52nd Session of the Codex Committee on Pesticide Residues

Pre-meetings

22 July 2021
13:00-16:00 CET

Revision of the Classification of Food and Feed: Class C and Class D
(Agenda Items 7a-d)
Working Group chaired by the **United States of America**
and co-chaired by **The Netherlands**

23 July 2021
13:00-15:00 CET

Review of the IESTI Equations
(Agenda Item 11)
Working Group chaired by the **European Union**
and co-chaired by **Brazil** and **Uganda**

23 July 2021
15:00-16:00 CET

**Guidelines for compounds of low public health concern
that may be exempted from the establishment of Codex MRLs
or do not give rise to residues**
(Agenda Item 8)
Working Group chaired by **Chile**
and co-chaired by India and the **United States of America**

REVISION OF THE CLASSIFICATION OF FOOD AND FEED

Thursday 22 July

13:00-16:00 CET

The objective of this meeting is to provide Members and Observers with an opportunity to make progress on the revision of Class C and Class D and corresponding tables of representative commodities as well as to address recommendations 1 to 6 based on the information provided in the working documents and comments received in reply to CL 2021/37-PR in order to facilitate the consideration of this item by CCPR. The structure of the discussion will be as indicated below. Delegates are kindly requested to have with them all relevant working documents as indicated in the Reference Documents. A detailed editing exercise is not foreseen onscreen but few comments that could assist in progressing this item in the Step Procedure might be considered. The recommendations of this meeting will be considered by CCPR in order to advance these texts in the Step Procedure and determine further actions on the revision of the Classification.

AGENDA
ITEM

7a PART I: Revised Class C

1. Additional commodities for inclusion in the different groups/sub-groups
2. Relocation of commodities within the groups/sub-groups
3. Other comments/issues not covered by the points above

7b PART II: Revised Class D

1. Additional commodities for inclusion in the different groups/sub-groups
2. Relocation of commodities within the groups/sub-groups
3. Consideration of Recommendations 1 to 6
4. Other comments/issues not covered by the points above

7b PART III: Transfer of commodities from Class D to Class

1. Consideration of Recommendation 7
2. Classification of meals of oilseeds
3. Other comments/issues not covered by the points above

7c PART IV: Tables of representative commodities for the revised Class C and Class D

1. Additional commodities for inclusion in the tables
2. Relocation of commodities within the groups/sub-groups
3. Other comments/issues not covered by the points above

PART V: Impact of the revised Class C and D on CXLs

REVIEW OF THE IESTI EQUATIONS

Friday 23 July

13:00-15:00 CET

The objective of this meeting is to provide Members and Observer with an opportunity to consider the recommendations in relation to TORs(i-ii) on the review of the IESTI equations taking into consideration the information provided in the working document and the comments received in reply to CL 2021/42-PR in order to facilitate the consideration of this item by CCPR. The structure of the discussion will be as indicated below. Delegates are kindly invited to have with them all relevant working documents as indicated in the Reference Documents. The recommendations of this meeting on TORs(i-ii) will be considered by CCPR in order to determine further actions in relation to this item.

TOR(i): *Advantages and challenges arising from the current IESTI equation. To reflect on the findings of FAO/WHO on its review on the basis and the parameters of the IESTI equations, and a benchmark of the outcomes of the IESTI equations to a probabilistic distribution of actual exposures including other recent publications on acute dietary exposure assessment in the peer-reviewed literature.*

General Comments

- 1 Whether the information and analysis provided in sections 1-3 still provide room for further improvements and if so, (i) indicate whether further follow-up actions would be appropriate and so (ii) which would be the areas for improvements.
- 2 Whether the information and analysis provided in sections 1-3 sufficiently address TOR(i) and if so, whether work on this item should be concluded.
- 3 In case the information and analysis provided in sections 1-3 sufficiently address TOR(i) indicate where the information provided in sections 1 – 3 should reside (either the three sections or some of them)

Specific Comments

- 4 Any other comments on the recommendations concerning TOR(i) that could assist CCPR52 to decide on how to conclude on or follow-up to this matter.

TOR(ii): *Gather bulking and blending information and prepare an overview that will be discussed at CCPR52 and distributed to the 2020 JMPR after completion. The Codex Secretariat will issue a CL that will request information on bulking and blending.*

General Comments

- 5 Whether the information and analysis provided in section 4 and Appendix I sufficiently address TOR(ii) and if so whether Appendix I can be forwarded to JMPR for information or for further discussion/consideration.
- 6 Whether the information and analysis provided in section 4 and Appendix I still provide room for further improvements and if so, indicate which would be the areas for improvements.

Specific Comments

- 7 Any other comments on the recommendation concerning TOR(ii) that could assist CCPR52 to decide on how to conclude on or follow-up to this matter.

GUIDELINES FOR COMPOUNDS OF LOW PUBLIC HEALTH CONCERN THAT MAY BE EXEMPTED FROM THE ESTABLISHMENT OF CODEX MRLS OR DO NOT GIVE RISE TO RESIDUES

Friday 23 July
15:00-16:00 CET

All reference documents
are available on the
[Codex website \(CCPR52\)](#)

The objective of this meeting is to provide Members and Observers with an opportunity to make progress on the development of these Guidelines based on the information provided in the working document and comments received in reply to CL 2021/38-PR in order to facilitate the consideration of this item by CCPR. The structure of the discussion will be as indicated below. Delegates are kindly requested to have with them all relevant working documents as indicated in the Reference Documents. A detailed editing exercise is not foreseen onscreen but few comments that could assist in progressing the Guidelines in the Step Procedure might be considered. The conclusions and recommendations of this meeting will be considered by CCPR in order to advance the Guidelines in the Step Procedure.

General Comments on overall structure and content of the Guidelines and its readiness for advancement in the Step Procedure

Specific Comments on the various sections of the Guidelines:

- 1** whether the scope clearly reflect the intent of the guidelines;
- 2** whether there is need for more definitions and/or the current definitions need further improvements;
- 3** whether there is need for more criteria or the current criteria need further improvements;
- 4** other comments that Codex members and observers may feel relevant to improve the current draft.
