the participation in virtual meetings. The information for delegates webpage has been updated, guidance and infographics provided in all Codex languages.</p>

			preparations as well as actual participation				
		Revise online training modules for codex delegates (Added following CCEXEC78)		FAO, Codex Secretariat	Module on participation in Codex meetings revised and published	Secretariat report on progress to implementation the SP	On Track Two modules of the online training on Codex have been updates and are on track to go online in the coming months. Work is underway to update the other modules with a year end target. Work is also ongoing in collaboration with the FAO regional office to develop a module for coordinating committees which in due course could be adapted for other regions.
	5.2 Enhance the capacities of committees and working group chairpersons, regional coordinator and host country secretariats to support the work of Codex	Provide a forum for host secretariats to meet, share experiences and increase their knowledge on roles and responsibilities of host secretariats	Having a kind of community of practice from which to learn and share experience, easy to access guidance and knowledge of available tools and how to use them is key improving capacity and efficiency. This	Codex Secretariat	Workshop for host secretariats implemented (2020)	Post workshop survey/feedback session	On Track Due to the pandemic it was not possible to convene any of the physical events indicated. However, these were replaced with virtual meetings. In 2020 a virtual meeting was convened with all host secretariats and two virtual meetings were convened with

			series of activities targets the structures and individuals that are fundamental to successful Codex meetings				Chairpersons, with a focus on adaptation to virtual working environments. Codex officer have also worked extensively with Committee and EWG chairpersons to ensure that work continued during the pandemic and to provide them with different tools to facilitate the work and enable outreach to the members such as through webinars, podcasts, video messages etc to the Members. Two virtual workshops were convened with the incoming coordinators in 2020.
		Provide a forum for Committee/task force chairpersons to meet, share experiences and increase their knowledge of tools and approaches to facilitate meetings		Codex Secretariat	Workshop for Chairpersons implemented (2021)	Post workshop survey/feedback session	
		Convene a		Codex	Incoming regional	Post workshop	

		workshop to facilitate hand over from outgoing regional coordinators and incoming coordinators (2020)		Secretariat	coordinators are familiar with their roles and responsibilities and prepared to effectively implement their new role	survey/feedback session	
		Finalise guidance for host secretariats (2020)		Codex Secretariat	Guidance for host secretariats available online	Secretariat report on progress to implementation the SP	This guidance has been put on hold due to the pandemic. However, draft guidance in relation to the role of host secretariats for virtual meetings was developed. Following the experience of the past year the guidance for host secretariats will now be revisited with a view to including guidance also on the different scenarios encountered in the past year.
		Handbook for Chairpersons is updated		Codex Secretariat	Version 2 of the handbook available online	Secretariat report on progress to implementation the SP	The Handbook has not yet been updated, rather the focus has been on working with chairpersons to address the new challenges faced in chairing a meeting virtually. This experience will feed into a revision of the

							handbook.
		Review mechanism to obtain feedback from Codex Membership	The view of the Membership on changes made is critical to ongoing improvement of our guidance and tools	Codex Secretariat	Meeting participant feedback opportunities (e.g. survey, mentimeter, sli.do etc) have been provided after each meeting, comments reviewed and specific issues identified for consideration in the subsequent biennial workplan	Secretariat report on progress to implementation the SP	On Track Surveys have been revised and sent to members and Observers after all Committees to get their feedback in particular on the virtual working mechanisms, challenges and benefits. Many of the webinars have included mentimeter surveys relevant to the particular topics with the data from these surveys being feedback to the Chairpersons and host secretariats as appropriate. The data is reviewed by the secretariat and used to direct efforts of continuous improvement within the secretariat activities.

Appendix IV: Mapping FAO and WHO also set out how their proposed strategic outcome areas and strategic priorities onto the five Strategic Goals of the Codex Strategic Plan 2020-2025.

Mapping linkages between the new FAO Food Safety Strategy and the Codex Strategic Plan 2020–2025

Codex Goals for 2020-2025	FAO Food Safety Strategy 2022-2031
Goal 1 Address current, emerging and critical issues in a timely manner	Strategic Outcome areas (SOAs) 1, 2, 3, & 4
Goal 2 Develop standards based on science and Codex risk-analysis principles	Strategic Outcome areas 1 & 2
Goal 3 Increase impact through the recognition and use of Codex standards	Strategic Outcome areas 1, 2, 3 & 4
Goal 4 Facilitate the participation of all Codex Members throughout the standard setting process	Strategic Outcome areas 1, 2 & 3
Goal 5 Enhance work management systems and practices that support the efficient and effective achievement of all strategic plan goals	Participation of Codex Secretariat in the process of the new FAO FS Strategy development

Mapping linkages between the new WHO Food Safety Strategy and the Codex Strategic Plan 2020–2025

*WHO Strategic Priorities are listed first and the related Codex Strategic Plan Goal is listed immediately beneath
