CODEX COMMITTEE ON PROCESSED FRUITS AND VEGETABLES**

Proposals for Amendments to the Priority List for the Standardization of Processed Fruits and Vegetables

(Comments in Response to CL 2002/48-PFV)

Comments have been received by the United States.

The Codex Secretariat would like to draw the attention of Codex Members and Observers wishing to propose amendments to the Priority List for the Standardization of Processed Fruits and Vegetables namely: revision of existing Codex standards for processed fruits and vegetables included or not in the Priority List or elaboration of new Codex standards for processed fruits and vegetables to submit their proposals in a “project document” as adopted by the 27th Session of the Codex Alimentarius Commission in the *Amendments to the Procedures for the Elaboration of Codex Standards and Related Texts*. The “project document” is available in Appendix II, Part I, Point 1 of ALINORM 04/27/41 (Report of the 27th Session of the Commission) ready for downloading at: http://www.codexalimentarius.net/web/index_en.jsp.

UNITED STATES

The United States recommends that Canned Pineapple products be added to the Priority List for revision, and be afforded the highest priority due to the volume of trade and the vast number of processors worldwide.
