CHANGE THE VISION AND ADAPT THE PRINCIPLES

VISION

A maritime economy sustainable development that contributes to the sustainable and inclusive growth in order to optimize economic and social benefits and to minimize degradation of marine and coastal ecosystems

Overall Objective of the Program

Contribute to poverty reduction and social inequalities through the sustainable exploitation of ocean resources, the diversification of growth pillars and the promotion of a blue economy.

Specific objectives

A

Consolidate the national blue economy strategy (CASUEB) and strengthen the institutional framework

B

Prepare the national investment plan for the blue economy (PNIEB);

C

Carry out a feasibility study of a blue economy promotion and sustainability program including actions in favor of capacity building (PROMEB).
