Agenda Item 3

CX/FO 03/3-Add.3

## JOINT FAO/WHO FOOD STANDARDS PROGRAMME

### CODEX COMMITTEE ON FATS AND OILS

Eighteenth Session

London, United Kingdom, 3 – 7 February 2003

### DRAFT REVISED STANDARD FOR OLIVE OILS AND OLIVE POMACE OILS

#### COMMENTS AT STEP 6

The following comments have been received from Brazil in response to CL 2001/4-FO and CL 2002/49-FO.

#### **BRAZIL**

Brazil reiterates the comments already forwarded as an answer to the CL 2001/4-FO, annexed to Alinorm 01/17 and constants of the CX/FO 03/3. It relates just the following items, which should have another draft establishing that the methods presentation must follow the criteria established in the Codex Standard, mentioning the reference.

#### **Item 8 – Methods of Analysis and Sampling**

Brazil suggests that the methodologies of American Oil Chemists' Society (AOCS) be included in the items referring to the analysis methods and sampling. Moreover, the presentation of methods must follow the criteria established by the Codex Norm ("Codex" Alimentarius Checklist of Information, Volume 13-1994, Chapter 1.2 Design, Conduct and Reporting of Results of Collaborative Study Supporting the Endorsement of the Method").

#### **APPENDIX**

#### **Item 4 – Methods of Analysis and Sampling**

Brazil suggests that the methodologies of American Oil Chemists' Society (AOCS) be included in the items referring to the analysis methods and sampling. Moreover, the presentation of methods must follow the criteria established by the Codex Norm ("Codex" Alimentarius Checklist of Information, Volume 13-1994, Chapter 1.2 Design, Conduct and Reporting of Results of Collaborative Study Supporting the Endorsement of the Method").
