STANDARD FOR DRIED BASIL

CXS 345-2021

Adopted in 2021
1. **SCOPE**

This standard applies to basil leaves in their dried form as culinary herbs defined in Section 2.1 below, offered for direct consumption, as an ingredient in food processing, or for repackaging if required. It excludes products for industrial processing.

2. **DESCRIPTION**

2.1 **Product definition**

Dried basil is the product prepared from leaves of *Ocimum* spp. of the Lamiaceae family (Table 1), dried and processed in an appropriate manner. Undergoing operations such as cleaning, drying, rubbing, milling and sifting are sold in forms as indicated in Section 2.2 (Styles).

<table>

</tbody>
</table>

2.2 **Styles**

2.2.1 Dried basil may be:

- Whole/Intact
- Crushed/Rubbed/Flaked
- Ground/Powdered
- Of other styles distinct from those above, provided they are labelled accordingly.

2.2.2 The particle size of ground/powdered styles is determined by contractual agreement between buyer and seller.

3. **ESSENTIAL COMPOSITION AND QUALITY FACTORS**

3.1 **Composition**

Dried basil as described in Section 2 above shall conform to the requirements in Annexes I and II.

3.2 **Quality factors**

3.2.1 **Odour, flavour and colour**

Dried basil shall have a characteristic odour and flavour, which may vary depending on geo-climatic factors/conditions. Dried basil shall be free from any foreign odour or flavour and especially from mustiness odour. The typical colour of basil may change depending on post-harvest treatment.

3.2.2 **Chemical and physical characteristics**

The generic product shall comply with the requirements specified in Annex I (Chemical characteristics) and Annex II (Physical characteristics). The defects allowed must not affect the general appearance of the product as regards to its quality, keeping quality and presentation in the package.

4. **FOOD ADDITIVES**

Anticaking agents listed in Table 3 of the General Standard for Food Additives (CXS 192-1995) are acceptable for use in powdered form of the foods conforming to this standard.
5. **CONTAMINANTS**

5.1 The products covered by this standard shall comply with the maximum levels of the *General Standard for Contaminants and Toxins in Food and Feed* (CXS 193-1995), the *Code of Practice for Weed Control to Prevent and Reduce Pyrrolizidine Alkaloid Contamination in Food and Feed* (CXC 74-2014) and other relevant Codex texts.

5.2 The products covered by this standard shall comply with the maximum residue limits for pesticides established by the Codex Alimentarius Commission.

6. **HYGIENE**

6.1 It is recommended that the products covered by the provisions of this standard be prepared and handled in accordance with the appropriate sections of the *General Principles of Food Hygiene* (CXC 1-1969), the *Code of Hygienic Practice for Low-Moisture Foods* (CXC 75-2015) Annex III on spices and culinary herbs; *Code of Practice for the Prevention and Reduction of Mycotoxins in Spices* (CXC 78-2017), and other relevant Codex texts.

6.2 The products should comply with any microbiological criteria established in accordance with the *Principles and Guidelines for the Establishment and Application of Microbiological Criteria Related to Foods* (CXG 21-1997).

7. **WEIGHTS AND MEASURES**

Containers shall be as full as practicable without impairment of quality and shall be consistent with a proper declaration of contents for the product.

8. **LABELLING**

8.1 The products covered by the provisions of this standard shall be labelled in accordance with the *General Standard for the Labelling of Prepackaged Foods* (CXS 1-1985). In particular, the following specific provisions apply.

8.2 **Name of the product**

8.2.1 The common name of the product shall be as described in Section 2.1.

8.2.2 The common name may be used if the product is a blend of the different species listed in Table 1. If a trade name is used, then the product shall be a minimum of 80 percent of the species listed for that trade name.

8.2.3 The name of the product may include an indication of the trade name and varietal type described in Table 1 and style as described in Section 2.2.

8.3 **Country of origin and country of harvest**

8.3.1 Country of origin shall be declared.

8.3.2 Country of harvest (optional).

8.3.3 Region of harvest and year of harvest (optional).

8.4 **Labelling of non-retail containers**

Information for non-retail containers shall be given either on the container or in accompanying documents, except that the name of the product, lot identification, and the name and address of the manufacturer, packer, distributor or importer, as well as storage instructions, shall appear on the container. However, lot identification, and the name and address of the manufacturer, packer, distributor or importer may be replaced by an identification mark, provided that such a mark is clearly identifiable with the accompanying documents.

9. **METHODS OF ANALYSIS AND SAMPLING**

9.1 **Methods of analysis**

For checking the compliance with this standard, the methods of analysis and sampling contained in the *Recommended Methods of Analysis and Sampling* (CXS 234-1999) relevant to the provisions in this standard, shall be used.

9.2 **Sampling plan**

To be developed.
