Agenda Item 9

**CX/AFRICA 02/9
October 2002**

JOINT FAO/WHO FOOD STANDARDS PROGRAMME

FAO/WHO COORDINATING COMMITTEE FOR AFRICA

Fifteenth Session

Kampala, Uganda, 26-29 November 2002

REPORTS ON CONSUMERS' PARTICIPATION IN THE WORK OF STANDARD SETTING

The FAO/WHO Conference on Food Standards, Chemicals in Food and Food Trade, which was held in March 1991, made recommendations to improve the involvement of consumer organizations in the work of Codex. The CAC at its 21st Session endorsed the recommendations, and requested its subsidiary bodies to involve consumers in their Codex decision-making processes. National member governments were also encouraged to do likewise. Since then, the issues on consumer participation in the work of Codex have been on the agenda of the CAC.

At the 22nd Session of the CAC and during the debate on the involvement of non-governmental organizations in the work of the CAC, the Observer of Consumers International¹ supported the convening of seminars and workshops, especially in developing countries, to explain the activities of the Commission and offered through its offices in developing countries to support this. The observer recommended improvement of transparency through the involvement of independent NGO consumer organizations and the strengthening of NGO participation in National Codex Committees and in national delegations to Codex meetings; the inclusion of consumer representatives as observers in the Executive Committee, JECFA, JMPR and other FAO/WHO expert consultations; the continued dissemination of Codex publications on the Internet and the possible establishment of a trust fund to improve consumer participation in Codex activities.

The 23rd Session of the Commission considered consumers' involvement in Codex work and asked the Committee on General Principles to review a checklist of measurable objectives to assess consumer participation in Codex work at the national and international levels. The Commission also proposed that Regional Coordinating Committees continue to exchange experiences on the means of developing consumer input into National Codex Committees and Contact Points (ALINORM 99/37, para. 43).

The 15th Session of the Committee on General Principles considered the recommendations of the Commission and endorsed with some amendments the proposed draft Guidance on Measurable Objectives to Assess Consumer Participation in Codex. The Committee called upon the Secretariat to begin the development of a set of baseline data as soon as possible. It was recommended that a report should be made to the Commission every two years (ALINORM 01/33, paras. 109-110).

¹ ALINORM 97/37, para. 156

This question was considered by the 49th (Extraordinary) Session of the Executive Committee. Although the Executive Committee agreed to the development of a baseline data on consumer participation as recommended by the Committee on General Principles, it was concerned that further mandatory reports at each Commission session would compromise the ability of the Commission to address its main work, namely the consideration of standards and related texts. It recommended that the Secretariat make this information available periodically to the Commission on the basis of the Checklist of Measurable Objectives to Assess Consumer Participation in Codex (ALINORM 03/3, para. 36). The Checklist of Measurable Objectives is as follows:

1. the number or percentage of member countries that have established a National Codex Contact Point
2. the number or percentage of member countries that have established a National Codex Committee
3. the number or percentage of member countries which hold public consultations when developing national positions for Codex meetings
4. the number or percentage of member countries that have identified independent consumer NGOs and invited them to participate in Codex meetings or in submitting written comments
5. the number or percentage of member countries where independent consumer NGOs have participated in developing national positions for Codex meetings.
6. the number of consumer NGOs that participate in the Codex process at the national level.

The last session of the Coordinating Committee for Africa decided to develop the proposed draft Guidelines for Codex Contact Points and National Codex committees for Africa region, which were presented by the Observer from Consumers'International, noting that the document, when adopted would enhance effective participation of all stakeholders and also promote participation in the work of the Codex member countries in the region. This document would be considered under Agenda Item 3.

Governments are invited to provide oral information on the status of consumers' participation in the standard setting at the national level and be ready to deliberate on the matter of the "measurable objectives" listed above.
