**FAO HQ – ROME, ITALY
15-16 MAY 2019**

6.5. Review of progress on further streamlining of the reporting of national statistics

This agenda point focuses on mutual data sharing agreements among international and regional statistical data collecting institutions and organizations in order to minimize discrepancies and duplication, as well as to reduce countries' reporting burden.

The review monitors the progress reported in the intersessional meeting 2017 (Agenda point 4).

Inputs are requested from all participant parties based on a core set of best practices.

To address these main lines of a streamlined reporting mechanism for fishery statistics:

- consistency in concepts, standards and definitions;
- mainstreamed data provision serving several reporting requirements for Member Countries;
- improved accessibility through harmonized published formats;
- active collaboration for analysis of gaps and discrepancies;
- transparency through systematic processing and documentation of sources.
