Objective

Creating standards that contribute to ensuring fair practices in food trade is a process that involves specialists in numerous food related scientific disciplines, together with IGOs, consumers' organizations, production and processing industries, food-control administrators and traders.

In conjunction with the 30th anniversary of the signing of the Marrakesh Agreement, "Facilitating fair practices in the food trade" will bring together IGOs and NGOs with Observer Status with Codex, with the objective of stimulating awareness and collaboration on this aspect of the Codex statutory purposes so that Codex standards continue to contribute to ensuring that traded food is safe, while harmonization between different actors is promoted.
