Given the tight time frames WGE attendees are encouraged to review the Agenda Items and be prepared to offer alternative suggestions if the methods or typing are not appropriate.

In an effort to assist in the WGE the Chair and Secretariat are preparing a summary document, which attempts to supply some background information, context and considerations for the methods in CX/MAS 41/21/2 and 41/21/3. This summary document will be made available on the Codex website as soon as it becomes available.
