

Written statements submitted on the occasion of the twenty-eighth session of the Codex Committee on Fats and Oils, 19-23 February 2024

(Comments of Canada and European Union)

Canada

STATEMENT FROM CANADA CONCERNING RUSSIA'S INVASION OF UKRAINE

- Canada strongly condemns Russia's unjustifiable, unprovoked and illegal war of aggression against Ukraine.
- Canada underlines its strong and ongoing support for Ukraine and the Ukrainian people.
- The attacks cause widespread humanitarian consequences and result in the senseless deaths of innocent people and destruction of civilian infrastructure.
- Russia's illegal war of aggression is exacerbating global food insecurity and the rising number of people suffering from hunger and all forms of malnutrition.
- Russia's aggression has jeopardized global supply chains, and in particular Ukraine's ability to protect the health of its consumers and ensure fair practices in the food trade, the vision for the Codex Alimentarius Commission as jointly established by the Food and Agriculture Organization of the United Nations and the World Health Organization.
- This is not just an attack on Ukraine and its ability to engage in and benefit from this institution. This is an attack on the principles of rules-based international order and human rights, and a clear violation of international law and the UN Charter.

European Union

Statement of the European Union and its Member states on the Russian aggression against Ukraine

The European Union and its Member States express their full solidarity with Ukraine and the Ukrainian people. The European Union and its Member States condemn in the strongest possible terms Russia's unprovoked and unjustified act of aggression against Ukraine, which grossly violates international law and the United Nations Charter, and undermines international security and stability. The European Union and its Member States demand that Russia immediately cease its military actions, withdraw all its troops from the entire territory of Ukraine and fully respect Ukraine's territorial integrity, sovereignty and independence within its internationally recognised borders and abide by United Nations General Assembly resolution titled "Aggression against Ukraine" supported by 141 states at the 11th emergency special session. The European Union and its Member States resolutely support Ukraine's inherent right of self-defence and the Ukrainian armed forces' efforts to defend Ukraine's territorial integrity and population in accordance with Article 51 of the United Nations Charter. At all times Russia must respect its obligations under international law, including international humanitarian and human rights law, including with respect to the protection of civilians, women and children. Russia also needs to stop its disinformation campaign and cyber-attacks.
