China National Center for Food
Safety Risk Assessment (CFSA),
Building 2, No. 37 Guangqu Road,
Chaoyang District, Beijing 100022,
China, E-mail: ccfa@cfsa.net.cn

BACKGROUND

1. CCFA51¹ considered the discussion paper on the use of nitrates (INS 251, 252) and nitrites (INS 249, 250) prepared by the electronic working group (EWG).
2. CCFA51 recognized that the previous call for data of the EWG had a rather narrow scope; and that limited data was made available; and that there was a need to provide a more comprehensive picture to inform CCFA to take a decision.
3. CCFA51 agreed to issue a Circular Letter (CL) to collect general information on the availability of: (i) occurrence data and / or dietary exposure to nitrates and nitrites; and (ii) surveys of natural occurrence and/or contamination levels of nitrates and nitrites in food and levels of nitrates and nitrites occurring from use as additives.

REQUEST FOR COMMENTS

4. Codex members and observers are invited to provide general information as described in para. 3. However, please note that members and observers should take care when submitting such information for this purpose to ensure that it is presented in the form of a general descriptive summary and not an extensive repository of data.
5. Based on the information provided in response to this CL, CCFA52 will consider whether it is appropriate to request a new JECFA assessment. (see REP19/FA, para.104)

¹ REP19/FA paras. 99-104.
