Agenda Item 4, 10

NFSDU/39 CRD/19

Original language only

JOINT FAO/WHO FOOD STANDARDS PROGRAMME CODEX COMMITTEE ON NUTRITION AND FOODS FOR SPECIAL DIETARY USES

Thirty-ninth Session

Berlin, Germany
4 - 8 December 2017

Comments of Republic of Korea

Agenda Item 4

Recommendation 35:

Comments :

The Republic of Korea supports the proposal that the definition of (name of product) for young children be edited:

[Name of product] for young children means a product specially ~~formulated and~~ manufactured for use as a liquid part of the **[progressively] [diversified]** diet of young children **[in order to contribute to the nutritional needs of young children] [when nutrient intakes may not be adequate to meet nutritional requirements]**.

Rationale :

The use of the proposed "formulated" in the definition is not consistent with the product definition proposals for follow-up formula for older infants and the product definition in the Infant Formula Standard.

Recommendation 37:

Comments :

*The Republic of Korea supports the name **Formulated drink for young children** for product for the 12 – 36 months age group.*

Agenda Item 10

Comments :

The Republic of Korea suggests that more scientific evidence would be needed for "free" of Trans Fatty Acids(TFAs) claim.

Rationale :

It is limited evidence because portion of foods typically consumed per day are based on only Canadian Community Health Survey.
