

# Working Group: Socio-economic impact assessment

Group 1: Egypt, Ghana, Uganda

Group 2: Angola, Kenya, Nigeria

What has been the action taken ever since they got to know the virus threat

Do farmers/stakeholders know the existence of the virus and how are they protected? Control measures

# Nigeria, Angola and Kenya

- No report in three countries
  - Workshop activities
  - Sensitization of inspectors
  - Media communication and awareness
- 
- In Kenya, restriction of import of live and frozen tilapia. Next year, a complete ban.

# Egypt, Ghana and Uganda

- In Ghana, Massive mortalities published.
- In Egypt, implementation of biosecurity measures and ban for importation of fish.
- Uganda, disease awareness and ban for importation.
  
- Stakeholders
- Political issues
