

**FIRMS Steering Committee Meeting****Seventh Session****Rome, Italy, 12–13, and 16 December 2011****ACTIVITIES CARRIED OUT BY CCAMLR DURING THE INTERSESSIONAL****Author: CCAMLR Secretariat****1. Developments on inventories of marine resources, and of fisheries**

In association with the current re-development of the CCAMLR website, the Secretariat is reviewing the requirements and formats for reporting general information on species, fisheries and fishery resources of the Southern Ocean (i.e. CCAMLR's Convention Area). The review is considering the requirements for information, website contents and outreach, and how best to integrate these needs with other information requirements, such as those of FIRMS. Options such as the use of thematic pages and other consolidated approaches are being considered.

2. Reporting on status/trends of marine resources, and of fisheries

Refer above.

3. Development/review of standards

Limited current involvement.

4. Development of Applications

Limited current involvement.

5. Development of case studies/prototypes
